STATEWIDE TRANSPORTATION PLANNING PROCESS CERTIFICATION

In accordance with Title 23 CFR 450.218, the Georgia Department of Transportation hereby certifies that its statewide transportation planning process is addressing major issues facing the State and its non-urbanized areas, and is being carried out in accordance with the following requirements:

I. 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;

II. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;

III. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex or age in employment or business opportunity;

IV. Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;

V. 23 CFR part 230, regarding implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;

VI. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27, 37, and 38;

VII. In States containing nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;

VIII. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;

IX. Section 324 of title 23 U.S.C., regarding the prohibition of discrimination based on gender; and

X. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

State Transportation Improvement Program

Introduction

We are pleased to present the Draft State Transportation Improvement Program (STIP) for Fiscal Years 2010 through 2013. The STIP lists Federally-funded transportation projects that are located outside Metropolitan Planning Organization (MPO) boundaries.

Each MPO develops its own Transportation Improvement Program (TIP) and questions about projects in those areas of the state may be directed to the individual MPO shown in the MPO Contacts section of this Draft STIP. The TIPs are included in the STIP by reference without modification once approved by the MPO and the Governor, or his designee.

Purpose

In order to receive Federal transportation project funds, the Georgia Department of Transportation (GDOT) produces the STIP annually which lists all highway, public transit, and multimodal projects proposed for funding under Title 23 (highways) and Title 49 (transit) of the U.S. Code. The STIP also includes non-Federally funded regionally significant transportation projects. The STIP includes Highway, Bridge, Bicycle, Pedestrian, Safety, Transportation Enhancement Activities and Public Transportation (transit) projects.

Project-related costs, such as preliminary engineering (PE), right-of-way acquisition (ROW), and construction (CST) are shown for highway projects; capital and operating costs are shown for transit projects. The projects are organized in alphabetical order by county with information on cost, description and fiscal year. Projects that extend into multiple counties are shown in the STIP under each county the project enters. Please see the Understanding STIP Entries Section for detailed information on how to read STIP entries.

Development

Projects listed in this document were identified through GDOT's ongoing planning processes and are vital to the state's transportation program. Projects in the STIP emphasize the maintenance, safety, and improvement of existing transportation facilities and public transportation systems. The projects support GDOT's mission to provide a safe, seamless and sustainable transportation system that supports Georgia's economy and is sensitive to its citizens and environment.

This STIP serves as a document to provide all citizens and interested stakeholders with the opportunity to review and comment on the state's transportation priorities for the next three fiscal years. Additionally in the non-MPO areas which the STIP covers projects are

identified in direct cooperation with rural (non-MPO) local governments through formal, annual face-to-face meetings with GDOT as well as regular/ongoing informal contact with GDOT throughout the rest of the year. It is also developed with input from stakeholders and the general public.

The STIP was developed under all relevant guidelines provided by the Transportation Equity Act for the 21st Century (TEA-21), passed by Congress in 1998 and continued with the passage of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). The STIP is submitted to the Federal Highway Administration and Federal Transit Administration for final approval.

Public Involvement

Through direct contact with local elected officials, as well as stakeholders and the general public, the STIP is presented for consideration and comments throughout its development. In addition to the face-to-face meetings with local elected officials, the Draft STIP is presented at public meetings held around the state by GDOT staff who encourage questions and input. These meetings are held at various locations and are advertised through mailings and press releases. Comments and questions can also be submitted by mail, e-mail and telephone/fax to directly to GDOT staff at any time throughout the year. The Draft STIP is also available on the internet at:
http://www.dot.ga.gov/informationcenter/programs/transportation/Pages/stip.aspx.

Funding

The STIP is fiscally balanced and includes only those projects with funding available or having a reasonable expectation to obtain funds. Federal funds for fiscal years 2009, 2009, 2010 and 2011 are program estimates and will not be final until after the Federal budget is implemented on October 1st of each year.

Cost estimates for individual projects are based on the best available engineering estimates. These costs may change as a project progresses from preliminary engineering to the purchase of right of way to construction. If a cost estimate results from a change in the original scope of the project, the STIP will be amended including the necessary public involvement. If an increased cost estimate is based on updated engineering improvements rather than a change in the actual work, no amendment to the STIP is necessary. Greater detail may be found in the Financial Plan Section contained in the Draft FY10-13 STIP.

The most current Census data indicates that Georgia's population growth rate from April 1, 2000 to July 1, 2005 was 10.8%, which is more than double the U. S. average population growth of 5.3% over the same time period. Georgia's economy is also growing, leading to increased demands on the transportation system. The STIP process ensures that maximum

benefits are received from available funding and that Georgia's transportation system will continue to support and promote Georgia's growth and economy.

Project List

The STIP is fiscally balanced such that it lists project phases expected for the fiscal year shown. It is worth noting that project schedules are subject to many issues and events between project conception and project conclusion that may impede or accelerate their progress. Project cost estimates are based on latest and best available engineering estimates at the time the STIP is being developed; the final cost for a project phase may be revised over time as the project is refined during its progression to construction.

Conclusion

In conclusion, the Department of Transportation wishes to thank all of the citizens and local officials for taking the time to provide input on the development of this program. Comments and questions may be directed to the persons listed on the inside front cover of the Draft STIP.

Public Involvement Process

Background on the State Transportation Improvement Program

Federal legislation requires that each state produce a State Transportation Improvement Program (STIP). The STIP lists federally funded transportation projects for the next four years, and is updated and approved on an annual basis.

A major component of the STIP development process is public involvement. The Office of Planning oversees the STIP public involvement process for the six rural GDOT Districts and distributes the STIP to the Districts for use in their public meetings and meetings with local officials.

- **Public meetings**

  Annual public meetings are scheduled to be held to provide the opportunity for public review and comment. In 2009 fourteen public meetings are scheduled on the following dates:

  August 25 - Helen
  August 31 - Helen
  August 31 - Jesup
  August 31 - Valdosta
  September 1 - Tifton
  September 3 - Albany
  September 3 - Carrollton (2 Meetings)
  September 8 - Jefferson
  September 10 - Buena Vista
  September 14 - Dublin
  September 15 - Milledgeville (2 Meetings)
  September 15 - Cartersville

  The Department invited large numbers of customers to these meetings. The Department mailed over 5,600 individual invitations to local officials and the Family of Partners, a group of stakeholders with interest in transportation.

  Ads were placed and press releases sent to local newspapers publicly announcing STIP meetings. Legal ads were placed in all Legal Organs in the state. An informational brochure explaining the STIP process is also published and distributed at the public meetings.

- **Meetings with Local Officials**

Every year as part of the STIP development process, the District Planning and Programming Engineers meet with the elected officials from at least each rural county in their area to discuss proposed projects in the STIP to solicit comments and questions. During these meetings, a range of transportation issues are discussed and requests are forwarded to the appropriate DOT office for response. Local officials sign a "Certification of Cooperation with Elected Officials" documenting STIP consultation.

- STIP on the Web

  The Department makes the Draft STIP available to citizens on the Department's web page. The web address for the Georgia Draft STIP is:

  www.georgiastip.com

  Contact information is also included on this site for citizen's comments.

- Comments

  Comments received from the public meetings and the meetings with locals are taken into consideration in the development of the STIP and any comments received are answered or forwarded to the appropriate GDOT office for response. The comments and questions received from the public meetings and the meetings with the local officials ranged from general comments such as the need for more public transit routes to project specific questions, such as when is a particular project scheduled for construction.

  Additional Comments can be sent using the contact information below:

LUMP SUM FUNDING

A portion of the STIP funding is set aside for nine groups of projects that do not affect the capacity of the roadway. The Lump Sum projects program is intended to give the Department and MPO flexibility to address projects of an immediate need while fulfilling the requirements of the STIP. Funds are set up in lump sum banks to undertake projects that are developed after the STIP is approved. These lump sums banks, located in the statewide or "All" county section of the STIP, are listed in a number of funding types for each year for the Department's convenience in managing and accounting for the funding. These Lump Sum Banks are shown in the TIP/STIP with the words "Lump Sum" in the *project description* and contain an amount of funding for each year. Funds are drawn from these lump sums during the year and individual projects are programmed. The individual projects may include work at one or several locations for letting and accounting purposes. Listed below are these eight groups and information about them. Except for groups for preliminary engineering and rights of way protective buying, the total available funds are shown as construction for easy accounting but preliminary engineering and rights-of-way may be drawn from this amount when needed in that category.

Individual projects are programmed and funds drawn from the Lump Sum Bank at the time these funds are needed for Preliminary Engineering, Rights of Way and Construction. These projects may be funded in the current year or one of the other TIP/STIP years. Funds for these projects are not counted until authorization is requested for the funds. At that time the actual cost is deducted from the balance in the Lump Sum Bank.

To provide the readers of the TIP/STIP with as much information as possible, individual projects to be funded from the Lump Sum Bank in the future may be shown in the TIP/STIP with a program year of LUMP and a preliminary estimated cost. These projects are also denoted with the words "Lump Sum Project" in the lower left area of the project listing. To avoid double counting these projects are not included in the county total at the end of the county.

Group: Maintenance

Criteria: existing system maintenance only

This group has six funding/work types: two are for bridge painting/maintenance and the other four are for roadway maintenance. Major types of work undertaken are: resurfacing, pavement rehabilitation, median work, impact attentuators, signing, fencing, pavement markings, landscaping, rest areas, walls, guardrail and shoulder work. Also included is preliminary engineering necessary to prepare plans and rights-of-way needed for work such as landslide repair, sewer hookups and erosion control.

Group: Safety

Criteria: work qualifying for the High Hazard Safety Program and other safety projects

This group includes the following work types: signal installation/upgrades, guardrail installation, sign installation, railroad protection devices, operational improvements, railroad crossing hazard elimination, roadway hazard elimination and special safety studies and programs.

Group: Preliminary Engineering

Criteria: planning, management systems and consultant design services

This group has two funding/work types: planning/management systems and consultant design services

Group: Wetland Mitigation

Criteria: site restoration for projects already under construction/complete and wetland banks
This group is a single item.

Group: Roadway/Interchange Lighting

Criteria: lighting

This group is a single item.

Group: Rights of Way - Protective Buying and Hardship Acquisitions

Criteria: purchase of parcel(s) of rights of way (RW) for future projects that are in jeopardy of development and for hardship acquisition. Qualifying projects are those that have preliminary engineering (PE) underway or have a PE, RW or construction phase in the STIP. For counties that are not in conformance for air quality the only qualifying projects are those that have a RW phase in the STIP. This group is a single item.

Group: Transportation Enhancement

Criteria: projects qualifying for the Transportation Enhancement program (TEA)

TEA projects shown in the STIP will be funded on a first come first served basis. When a project is funded it is drawn down from the lump sum. When all funds are gone, no other projects can be funded until the next fiscal year, which begins on July 1.

This group is a single item.

Group: Livable Centers Initiative (LCI)

Criteria: projects qualifying for the LCI program and selected by the Atlanta Regional Commission (ARC)

LCI implementation projects are selected on a competitive basis and lump sum funding amounts are programmed according to reasonable schedules for engineering, right of way acquisitions and construction for projects comprising the overall program. Funding for individual phases of a project may be shifted between fiscal years as necessary if such shifts do not affect the implementation schedule of other projects or exceed the overall lump sum funding amount.

This group is a single item.

Group: Safe Routes to Schools

Criteria: To enable and encourage children, including those with disabilities, to walk and bicycle to school; to make walking and bicycling to school safe and more appealing; and to facilitate the planning, development and implementation of projects that will improve safety, and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.

This group has two items; Infrastructure & non-infrastructure.

Group: High Risk Rural Roads

Criteria: States are required to identify these roadways (and expend the HRRR funds) according to the following definition:

any roadway functionally classified as a rural major or minor collector or a rural local road and

A. on which the accident rate for fatalities and incapacitating injuries exceeds the statewide average for those functional classes of roadway; or

B. that will likely have increases in traffic volume that are likely to create an accident rate for fatalities and incapacitating injuries that exceeds the statewide average for those functional classes of roadway."

Group: Regional Traffic Signal Optimization

Criteria: Applies to maintenance and operation of traffic control devices statewide. Candidate projects include:

A. Regional Traffic Operations Concepts

B. Micro-Regional Traffic Operations

C. Traffic Control Maintenance Contracts

D. Signal Timing

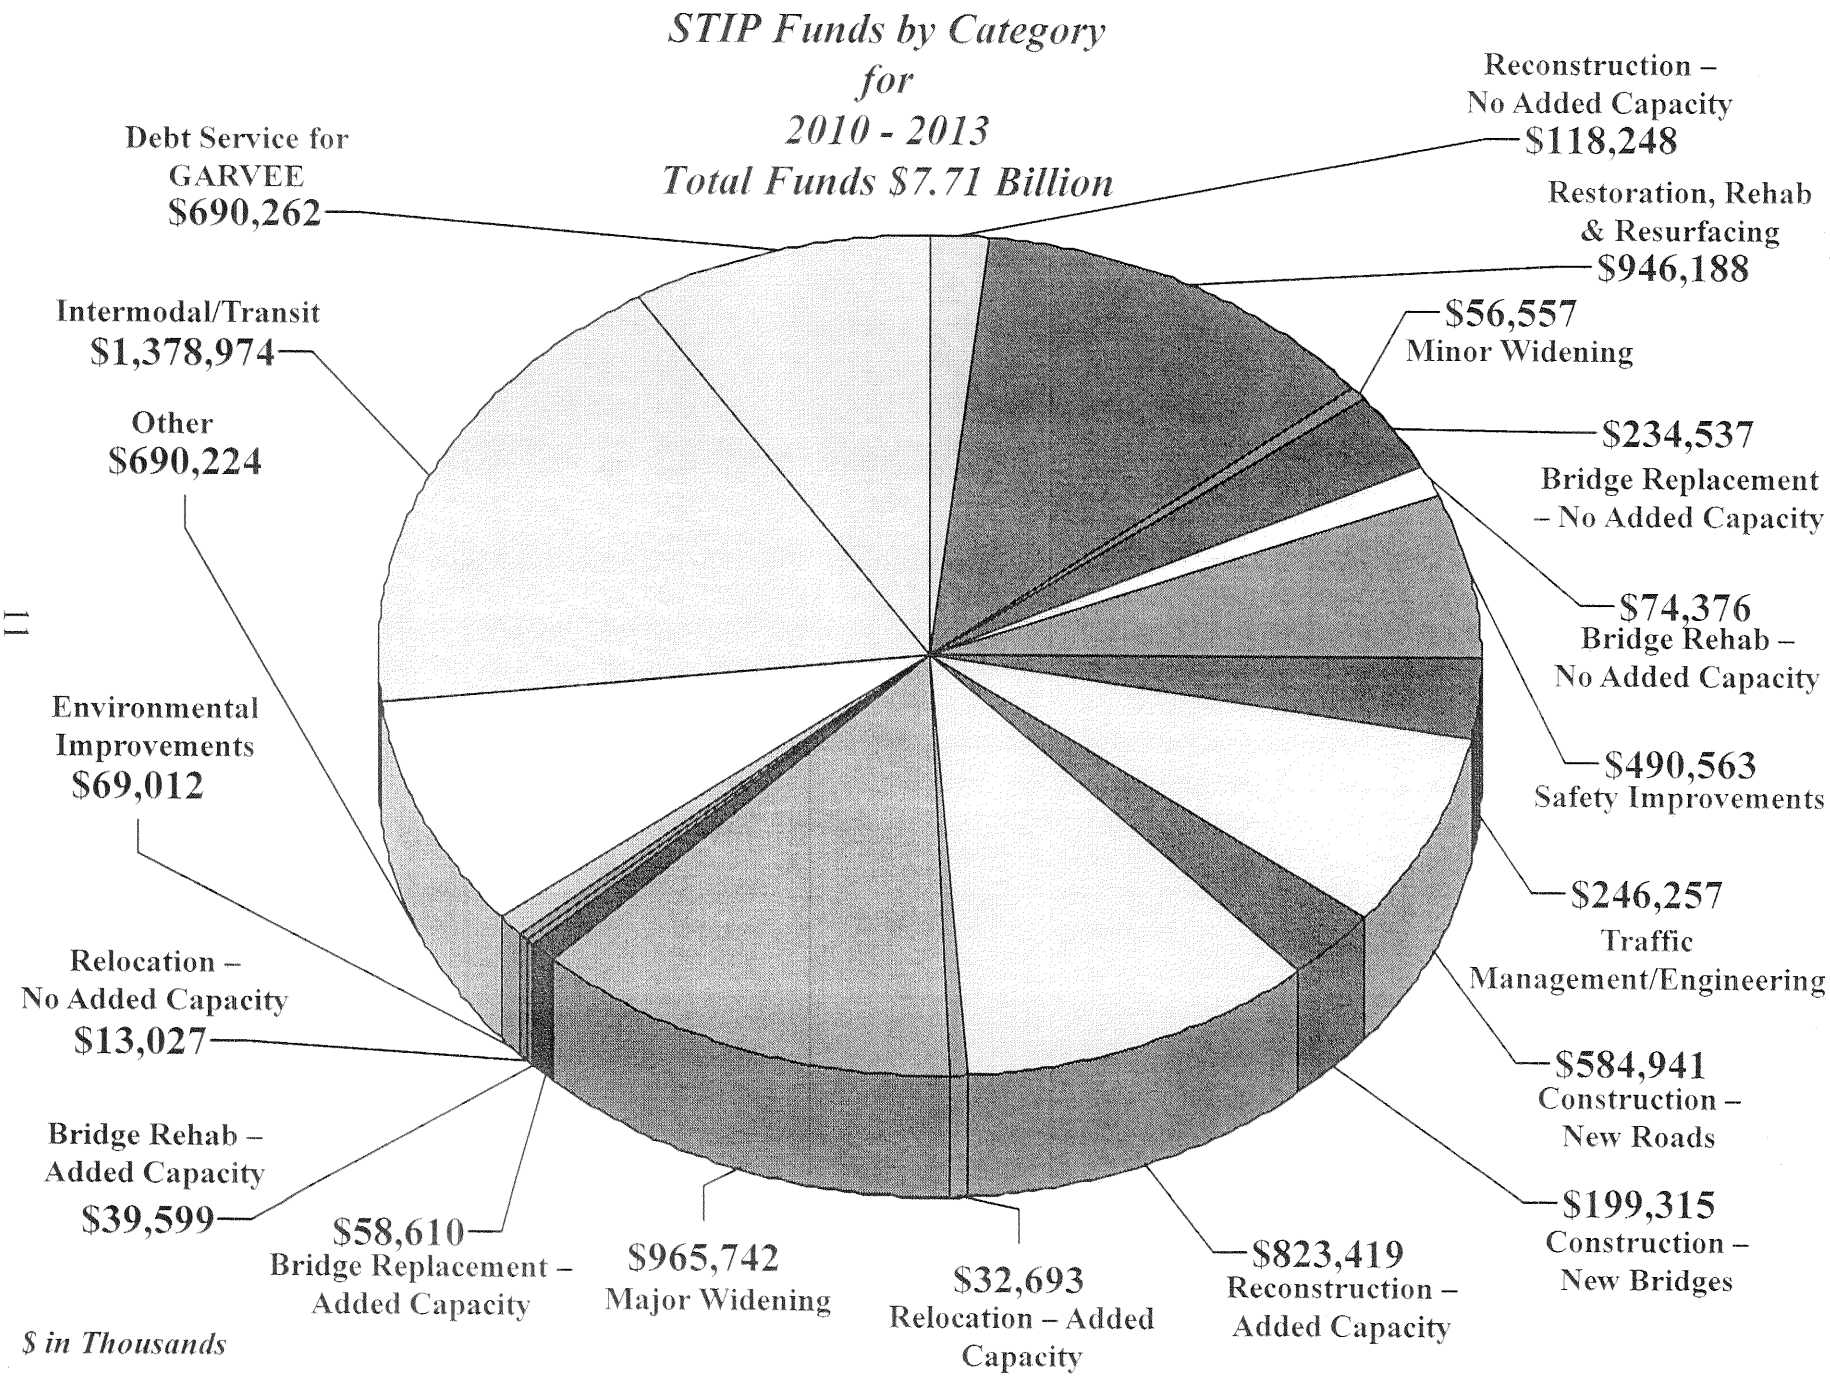
E. Identification of minor operational improvement projects to be submitted fir Operational Projects under another Lump Sum category.

Projects will:

A. Have to support the Regional or Statewide Traffic Signal Concept of Operations

B. Focus on operating and maintaining the components of traffic control systems

C. Local or quasi-governmental agencies may be contracted with at the project level.



STIP Funds by Category
for
2010 - 2013
Total Funds $7.71 Billion
Reconstruction – No Added Capacity $118,248
Restoration, Rehab & Resurfacing $946,188
$56,557 Minor Widening
$234,537 Bridge Replacement – No Added Capacity
$74,376 Bridge Rehab – No Added Capacity
$490,563 Safety Improvements
$246,257 Traffic Management/Engineering
$584,941 Construction – New Roads
$199,315 Construction – New Bridges
$823,419 Reconstruction – Added Capacity
$32,693 Relocation – Added Capacity
$965,742 Major Widening
$58,610 Bridge Replacement – Added Capacity
Bridge Rehab – Added Capacity $39,599
Relocation – No Added Capacity $13,027
Environmental Improvements $69,012
Other $690,224
Intermodal/Transit $1,378,974
Debt Service for GARVEE $690,262
$ in Thousands

Georgia Department of Transportation STIP Financial Plan

The Georgia Statewide Transportation Improvement Program (STIP) is developed in accordance with 23 Code of Federal Regulations (CFR) Section 450.216 and includes a priority list of highway, passenger rail and transit projects to be implemented (Section 630.106(a)(2)).

The following describes transportation program estimates which financially constrain by year the STIP Financial Plan (SFP) for Fiscal 2010-2013. In order to provide for 23CFR Section 630.110, "Modification of Original Agreements," for project phases authorized (Section 630.106(a)(2)) under a previous STIP, the SFP reserves a portion of the funding for this purpose and allocates the remaining transportation revenues to state and local projects for a four year time period. The financial plan includes projects for which funding can reasonably be expected to be available. Only those projects or project phases (preliminary engineering, rights-of way or construction) for highway projects or (capital or operating) for transit projects are included in the STIP.

The Fiscal 2010-2013 SFP was developed on the basis of current state and federal fund balances and projected 2010, 2011, 2012 and 2013 Federal-aid and state funding for each of the four years of the STIP. Also the Transportation Improvement Programs (TIP) and their related funding, developed by Georgia's fifteen Metropolitan Planning Organizations (MPO), are incorporated into the STIP by reference.

The Fiscal 2010-2013 SFP for highways and transit totals $7.71 billion with a FY 2010 annual program of $2.96 billion. Funding for this four-year program includes $6.02 billion in federal funds, $1.05 billion in state funds of which $.08 billion are State Bonds, and $0.64 billion in local funds. This level of infrastructure investment supports nearly 323,927 jobs in the construction industry as well as a well-maintained transportation system that fosters a healthy economy by providing the infrastructure for efficient movement of goods and people.

The project cost estimates used in developing the STIP are based on the best available engineering estimates at the time. Final cost for the actual project phase authorization may differ, right of way needs or design quantities are finalized through the pre-construction process. If changes due to these revisions alter the STIP description of intent, design, or scope of the project, then appropriate STIP amendment procedures, provided in this section, will be followed. Funds are also reserved for these amendments.

HIGHWAY PROGRAMS – *funded by SAFETEA-LU (Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users)*

Interstate Maintenance (IM) - Funds used for resurfacing, restoration, and rehabilitation of the Interstate Highway System. These funds cannot be used to provide new capacity to the system, nor for construction of new facilities such as rest areas, ports of entry, etc.

National Highway System (NHS) – The system of national highways approved by Congress and considered most important to interstate travel, national defense, connectivity with other modes of

transportation, and for international commerce. The system includes the current Interstate highways and other key state routes identified by the State.

Surface Transportation Program (STP) – STP funds may be used for a range of projects from new construction to resurfacing, and may be flexed to transit. STP funds are distributed according to federal guidelines and in compliance with State legislation.

The distribution of STP funds includes 62.5 percent for use in urban and rural areas of the state based on population. Another 27.5 percent can be used in any area of the state at the direction of the State Transportation Board. The remaining ten percent is used for Transportation Enhancement projects.

The Transportation Enhancement Program (TE) is very popular, especially with users of non-traditional transportation. The State Transportation Board established the Transportation Enhancements Advisory Panel to assist in project selection and to represent statewide interests with expertise in multi-modal facilities, historic resources, transportation aesthetics, scenic preservation and other TE-type activities.

There are twelve categories of TE projects.
These include "*...provisions of facilities for pedestrians and bicycles; provision of safety and educational activities for pedestrians and bicyclists; acquisition of scenic easements...or historic sites; scenic or historic highway programs (including the provision of tourist and welcome center facilities), landscaping and other scenic beautification; historic preservation, rehabilitation and operation of historic transportation buildings, structures, or facilities (including railroad facilities); preservation of abandoned railway corridors (including the conversion and use thereof for pedestrian or bicycle trails); control and removal of outdoor advertising; archaeological planning and research; and environmental mitigation to address water pollution due to highway runoff, or reduce vehicle-caused wildlife mortality (while maintaining habitat connectivity); and, establishment of transportation museums.*" Source: National Transportation Enhancement Clearinghouse.

Legislation limits eligible recipients to public agencies. However, private groups are encouraged to participate by applying through an appropriate public agency (County and/or City). TE program funds require a 20% match provided by the recipient.

Highway Safety Improvement Program (HSIP) - The Highway Safety Improvement Program is a new core Federal-aid funding program that began in FY 2006 to achieve a significant reduction in traffic fatalities and serious injuries on all public roads. Safety projects include Hazard Elimination, Railroad Crossing, and Railroad Protective Devices.

Congestion Mitigation/Air Quality (CMAQ) - These funds are for projects, which can be proven to reduce traffic congestion and/or improve air quality in non-attainment areas. Projects such as park and ride lots, signal coordination, and ride sharing qualify for these funds. Currently, there are twenty eight counties in the non-attainment area: Barrow, Bartow, Bibb, Carroll, Catoosa, Cherokee, Clayton, Cobb, Coweta, DeKalb, Douglas, Fayette, Floyd, Forsyth, Fulton, Gwinnett, Hall, Heard, Henry, Monroe, Murray, Newton, Paulding, Putnam, Rockdale, Spalding, Walker and Walton.

Bridge Replacement (BRG) - These funds are for the replacement or rehabilitation of substandard bridges both on and off the federal system. Bridges must have a span of 20 feet and must be listed

on the Federal Register with a sufficiency rating of 80 or less for rehabilitation and 50 or less for replacement.

Safe Routes To School Program (SRS) - The program purpose is to enable and encourage children, including those with disabilities, to walk and bicycle to school; to make walking and bicycling to school safe and more appealing; and to facilitate the planning, development and implementation of projects that will improve safety, and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.

Demonstration or High Priority (Demo, HPP) – These funds are congressionally authorized and designated for specified projects.

HIGHWAY FUNDING SOURCES

State Funding Sources - The $1.03 billion in State highway funds are available from several sources including motor fuel taxes, special fuel taxes (diesel), State Bonds and 3% state sales tax on gasoline. Eighty-two percent of these funds are used for construction and maintenance of state highways. Another eight percent are programmed for improvements to local roads. The remainder is not associated with a specific route. Revenues from these sources increase about one percent a year. State funds are part of the STIP program development, with about $.83 billion used for federal match.

Federal Highway Funding Sources – Federal highway funds in the STIP are estimated based on the Department's expectations of what Congress will authorize to be spent on the program. The Department expects to get at least $4.98 billion in federal highway funds over the next four years, from the Highway Trust and Other Funds and $2.06 billion from carryover funding from the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 and from SAFETEA-LU and previous highway laws. Georgia's yearly share from the Highway Trust Fund alone is anticipated to be about 3.45% of the estimated $45.1 billion or $1.56 billion in FY 2010. The obligation ceiling, or the minimum amount of funds that Georgia will receive, is 88.1% of that amount. Estimates are subject to change based on forthcoming yearly appropriation and obligation levels set by Congress.

Advance Construction (AC) – Federal law allows states to borrow against future federal funding. Available state dollars are used to fund these projects until payments are made. These projects are then partially or completely converted to regular federal funds and the Federal Highway Administration billed for the federal portion of these payments. Georgia maintains a "rolling" AC program where projects are AC the first year and converted the next year or so as funds are needed. Projects in the second year become the new AC projects to provide the funding needed to convert the first year projects. The process is repeated each year. This allows the state to advance projects by one or more years. The STIP shows the projects funded AC in previous years in appendix D. Many of these projects will be converted using FY 2010 federal funds. The amount converted, expected to be $75 million, will be balanced with the total amount of FY 2010 projects funded AC. The amount shown in the Available Federal Spending Authority table is the net increase in AC balance projected as this "rolling" AC program grows.

There are also four projects in the STIP (PI # 0006370, 0006371, 0006372, 0006373) establishing amounts for conversion for debt service of GARVEE bond projects that were funded federal AC. Appendix B shows a list of projects from which these amounts will be selected based on how much work has been completed and available federal apportionment types at the time of conversion.

Local Highway Funding Sources - During the four-year program, an estimated $391 million in local funds will be needed to match federal-aid for local highway projects and for local contributions to matching improvements on the state highway system.

FY 2010-2013 FUNDING OF HIGHWAY PROJECTS

The $6.49 billion highway program for FY 2010-2013 includes $5.07 billion in federal-aid, $1.03 billion in state funds and $0.39 billion in local funds. The following table summarizes program funding for FY 2010-2013:

FY 2010-2013 Highway Projects
($ Millions)

Fund Source	FY 2010	FY 2011	FY 2012	FY 2013	Total FY 2010-2013	Average Annual
Federal Aid	$2,046	$1,154	$1,074	$793	$5,067	$1,265
State Funds	$333	$216	$289	$195	$1,033	$261
Local Funds	$111	$132	$109	$39	$391	$98
Total	$2,490	$1,502	$1,472	$1,027	$6,491	$1,623
ARRA Funds (included in Federal)	$819	$0	$0	$0	$819	$819
Bond Funds (included in State)	$85	$0	$0	$0	$85	$21
Selected Program Distribution						
Sidewalks	$30	$23	$3	$1	$57	$14
Bicycle/Pedestrian	$27	$34	$20	$16	$97	$24
Transfer to Transit	$65	$6	$0	$40	$111	$28
HOV	$4	$11	$98	$27	$140	$35
ITS	$43	$23	$22	$19	$107	$27
Design	$126	$70	$57	$67	$320	$80

Local Road Assistance
Federal-aid to local governments is primarily from the Surface Transportation Program and the Bridge Replacement and Rehabilitation Program. Local governments also receive federal

demonstration funds for specific projects and Congestion Mitigation/Air Quality funds based on project eligibility and selection. Enhancement projects are selected statewide based on the guidance provided through the Georgia Transportation Enhancement Program.

Total Estimated Highway Funds and Available Spending Authority

($ Millions)

Category Groupings	FY 2010	FY 2011	FY 2012	FY 2013	Total
Apportionment					
Interstate Maintenance	$282	$289	$296	$303	$1,170

Safe, Accountable, Flexible, Efficient Transportation Equity Act (A Legacy for Users) – Title 3 programs

Transit, passenger rail, aviation, freight rail and ports join highways as significant modes in Georgia's intermodal transportation system. Non-highway modes funded through Title 3 or through moneys flexed from Title 1 are part of the STIP. Because of its importance to the state's transportation program, a comprehensive summary of non-highway modal programs, funded with *other than* SAFETEA-LU funding and administered by the Georgia Department of Transportation is included in this document.

TRANSIT PROGRAMS

The Georgia Department of Transportation (GDOT) in cooperation with the Federal Transit Administration (FTA) and the state's public transit agencies work together to develop service programs and facility improvements to meet the state's public transportation needs.

One of the missions of GDOT's public transit program is to preserve and enhance the state's facilities and equipment in urban and rural public transit. Public transit projects listed in the STIP are funded with Federal Transit Administration funds (under SAFETEA-LU). These projects have been identified by the MPOs through the transportation planning process and become a part of the Transportation Improvement Programs (TIP) in urban areas. The Department in cooperation with rural transit operators identifies rural needs. Urban transit projects are listed for cities with transit programs in operation - Albany, Athens, Atlanta, Augusta, Columbus, Gainesville, Hinesville, Macon, Rome and Savannah.

Typical urban transit projects include urban capital, planning, and operating (Section 5307) and statewide elderly/disabled capital (Section 5310) projects. GDOT is the designated recipient of FTA funds for areas under 200,000 population. The Department receives financing from the State's General Fund budget to match up to one-half of the local share of transit projects in Albany, Athens, Gainesville, Hinesville, Macon and Rome. In addition, the Department coordinates with the Georgia Department of Human Services (GDHS) on elderly and handicapped transportation projects.

Atlanta, Augusta, Savannah and Columbus have populations of over 200,000 and receive transit federal funds directly from FTA. The Department also provides up to one-half the local share of matching funds for capital projects in these areas. The Department has played an important role in providing financial assistance to match projects for Cobb Community Transit (CCT), the Gwinnett County Transit, the Metropolitan Atlanta Regional Transit Authority (MARTA), Clayton County and Douglas County.

Transit Programs include:

Urbanized Area Formula Program – FTA Section 5307 provides funding for capital, operating and planning assistance. Funds are distributed nationwide on a formula basis.

Clean Fuels Grant Program – FTA Section 5308 supports the use of alternative fuels for clean fuel vehicles and facilities.

Fixed Guideway Modernization Program – FTA Section 5309 provides capital funds for modernization of existing rail systems.

Bus and Bus-Related Facilities – FTA Section 5309 provides capital assistance for replacement and new buses and related equipment and facilities

Elderly and Individuals with Disabilities Program – FTA Section 5310 supports the capital costs of transportation services for older adults and people with disabilities.

Nonurbanized Area Formula Program – FTA Section 5311 provides funding to enhance the access of people in non-urbanized areas to healthcare, shopping, education, employment, public services and recreation. Funds are available for capital, operating and administrative expenses. This program also includes the Rural Transit Assistance Program for State DOTs (Section 5411(b)(3) which provides funding for training, technical assistance projects, research and other support services for rural transit operations. The Section 5311 Program also includes a 15% set-aside for capital support for the private intercity bus operators (Section 5311(f)).

Job Access and Reverse Commute Program – FTA Section 5316 provides formula funding to States and Designated Recipients to support the transport of welfare recipients and low income recipients to and from jobs and activities related to their employment including reverse commute projects.

New Freedom Program – FTA Section 5317 provides funding to support new public transportation services beyond those required by the Americans with Disabilities Act of 1990 (ADA) to assist individuals with disabilities with accessing transportation services, including transportation to and from jobs and employment support services.

Alternative Analysis Program – FTA Section 5339 provides grants to develop studies as part of the transportation planning process.

TRANSIT FUNDING SOURCES

State Funding Sources – The State Legislature provides up to one-half of the required twenty percent match for federal transit funding through the General Fund. Approximately $18 million in General Funds for transit purposes are programmed in the STIP.

Federal Transit Funding Sources – The $950 million in federal funds is partially based on estimates of federal revenue available to Georgia through the Transit Trust Fund and from earmarked funds in SAFETEA-LU.

Local Transit Funding Sources – During the four-year program, an estimated $254 million in local funds will be needed to match federal funds. These funds are acquired through local sales taxes, special taxing districts, property taxes as well as the general tax digest.

FY 2010-2013 Transit Projects
($ Thousands)

Fund Source	FY 2010	FY 2011	FY 2012	FY 2013	Total FY 2010-2013	Annual Average

AVIATION PROGRAMS

The mission of GDOT's aviation program is to preserve and enhance the State's air transportation system to meet the demands of users. The program provides financial and technical support to publicly owned, open to the public airports. The Georgia Department of Transportation is authorized to plan and support the establishment, development and maintenance of aviation and aviation facilities. The Georgia Airport Aid Program (GAAP) provides state funding assistance, appropriated by the Georgia General Assembly, for capital, maintenance, approach aid and planning projects. Development, Maintenance, Approach Aid, and Planning projects are funded at 75% state assistance or 50% state assistance for urban area airports lacking federal support. All FAA (Federal Aviation Administration) supported construction projects may be funded at 95% FAA and 2.5% state aid. Airport markings on State development projects are eligible for 100% funding. In addition, the minimum contract level of state funding assistance on all GAAP projects is $1,500. State projects (non-federal) are selected annually based on the GAAP Priority System criteria. Federally funded projects have the highest priority for matching state funds.

RAIL PROGRAMS

The primary mission of GDOT's rail program is to preserve and enhance the State's rail transportation system for future development and expansion of rail freight and rail passenger service. Existing rail corridors in the Department's Freight Rail Plan are identified to be either acquired and rehabilitated, or rehabilitated, in order to maintain and assure strategic rail freight access to Georgia's communities. Since 1992, GDOT has acquired 540 miles of light density railroad lines and since 1981, GDOT has rehabilitated 793 miles of light density railroad lines.

The passenger rail program defined in the document titled: *Intermodal Program for Rail Passenger Service in Georgia,* guides implementation of intrastate, intercity, and commuter rail passenger service to provide a multi-modal alternative in the State's largest travel market. Seven (7) commute services and six (6) intercity rail lines are identified in the Program to serve and connect together the Atlanta, Athens, Griffin, Macon, Bremen, Canton, Senoia, Albany, Savannah, Augusta, and Columbus metropolitan markets.

PORT PROGRAMS

The mission of GDOT's ports program is to partner with the Corps of Engineers to maintain the navigability of the Atlantic Intracoastal Waterway and Georgia's deepwater ports in Savannah and Brunswick. In order to maintain a navigable channel, the Corps of Engineers dredges the Savannah and Brunswick Harbors annually. The Department's role is to partner with the Corps to provide dredge material containment areas for the Corp's work for the federal navigation projects. The Department is required to cost/share in dike design, construction, and environmental mitigation. GDOT funds 35% of dike construction costs but no maintenance costs of disposal areas. GDOT annually requests funding from the Georgia General Assembly to cover the costs of these activities.

Statewide Transportation Improvement Program (STIP) and Transportation Improvement Program (TIP) Amendment Process

November 17, 2009

The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) issued the Final Rule to revise the Statewide and Metropolitan Transportation Planning regulations incorporating changes from the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users on February 14, 2007 with an effective date of March 16, 2007. The revised regulations clearly define administrative modifications and amendments as actions to update plans and programs. 23 Code of Federal Regulations (CFR) Part 450.104 defines administrative modifications and amendments as follows:

- Administrative modification "means a minor revision to a long-range statewide or metropolitan transportation plan, Transportation Improvement Program (TIP), or Statewide Transportation Improvement Program (STIP) that includes minor changes to project/project phase costs, minor changes to funding sources of previously-included projects, and minor changes to project/project phase initiation dates. Administrative Modification is a revision that does not require public review and comment, redemonstration of fiscal constraint, or a conformity determination (in nonattainment and maintenance areas)."

- Amendment "means a revision to a long-range statewide or metropolitan transportation plan, TIP, or STIP that involves a major change to a project included in a metropolitan transportation plan, TIP, or STIP, including the addition or deletion of a project or major change in project cost, project/project phase initiation dates, or a major change in design concept or design scope (e.g., changing project termini or the number of through traffic lanes). Changes to projects that are included only for illustrative purposes do not require an amendment. An amendment is a revision that requires public review and comment, redemonstration of fiscal constraint, or a conformity determination (for metropolitan transportation plans and TIPs involving "non-exempt" projects in nonattainment and maintenance areas). In the context of a long-range statewide transportation plan, an amendment is a revision approved by the State in accordance with its public involvement process."

The following procedures have been developed for processing administrative modifications and amendments to the STIP and Metropolitan Planning Organizations (MPOs) TIPs and Long Range Transportation Plans (LRTPs). Processes described below detail procedures that are to be used to update an existing approved STIP or TIP and associated plan, if applicable. A key element of the amendment process is to assure that funding balances are maintained.

Administrative Modification

The following actions are eligible as Administrative Modifications to the STIP/TIP/LRTP:

A. Revise a project description without changing the project scope, conflicting with the environmental document or changing the conformity finding in nonattainment and maintenance areas (less than 10% change in project termini). This change would not alter the original project intent.

B. Splitting or combining projects.

C. Federal funding category change.

D. Minor changes in expenditures for transit projects.

E. Roadway project phases may have a cost increase less than $2,000,000 or 20% of the amount to be authorized. The 20% scenario amount may not exceed $10,000,000.

F. Shifting projects within the 4-year STIP as long as the subsequent annual draft STIP was submitted prior to September 30.

G. Projects may be funded from lump sum banks as long as they are consistent with category definitions.

An administrative modification can be processed in accordance with these procedures provided that:

1. It does not affect the air quality conformity determination.
2. It does not impact financial constraint.
3. It does not require public review and comment.

The administrative modification process consists of a monthly list of notifications from GDOT to all involved parties, with change summaries sent on a monthly basis to the FHWA and FTA by the GDOT.

The GDOT will submit quarterly reports detailing projects drawn from each lump sum bank with remaining balance to the FHWA.

Amendment

The following actions are eligible as Amendments to the STIP/TIP/LRTP:

A. Addition or deletion of a project.

B. Addition or deletion of a phase of a project.

C. Roadway project phases that increase in cost over the thresholds described in the Administrative Modification section.

D. Addition of an annual TIP.

E. Major change to scope of work of an existing project. A major change would be any change that alters the original intent i.e. a change in the number of through lanes, a change in termini of more than 10 percent.

F. Shifting projects within the 4-year STIP which require redemonstration of fiscal constraint or when the subsequent annual draft STIP was not submitted prior to September 30. (See Administrative Modification item F.)

Amendments to the STIP/TIP/LRTP will be developed in accordance with the provisions of 23 CFR Part 450. This requires public review and comment and responses to all comments, either individually or in summary form. For amendments in MPO areas, the public review process should be carried out in accordance with the procedures outlined in the Participation Plan. The GDOT will assure that the amendment process and the public involvement procedures have been followed. Cost changes made to the second, third and fourth years of the STIP will be balanced during the STIP yearly update process. All amendments should be approved by FHWA and/or FTA.

Notes:

1. The date a TIP becomes effective is when the Governor or his designee approves it. For nonattainment and maintenance areas, the effective date of the TIP is based on the date of U.S. Department of Transportation's positive finding of conformity.

2. The date the STIP becomes effective is when FHWA and FTA approve it.

3. The STIP is developed on the state fiscal year which is July 1-June 30.

4. Funds for cost increases will come from those set aside in the STIP financial plan by the GDOT for modifications and cost increases. Fiscal Constraint will be maintained in the STIP at all times.

This is the PI or Project Identification number used throughout the life of the project for tracking purpose.

Type of work, replacement of an existing bridge. See Glossary of Terms for further definitions.

List the different phases involved in a particular project. Project can consist of Preliminary Engineering, Rights of way and/or Construction.

The status of when work is scheduled to begin . Rights of Way to be purchased in fiscal year 2007.

Fact Sheet

The Governor's Road Improvement Program (GRIP)

Definition

The Governor's Road Improvement Program, commonly referred to as GRIP, is a system of proposed economic developmental highways in Georgia. GRIP was originally adopted in 1989 by the Georgia General Assembly. Georgia law defines the following corridors as the GRIP:

- Appalachian Developmental Highway
- South Georgia Parkway/US 82
- US 319
- Golden Isles Parkway
- Fall Line Freeway
- SR 72
- Savannah River Parkway
- US 19
- US 1/SR 17
- US 27
- US 441
- US 84
- Sunbelt Parkway/SR 133
- Power Alley/US 280
- East-West Highway
- SR 40
- SR 32
- SR 125
- SR 15

GRIP was initiated in 1989 and originally consisted of 12 corridors with 2,845 miles of roadway, including 113 miles of truck access routes. During the 2001 and 2005 Legislative sessions, the General Assembly added new routes, including three truck access routes. The current length of the GRIP system has grown to **3,309 miles**. The total length will continue to vary as alignments, including bypasses and shifts, are determined through the engineering process.

Purpose

Economic development highways traditionally receive strong support in Georgia. The purpose of the GRIP system explains why :

- **Connectivity** in Rural Georgia: GRIP will connect 95% of Georgia cities with a population of 2,500 or more to the Interstate System and ensure that 98% of all areas in the state will be within 20 miles of a four-lane road.
- Provide **opportunities for growth**: Several studies have provided evidence that GRIP fosters economic development.
- Provide **effective and efficient transportation** for the growing statewide population
- **Safer travel** in rural areas: Accidents occur three times more often on 2-lane highways than on multi-lane divided highways – especially on corridors with the higher travel volumes.

Current GRIP Corridor Statistics

GRIP CORRIDOR	TOTAL LENGTH (miles)	COMPLETE OR UNDER CONSTRUCTION (miles)	COMPLETE OR UNDER CONSTRUCTION (percentage)	CORRIDOR STATUS	REMAINING COST TO COMPLETE (millions)
Appalachian Developmental Highway	60	58	97%	Complete	$0.0
South Georgia Parkway/US 82	262	262	100%	Complete	$0.0
US 319	72	72	100%	Complete Engineering Active Construction	$0.0
Golden Isles Parkway	168	168	100%	Complete Engineering Active Construction	$0.0
Fall Line Freeway	215	183	85%	Active Engineering and Construction	$474.2
SR 72	45	20	44%	Active Engineering and Construction	$221.8
Savannah River Parkway	156	156	100%	Active Engineering and Construction	$0.0
US 19	194	194	100%	Active Engineering and Construction	$0.0
US 1/SR 17	331	157	47%	Active Engineering and Construction	$1,384.0
US 27	352	304	86%	Active Engineering and Construction	$777.6
US 441	371	196	53%	Active Engineering and Construction	$1,927.9
US 84	259	235	91%	Active Engineering and Construction	$162.5
Sunbelt Parkway/SR 133	66	0	0%	Active Engineering	$499.1
Power Alley/US 280 (active)	27	0	0%	Active Engineering on 27 miles only	$277.0
Power Alley/US 280 (inactive)	177	0	0%	No Activity	$2,099.0
SR 32 (active)	44	0	0%	Active Engineering on 44 miles only	$405.6
SR 32 (inactive)	145	13	9%	No Activity	$1,645.7
SR 40	29	13	45%	Active Engineering	$81.4
East-West Highway	169	0	0%	No Activity	$657.1
SR 15	149	0	0%	No Activity	$1,516.1
SR 125	22	4	18%	No Activity	$280.4
Subtotals for Original 1989 GRIP Corridors:	**2485**	**2005**	**81%**		**$4,948.0**
Subtotals for Active & Complete GRIP Corridors:	**2651**	**2018**	**76%**		**$6,211.1**
Grand Totals for all GRIP Corridors:	**3313**	**2035**	**61%**		**$12,409.4**

Meeting the Challenge

GDOT is striving to complete the construction of the GRIP System. A strategy is in place that recognizes the complexity of each of the three phases of project development:

- Engineering (including environmental studies)
- Right of way acquisition
- Construction

These phases are not generally scheduled for completion in the same year, and in most cases a phase takes several years to complete. Another consideration in scheduling each phase is the availability of funds. A multiple-year funding program to accomplish the planning, design, right of way and construction of the GRIP System is based on these considerations and the past funding history for GRIP projects.

GLOSSARY OF TERMS

ATMS
Advanced Transportation Management System; a computerized system that integrates video, voice, and data management functions to collect information about the transportation infrastructure and performance analysis as well as support traffic management decisions based on real-time information.

CMAQ
Congestion Mitigation and Air Quality Improvement Program; directs funds primarily to areas that have failed to reach certain air quality standards. Projects allowed under this program include mass transit improvements and high-occupancy vehicle facilities.

CST
Construction; phase of a project that includes the actual construction of the project.

DONOR STATE BONUS
Donor states are states that contribute more to the Highway Trust Fund than they receive back in federal-aid highway programs. These states receive a predetermined amount based on a comparison of a projection of all payments into the Highway Trust Fund and the amount received in federal-aid apportionments. Starting with the state with the lowest return, states are brought up to the level of return for states with the next higher level of return until available funds are depleted.

FED Share
Federal Share; portion of funding to be paid for with federal money.

GARVEE
Grant Anticipation Revenue Vehicle; bonds against anticipated federal funds for the purpose of accelerating the construction of the "Governor's Road Improvement Program".

GA Share
Georgia Share; portion of funding to be paid for with state money.

GRVA
GARVEE Advance; advance funding to pay for "Governor's Road Improvement Program" projects with GARVEE bond before converting to regular federal aid funding.

GRVC
GARVEE Converted; funding to pay back the GARVEE bond.

HPP
High Priority Project; list of 1,850 high priority projects specified by Congress in TEA-21. Funding for these projects totals $9.4 billion over the six years of TEA-21. Georgia will receive $283.87 million for 40 projects.

HIGHWAY TRUST FUND
Federal account established by law to hold receipts collected by the government, earmarked for highway programs and a portion of the mass transit program; supported by the federal gasoline tax and other user taxes.

INTERMODAL SURFACE TRANSPORTATION EFFICIENCY ACT of 1991 (ISTEA)
Transportation bill approved by Congress in 1991.

METROPOLITAN PLANNING ORGANIZATION (MPO)
Required by federal regulations in urbanized areas to develop transportation plans and programs; responsible for developing the Transportation Improvement Program (TIP).

NEPA
National Environmental Policy Act of 1969; requires federal government to use all practical means and measures to protect environmental values; makes environmental protection a part of the mandate of every federal agency and department.

NHS
National Highway System; consists primarily of the Interstates and other major routes. Includes a large percentage of urban and rural principal arterials.

NON-ATTAINMENT
The 13 county area around Atlanta that fails to meet federal air-quality standards. Projects in the non-attainment area are not allowed to proceed if there is an increase in capacity of a roadway unless they were identified in the 1995 TIP for Atlanta.

OBLIGATION CEILING
The maximum amount that a state is expected to receive from the Highway Trust Fund .

OTH Share
Other Share; portion of funding to be paid for with money other than federal or state funds; generally provided by local governments.

PE
Preliminary Engineering; phase of a project that includes the development of the concept, survey, environmental documentation and design plans.

ROW
Right of Way; phase of a project that includes the acquisition of any necessary property for the construction of the project.

STATE AID LET
Projects that are funded with state money.

STATE HIGHWAY SYSTEM
Network of roads maintained by the state including road and bridge construction, maintenance, rehabilitation and restoration. There are approximately 17, 947 miles of state highways in Georgia which make up 16% of the total public road system in the state.

STP
Surface Transportation Program; federal funding category that provides funding for projects on any federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, and public bus terminals and facilities.

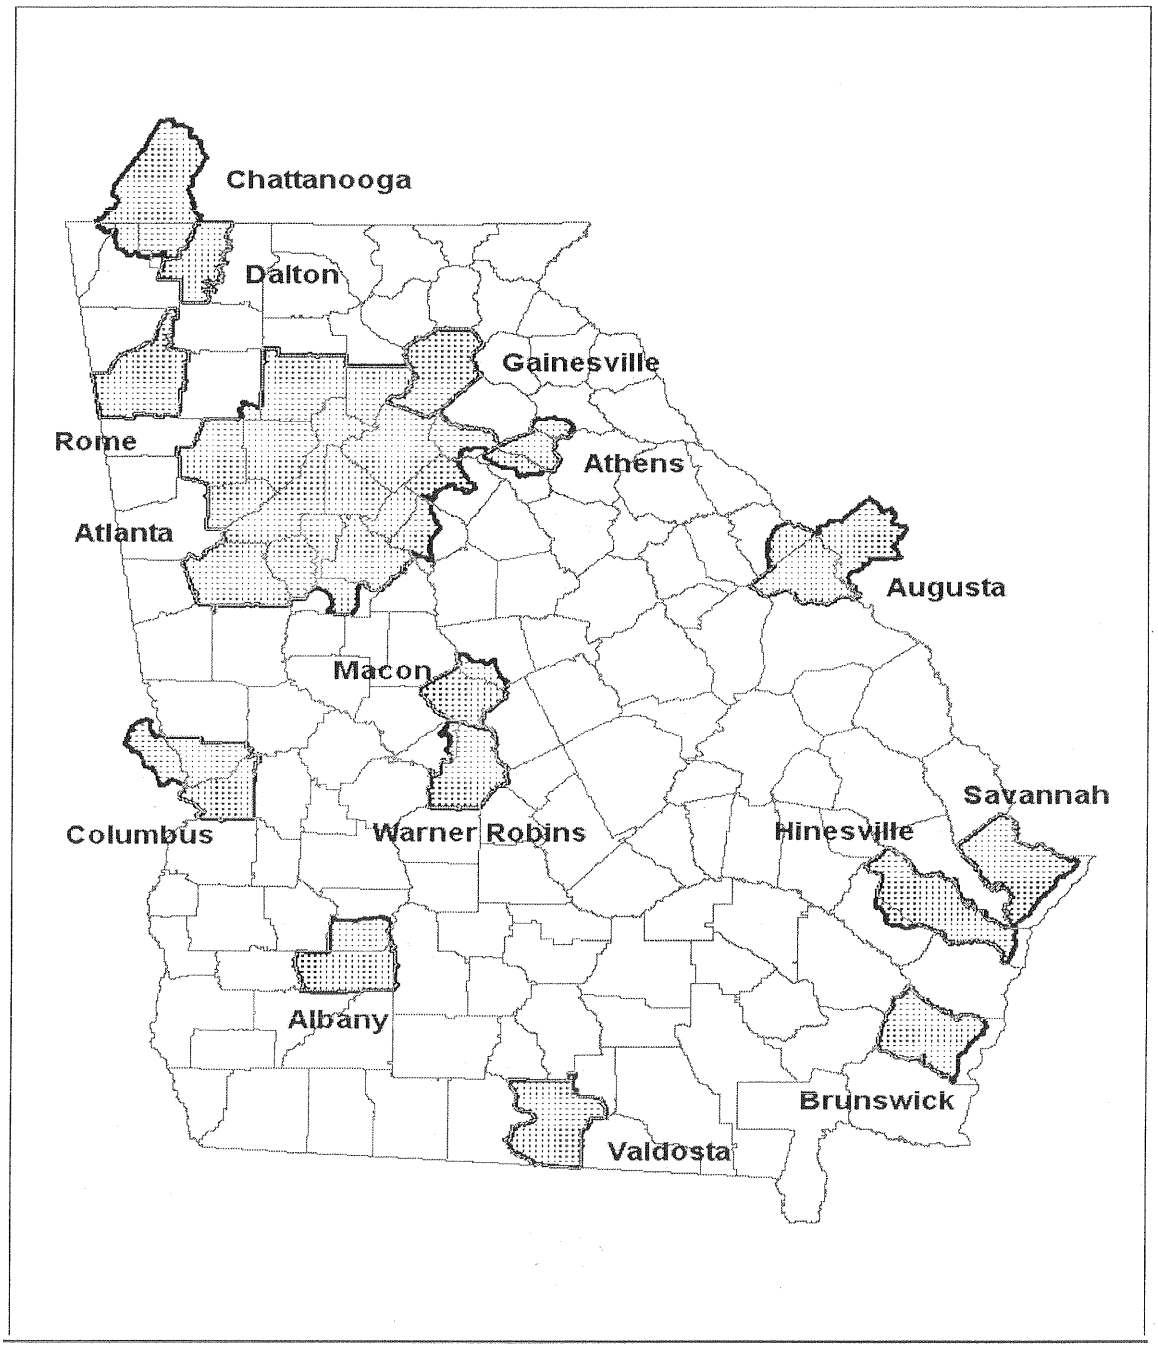
TRANSPORTATION EQUITY ACT FOR THE 21ST CENTURY (TEA-21)
Six year transportation bill approved by Congress in 1998.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)
In metropolitan areas over 50,000 in population, a program of federally funded transportation projects proposed to be carried out in the first three years of adoption by the MPO. There are 11 urbanized areas in Georgia – Chattanooga, Rome, Athens, Augusta, Savannah, Brunswick, Macon, Columbus, Albany, Atlanta, and Warner Robins. The TIPS's are incorporated into the STIP as adopted by the respective governments and approved by the Governor, with no changes.

TYPE WORK – category of project and source of funding

ATM/ITS - Advanced Transportation Management/Intelligent Transportation System; work relating to computerized transportation system that supports traffic management decisions; commonly known as the NAVIGATOR System.
Bicycle/Ped. Facility - generally bike/pedestrian path/lane funded through a Transportation Enhancement Activity (TEA) project.
Bridges - lump sum funding identified for bridge maintenance or bridge painting.
Bridge Painting - lump sum for bridge painting.
Bridge Rehab - bridge rehabilitation – work that will improve and/or widen an existing bridge.
Capital - funding identified for the purchase of transit related items.
Historic Preservation - restoration or rehabilitation of historic structures that have a direct linkage to the transportation system; funded as part of a Transportation Enhancement Activities (TEA) project.
Interchange - work at an interchange.
Intersection Improvement - work that will improve an existing intersection.
Landscaping - purchase/installation of shrubbery, plants, trees, etc.
Lighting - lump sum funding for purchase/installation of lighting along a National Highway System road.
Miscellaneous Improvements - identified for various projects that are not necessarily covered by a standard category.
New Construction - new roadway construction on new location.
Operating: funding identified for the operation of transit systems.
Passing Lanes -- passing lanes added along an existing roadway.
Preliminary Engineering - the design phase of a project.
Ramp - construction work on a ramp at an interchange.
Realignment - improvements to the geometry of a roadway.
Replace Bridge - construction of a new bridge to replace an existing bridge.
Rest Area - construction of rest areas along state routes (Interstates).
Resurface and Maintenance - re-paving of a roadway and minor improvements.
RR Xing - improvements to a road/rail crossing, such as the installation of gates, bells, lights, or improvements to the crossing itself.
Safety - work that is designed to reduce accidents.
Shoulder Work - improving and/or widening shoulders on a roadway.

Sidewalks - installation of sidewalk.
Signals - installation and/or improvement of signals.
Signing - fabrication/installation of roadway signs.
Special Studies - lump sum funding for planning and management studies.
Turn Lanes - addition of turn lanes at intersections.
Water Pollution Mitig. - lump sum funding for wetland mitigation site that were taken by roadway construction.
Weigh Station - construction and/or rehabilitation of truck weigh stations.
Widening - adding additional travel lanes to a roadway.



Metropolitan (Urbanized) Areas

APPENDIX B

- Financial Information
  - Regular AC Projects to be Converted
  - GO and GRB Bond Projects to be Converted
  - GARVEE Cashflows

Regular AC Projects to be Converted -

This is a list of project that have been Advanced Constructed with State funds previously by the Department and are subject to be converted to Federal Funds in the current STIP years.

GO & GRB Bond Projects to be Converted -

This is a list of project that have been Advanced Constructed with GO & GRB Bond Funds previously by the Department and are subject to be converted to Federal Funds in the current STIP years.

Garvee Cashflows -

This is a list of project that have been Advanced Constructed with GARVEE Bond Funds previously by the Department and their how the funds are dispersed.

excludes Transit projects

STIP Totals by MPO Area Footnotes

Augusta – The MPO is in the process of programming their C230 (ARRA attributable funds), which are not included in the FY 10 totals in the STIP. The MPO is also processing Administrative modifications for PI's M003993, M004012, and M004013 for ARRA funding in FY 10, which are currently not in FY 10 in the FY 10-13 TIP.

Chattanooga- The Department is requesting that PI 632885 be added to FY 11, in the FY 10-13 TIP.

Gainesville- The Department is currently working with the MPO to adjust the funding for PI 0007170 in FY 10, to reflect the correct amount of the project that is located within the MPO area, the same is being done in FY 12 for PI's 132950 and 0007021. The MPO also requesting for an additional phase of PI 132950 be added in 2013.

Macon –PI 312090 (I-75 widening) has had an increase in construction cost, since the adoption of the MPO's TIP.

Savannah – The STIP totals include the construction cost of Truman Pkwy (PI 0002921), Core MPO's adopted FY 10-13 TIP includes the construction for this project in the anticipated TIGER funding section.

Warner Robins – Since the adoption of the WRATS FY 10-13 TIP, the Department has requested that PI's 322450, 0008407, and 0008406 be shifted out of FY 10.

Valdosta- The MPO has PI M003998 as Auth in its TIP, however the project is still reflected in the Department's STIP totals.

HINESVILLE TIP

Project Name: Operations Assistance Schedule for Public Transit	P.I. #:
	TIP #: 2008-TR2
Project Description: Section 5307 (Urban Operating) Expenses for the Liberty Transit system in Hinesville-Flemington-FortStewart. Funding is estimated to provide for net operating costs.	COUNTY: Liberty
	PROJ. #:
	FUND: 49 USC 5307
	GDOT DISTRICT: 5
	CONG. DISTRICT: 1
	RDC: CGRDC

COMMENTS/REMARKS:

1. The HAMPO fiscal year 2010 begins July 1, 2009. Transit service is anticipated to begin during late 2009. This amount is pro-rated to reflect less than twelve months of operations.

2. Estimated available funds from the total small urbanized area apportionment for the State of Georgia; this amount includes federal funds not utilized by other small urbanized areas in the state. These funds will be requested by the City of Hinesville. Supplemental funding above the apportionment to the Hinesville Urbanized Area is not guaranteed.

3. Estimated operating revenue is excluded from operations cost estimates.
