STATEWIDE TRANSPORTATION PLANNING PROCESS CERTIFICATION

(To be submitted with each Statewide Transportation Improvement Program)

In accordance with 23 CFR 450.220, the Georgia Department of Transportation hereby certifies that its statewide transportation planning process is addressing major issues facing the State and its non-urbanized areas, and is being carried out in accordance with the following requirements:

I. 49 U.S. Section 5323(k), 23 U.S.C. 135, and 23 CFR part 450.220;

II. Title VI of the Civil Rights Act of 1964 and the Title VI Assurance executed by each State under 23 U.S.C. 324 and 29 U.S.C. 794;

III. Section 1101 of the Transportation Equity Act for the 21st Century (Pub. L. 105-178) regarding the involvement of disadvantaged business enterprises in the FHWA and the FTA funded project (Sec. 105(f), Pub. L. 97-424, 96 Stat. 2100, 49 CFR part 23);

IV. The provisions of the Americans With Disabilities Act of 1990 (Pub. L. 101-336, 104 Stat 327, as amended) and the U.S. DOT implementing regulation;

V. The provision of 49 CFR part 20 regarding restrictions on influencing certain activities; and

VI. (for states with non-attainment and/or maintenance areas outside metropolitan planning area boundaries) Sections 174 and 176 (c) and (d) of the Clean Air Act as amended (42 U.S.C. 7504, 7506 (c) and (d)).

State Transportation Improvement Program 2002-2004

Introduction

We are pleased to present the amended State Transportation Improvement Program (STIP). The thirteen counties in the Atlanta non-attainment area were not included specifically in the initial STIP approved by the Transportation Board on September 20, 2001, but were amended into the STIP following approval of the ARC's FY 2002-2004 TIP. Projects listed in this document were identified through the planning process and are important to the state's transportation program.

The STIP includes Highway, Bridge, Bicycle, Pedestrian, Transportation Enhancement Activities and Public Transportation (transit) projects. Project related cost, such as Preliminary Engineering (PE), Right of Way (ROW), and Construction are given for highways and Capital and Operating cost for public transit. The projects are organized in alphabetical order by county with the same information categories listed for each of them. Projects that extend into multiple counties are shown in the STIP under each county the project enters. The project related cost and mileage for multi-county projects are given for the entire project and not per county.

Cost estimates for individual projects are based on the best available engineering estimates. These costs may change as a project progresses from preliminary engineering to the purchase of right of way to construction. If these increased costs are the result of a change in the original scope of the project, the STIP will be amended, including the necessary public involvement. If the increased costs are based on updated engineering improvements, and not a change in the actual work, no amendment to the STIP is necessary.

The STIP was developed under guidelines provided by the Transportation Equity Act for the 21st Century (TEA-21), passed by Congress in 1998. TEA-21 continues the initiatives started under the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). Projects in the STIP emphasize the maintenance, safety, and improvement of existing transportation facilities, and public transportation systems.

The STIP is fiscally balanced, including only those projects with funding available or having a reasonable expectation of obtaining funds. Federal funds for fiscal years 2002, 2003, and 2004 are program estimates and will not be final until after the federal budget is implemented on October 1 of each year.

Georgia continues to grow in population at more than double the national average. Georgia's economy is also growing, leading to increased demands on the transportation system. The STIP process ensures that we receive maximum benefits from available funding and that Georgia's transportation system will continue to support and promote Georgia's growth and economy.

The Department of Transportation wishes to thank all of the citizens and local officials for taking the time to provide input on the development of this program.

Georgia Department of Transportation

STATE TRANSPORTATION IMPROVEMENT PROGRAM
PUBLIC INVOLVEMENT PROCESS

Background on the State Transportation Improvement Program

Federal legislation requires that each state produce a State Transportation Improvement Program (STIP). The STIP lists federally funded projects for the next three years, and is updated and approved on an annual basis.

A major component of the STIP development process is public involvement. In the eleven metropolitan areas of the state public involvement is the responsibility of the local metropolitan planning organizations (MPOs) in developing local Transportation Improvement Programs (TIP). The Office of Planning oversees the STIP public involvement process for the six rural GDOT Districts and distributes the STIP to the Districts for use in their public meetings and meetings with local officials.

Process

The public involvement process has evolved over time but the basic components remain the same.

- Public meetings

  Annual public meetings are held to provide the opportunity for public review and comment. GDOT contracts with 11 Service Delivery Regions (SDR) to assist the DOT District Offices with coordinating the STIP public involvement process and conducting the public meetings. In 2001 fourteen public meetings were held on the following dates:

June 12 -	Cumming and Ellijay
June 13 -	Calhoun
June 14 -	Blairsville, Tennille and Moreland
June 18 -	Monroe
June 19 -	Tifton
June 20 -	Carnesville
June 21-	Ellaville
June 25-	Cusseta
June 26 -	Macon and Jesup
June 28-	Griffin

  The Department and the SDRs invited large numbers of customers to these meetings. The Department mailed 5,000 individual invitations to local officials and the Family of Partners, a group of stakeholders with interest in transportation. The SDRs send additional invitations to local officials, chambers of commerce, transportation providers, and other stakeholders.

Ads are placed in local newspapers publicly announcing STIP meetings and announcements are published in Department newsletters, (*OnTarget)* and SDR publications. An informational brochure explaining the STIP process is also published and distributed at the public meetings.

- Meetings with Local Officials

Every year as part of the STIP development process, the District Planning and Programming Engineers meet with representatives from each county and city in their area to discuss projects in the STIP to solicit comments and questions. During these meetings, a range of transportation issues are discussed and requests are forwarded to the appropriate DOT office for response. Local officials sign a "Certification of Cooperation with Elected Officials" documenting STIP consultation.

- STIP on web

The Department also makes the STIP available to citizens on the Department's web page. The web address for the Georgia STIP is:

http://www.dot.state.ga.us/homeoffs/planning.www/stip/district.htm

An email contact is also included on this site for citizen's comments.

- Comments

Comments received from the public meetings and the meetings with locals are taken into consideration in the development of the STIP and any questions asked are answered or forwarded to the appropriate office. The comments and questions received from the public meetings and the meetings with the local officials ranged from general comments such as the need for more public transit routes to project specific questions, such as when is a particular project scheduled for construction. All questions were responded to in writing.

The State Transportation Improvement Program is also available in paper format for a fee by calling the Department's Map Sales at (404) 656-5336.

Georgia Department of Transportation STIP Financial Plan

The Georgia Statewide Transportation Improvement Program (STIP) lists highway, passenger rail and transit projects. This section describes how the funding for the STIP was identified for Fiscal 2002-2004. The STIP Financial Plan demonstrates the source and expenditures of transportation funds to state and local projects. The financial plan includes expenditures for projects matching resources that we can reasonably expect will be available. Only those projects or project phase (preliminary engineering, rights-of way or construction) for highway projects or (capital or operating) for transit projects are included in the STIP.

The Fiscal 2002-2004 STIP was developed on the basis of estimated state and federal fund balances and projected 2002, 2003, and 2004 Federal-aid and state funding. The STIP document includes a listing of urban and rural transportation projects. The STIP listing incorporates urban projects from the Transportation Improvement Programs adopted by Georgia's urbanized areas and approved by the Governor or his designee. This document is developed for the purpose of providing citizens a comprehensive listing of transportation activities.

The Fiscal 2002-2004 STIP totals $7.11 billion with a FY 2002 annual program of $2.34 billion. Funding for this three-year program includes $3.86 billion in federal funds, $3.06 billion in state funds including $1.90 billion in State Bonds, and $0.18 billion in local funds. This level of infrastructure investment supports nearly 299,331 jobs in the construction industry as well as a well-maintained transportation system that fosters a healthy economy by providing the infrastructure for efficient movement of goods and people.

The project cost estimates used in developing the STIP are based on the best available engineering estimates at the time. Final cost for the actual projects may differ, as the projects are refined in the project development process prior to construction. Modifications that alter the original intent, design, or scope of the project trigger a STIP amendment to incorporate the change.

HIGHWAY PROGRAMS – *funded by Title 1 of TEA 21 (Transportation Equity Act for the 21st Century)*

Interstate Maintenance (IM) - Funds used for resurfacing, restoration, and rehabilitation of the Interstate Highway System. These funds cannot be used to provide new capacity to the system, nor for construction of new facilities such as rest areas, ports of entry, etc.

National Highway System (NHS) – The system of national highways approved by Congress and considered most important to interstate travel, national defense, connectivity with other modes of transportation, and for international commerce. The system includes the current Interstate highways and other key state routes identified by the State.

Surface Transportation Program (STP) – STP funds may be used for a range of projects from new construction to resurfacing, and may be flexed to transit. STP funds are distributed according to federal guidelines and in compliance with State legislation.

Fifty percent of STP funds are for urban and rural areas of the state based on population. Thirty percent can be used in any area of the state at the direction of the State Transportation Board. Of the remaining twenty percent, ten percent is for highway safety projects and ten percent is used for Transportation Enhancement Activity projects. Safety projects include Hazard Elimination, Railroad Crossing, and Railroad Protective Devices.

The Transportation Enhancement Program is very popular, especially with users of non-traditional transportation. The State Transportation Board established the Transportation Enhancements Advisory Panel to assist in project selection and to represent statewide interests with expertise in multi-modal facilities, historic resources, transportation aesthetics, scenic preservation and other TEA-type activities.

There are twelve categories of TEA projects. These include "*...provisions of facilities for pedestrians and bicycles; provision of safety and educational activities for pedestrians and bicyclists; acquisition of scenic easements...or historic sites; scenic or historic highway programs (including the provision of tourist and welcome center facilities), landscaping and other scenic beautification; historic preservation, rehabilitation and operation of historic transportation buildings, structures, or facilities (including railroad facilities); preservation of abandoned railway corridors (including the conversion and use thereof for pedestrian or bicycle trails); control and removal of outdoor advertising; archaeological planning and research; and environmental mitigation to address water pollution due to highway runoff, or reduce vehicle-caused wildlife mortality (while maintaining habitat connectivity); and, establishment of transportation museums.*" Source: National Transportation Enhancement Clearinghouse.

Legislation limits eligible recipients to public agencies. However, private groups are encouraged to participate by applying through an appropriate public agency (County and/or City). TEA program funds require a 20% match provided by the recipient.

Congestion Management/Air Quality (CMAQ) - These funds are for projects, which can be proven to reduce traffic congestion and/or improve air quality in non-attainment areas. Projects such as park and ride lots, signal coordination, and ride sharing qualify for these funds. Currently, there are thirteen counties in the non-attainment area: Cherokee, Clayton, Cobb, Coweta, DeKalb, Douglas, Fayette, Forsyth, Fulton, Gwinnett, Henry, Paulding, and Rockdale.

Bridge Replacement (BR) - These funds are for the replacement or rehabilitation of substandard bridges both on and off the federal system. Bridges must have a span of 20 feet and must be listed on the Federal Register with a sufficiency rating of 80 or less for rehabilitation and 50 or less for replacement.

Demonstration or High Priority (Demo, HPP) – These funds are Congressionally authorized and designated for specified projects.

HIGHWAY FUNDING SOURCES

State Funding Sources - The $3.01 billion in State highway funds are available from several sources including motor fuel taxes, special fuel taxes (diesel), 3% state sales tax on gasoline, and State Bonds. Ninety-two percent of these funds are used for construction and maintenance of highways. The remaining eight percent are programmed for improvements to

local roads. Revenues from these sources increase about one percent a year. State funds are part of the STIP program development, with $697 million used for federal match.

Federal Highway Funding Sources – Federal funds in the STIP are estimated based on the expectations of what Congress will authorize to be spent on the program. The Department expects $2.875 billion in federal funds over the next three years, from the Highway Trust Fund, and $0.997 billion from carryover funding from the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 and from Transportation Equity Act for the 21st Century (TEA-21). Georgia's yearly share from the Highway Trust Fund is anticipated to be about 3.48% of the estimated $29 billion ($1.009 billion in FY 2002) Congress is expected to approve. The obligation ceiling, or the minimum amount of funds that Georgia will receive, is 90.5% of that amount. Estimates are subject to change based on forthcoming yearly appropriation and obligation levels set by Congress.

Local Highway Funding Sources - During the three-year program, an estimated $76 million in local funds will be needed to match federal-aid for local highway projects and for local contributions to matching improvements on the state highway system.

FY 2002-2004 HIGHWAY PROGRAM FUNDING

The $6.54 billion highway program for FY 2002-2004 includes $3.45 billion in federal-aid, $3.01 billion in state funds and $0.08 billion in local funds. The following table summarizes program funding for FY 2002-2004:

FY 2002-2004 Estimated Cost of Highway Projects
($ Millions)

Fund Source	FY 2002	Total FY 2002-2004	Average Annual FY 2002-2004
Federal Aid	$1,458	$3,450	$1,150
State Funds	$685	$3,014	$1,005
Local Funds	$41	$76	$25
Total	$2,184	$6,540	$2,180
Selected Program Distribution			
Sidewalks	$13	$28	$9
Bicycle/Pedestrian	$25	$49	$16
Transfer to Transit	$176	$310	$103
HOV	$54	$657	$219
ITS	$55	$101	$34
Design	$54	$110	$37

Local Road Assistance - Federal-aid to local governments is primarily from the Surface Transportation Program and the Bridge Replacement and Rehabilitation Program. Local governments also receive federal demonstration funds for specific projects and Congestion Mitigation/Air Quality funds based on project eligibility and selection. Enhancement projects are selected statewide based on the guidance provided through the Georgia Transportation Enhancement Program.

Federal Aid Highway Estimated Obligation Authority FY 2002
($ Millions)

Category Groupings	Federal Funds	Required Matching Funds	Total
Interstate Maintenance	$264	$29	$293
Bridge Placement & Rehabilitation	$254	$64	$318
National Highway System	$398	$87	$485
Congestion Mitigation	$53	$12	$65

State	$400	$1,404	$512	$2,317
Local	$41	$24	$11	$76
Total	$2,522	$2,712	$1,852	$7,087

Transportation Equity Act for the 21st Century – Title 3 programs
Transit, passenger rail, aviation, freight rail and ports join highways as significant modes in Georgia's intermodal transportation system. Non-highway modes funded through Title III or through moneys flexed from Title 1 are part of the STIP. Because of its importance to the state's transportation program, a comprehensive summary of non-highway modal programs, funded with *other than* TEA 21 funding and administered by the Georgia Department of Transportation is included in this document.

TRANSIT PROGRAMS

The Georgia Department of Transportation in cooperation with the Federal Transit Administration (FTA) and the state's public transit agencies work together to develop service programs and facility improvements to meet the state's public transportation needs.

One of the missions of GDOT's public transit program is to preserve and enhance the state's facilities and equipment in urban and rural public transit. Public transit projects listed in the STIP are funded with Federal Transit Administration funds (under TEA 21). These projects have been identified by the MPOs through the transportation planning process and become a part of the Transportation Improvement programs (TIP) in urban areas. The Department in cooperation with rural transit operators identifies rural needs. Urban transit projects are listed for cities with transit programs in operation - Albany, Athens, Atlanta, Augusta, Columbus, Macon, Rome and Savannah.

Urban transit projects include capital, planning, and operating (Federal Transit - Section 5307) and statewide elderly/disabled capital (Federal Transit – Section 5310) projects. GDOT is the designated recipient of FTA funds for areas under 200,000 population. The Department receives financing from the State's General Fund budget to match one half of the local share of transit projects in Albany, Athens, Macon, Rome and Savannah. In addition, the Department coordinates with the Georgia Department of Human Resources (GDHR) on elderly and handicapped transportation projects.

Atlanta, Augusta and Columbus have populations of over 200,000 and receive transit funds directly. The Department also provides one half the local share of matching funds for capital projects in these areas. In the past few years, the Department has played an important role in providing financial assistance to match projects for Cobb Community Transit (CCT), the new Gwinnett County Transit, and the Metropolitan Atlanta Regional Transit Authority (MARTA).

Transit Programs include:

FTA Section 5307 Program – provides funding for capital, planning and operation assistance. Funds are distributed nationwide on a formula basis.

FTA Section 5309 Program – offers capital funding for public transportation systems on a discretionary basis.

FTA Section 5310 Program – provides funding to private non-profit agencies for capital improvements to be used in the provision of transportation service to elderly and disabled persons.

FTA Section 5311 Program – provides funding to enhance the access of people in non-urbanized areas to healthcare, shopping, education, employment, public services and recreation. Funds are available for capital equipment, operating and administrative expenses.

TRANSIT FUNDING SOURCES

State Funding Sources – The State Legislature provides one-half of the required twenty percent match for federal transit funding through the General Fund. Approximately $26 million in General Funds for transit purposes are programmed in the STIP.

Federal Transit Funding Sources – The $413 million in federal-aid funds is partially based on estimates of federal revenue available to Georgia through the Transit Trust Fund and from earmarked funds in the Transportation Efficiency Act for the 21st Century (TEA-21).

Local Transit Funding Sources – During the three-year program, an estimated $111 million in local funds will be needed to match federal-aid. These funds are acquired through local sales taxes, special taxing districts, property taxes as well as the general tax digest.

FY 2002-2004 Source of Funds: Transit Projects
($ Thousands)

Fund Source	FY 2002	Total FY 2002-2004	Annual Average
Federal Aid	$111,256	$412,950	$137,650

Total	$160,198	$218,547	$190,653	$569,398

AVIATION PROGRAMS

The mission of GDOT's aviation program is to preserve and enhance the State's air transportation system to meet the demands of users. The program provides financial and technical support to publicly owned, open to the public airports. The Georgia Department of Transportation is authorized to plan and support the establishment, development and maintenance of aviation and aviation facilities. The Georgia Airport Aid Program (GAAP) provides state funding assistance, appropriated by the Georgia General Assembly, for capital, maintenance, approach aid and planning projects. Development, Maintenance, Approach Aid, and Planning projects are funded at 75% state assistance or 50% state assistance for urban area airports lacking federal support. All FAA (Federal Aviation Administration) supported construction projects may be funded at 90% FAA and 5.5% state aid. Airport markings on State development projects are eligible for 100% funding. In addition, the minimum contract level of state funding assistance on all GAAP projects is $1,500. State projects (non-federal) are selected annually based on the GAAP Priority System criteria. Federally funded projects have the highest priority for matching state funds.

RAIL PROGRAMS

The mission of GDOT's rail program is to preserve and enhance the State's rail transportation system for future development of freight and passenger rail service. Existing rail corridors identified in the "Freight Rail Plan" are acquired and rehabilitated to assure strategic rail freight access to Georgia communities. GDOT has acquired 361 miles of rail lines in Georgia since 1992. Three hundred eighty five miles of rail lines in the State have been rehabilitated since 1981. The passenger rail program, defined in the "Intermodal Program for Rail Passenger Service in Georgia," guides implementation of both intra-state, intercity and commuter rail service to provide a multi-modal alternative in the State's largest travel markets. The seven commuter services and the six intercity lines will serve the Atlanta, Athens, Gainesville, Bremen, Canton, Senoia, Griffin, Macon, Albany, Savannah, Augusta and Columbus markets.

PORT PROGRAMS

The mission of GDOT's ports program is to preserve and enhance waterway transportation. In order to maintain a navigable channel, the Corps of Engineers dredges the Savannah River annually. The Department's role is to provide and maintain dredge material containment areas for the Corp's work on the Savannah Harbor and the Atlanta Intracoastal Waterway. The Department is required to fund dike design, construction, maintenance, environment mitigation and operations. GDOT annually requests funding from the Georgia General Assembly to cover the costs of these activities. There are no matching federal or local funds for these programs.

State Transportation Improvement Program (STIP) and Transportation Improvement Program (TIP) Amendment Process

The STIP/TIP amendment process described below details procedures that are to be used to update an existing approved STIP or TIP. A key element of the amendment process is to assure that funding balances are maintained.

TIP (Transportation Improvement Program) *Administrative Changes*
The following actions are eligible as Administrative Changes to the TIP:

- Obvious minor data entry errors.
- Splitting or combining projects.
- Minor change in expenditures for transit projects
- Changes or clarifying elements of a project description (with no change in funding). This would generally be less than 10% change in project termini. This change would not alter the original project intent.
- Increase funding less than 20% for a Lump sum category

The Administrative Change process consists of a letter of notification from the MPO (Metropolitan Planning Organization) to all other involved parties: GDOT, FTA and FHWA. No public involvement is required for Administrative Changes.

TIP (Transportation Improvement Program) *Minor Amendments* (not controversial)*
A Minor Amendment to the TIP would include adding or deleting a phase for one of the following project types:

- Bike/pedestrian projects
- TEA projects
- Transit enhancements
- Transportation studies using capital funds (also needs to be in SPR Work Program)
- Turn lane, intersection improvements and signal projects
- Signage, lighting, landscaping or green way projects
- Recreational Trails projects
- Minor ITS/ATMS projects

*A controversial project is defined on a case by case basis through the MPO planning process. Consideration will be given to the amount of money involved, scope, geographic location and impacts in evaluating if a project may be controversial.

A Minor Amendment to the TIP would include making any of the following changes:

- Shifting projects within the TIP
- Move PE, ROW or Construction Funds programmed for previous year into a new TIP
- Shifting Construction funds to add a PE or ROW phase to a project
- The deletion of a project at the request of the Project Sponsor
- Increase funding more than 20% for a Lump sum category (maintenance, safety, PE, hazard elimination, R/R crossing etc.)

The Minor Amendment process for areas with over 500,000 population requires advertising of the amendment in a legal organ, allowing a 15-day comment period and responding to any comments received. Following public notice, approval action may be taken through the TIP approval process.

For areas with less than 500,000 in population, the amendment would be put on the agenda for discussion at the CAC, TCC and PC meetings and any comments received prior to or at the meetings would be responded to.

The MPO is responsible for giving notification to GDOT and FHWA/FTA of the action taken and providing assurance the minor amendment process and the public involvement procedure were followed.

TIP (Transportation Improvement Program) *Major Amendments*
Major Amendments to the TIP would include the following.

- Change in scope that alters the original intent of the project
- Increase or decrease in the scope of a project by more than 10%.
- Add/Delete a phase of a project not identified in the minor amendment section: i.e. capacity increases, regionally significant projects, major ATMS projects, controversial projects of any type.

The Major Amendment process for areas with greater than 500,000 in population requires widespread advertisement, a 30 day public comment period, and response to all comments received, either via individual or summary form. There is no requirement for a public hearing, however, the MPO may choose to hold a hearing. The Major Amendment project is put on the agenda for discussion and action through the TIP approval process.

The Major Amendment process for areas with less than 500,000 in population requires public advertisement, a 15-day comment period, and response to all comments, either individually or in a summary form. There is no requirement for a public hearing. The Major Amendment follows the usual CAC, TCC and PC process for action.

The MPO is responsible for notification to GDOT and FHWA/FTA of action taken and assuring that the Major Amendment process and public involvement procedures have been followed.

STIP (Statewide Transportation Improvement Program) *Administrative Changes*
The following actions are eligible as Administrative Changes to the STIP:

- Project number change or Project identification number change.
- Splitting or combining projects.
- Increase in Lump Sums by less than 20%.
- Fund source change.
- Obvious minor data entry errors.
- Minor change in expenditures for transit projects
- Changes or clarifying elements of a project description (with no change in funding). This would generally be less than 10% change in project termini. This change would not alter the original project intent.

The STIP Administrative Change process consists of notification to all involved parties in the latest version of the Department's Construction Work Program. There is no public

involvement required in such instances. If an administrative change is made at the time of submittal of a project for authorization, that form will serve as such notice.

STIP (Statewide Transportation Improvement Program) *Minor Amendments*
A Minor Amendment to the STIP would include the following.

- Shifting projects within the STIP.
- Move PE, ROW or Construction Funds programmed to another year of the STIP
- The deletion of a project at the request of the Project Sponsor.
- Increase in Lump Sums project amounts by more than 20%.
- Shifting Construction funds to add a PE or ROW phase to a project
- Addition or deletion of a phase of a project shown on the TIP Minor Amendment list
- Increase funding more than 20% for a Lump sum category (maintenance, safety, PE, hazard elimination, R/R crossing etc.)

Written notification is submitted to the FHWA and FTA showing the change made and stating the source of funding assuring that the financial balance of the STIP is maintained. Cost changes made to the second and third years of the STIP will be balanced during the STIP yearly update process. Minor and Major amendments to the STIP are denoted as addendum's and consecutively numbered.

STIP (Statewide Transportation Improvement Program) *Major Amendments*
Major amendments to the STIP would include the following:

- Addition of an annual TIP.
- Addition or deletion of a phase of a project on the TIP Major list.
- Major change to scope of work of an existing project. A major change would be any change that alters the original project intent i.e. a change in the number of through lanes, a change in termini of more than 10 percent, or a change in location.

The Department handles the public advertisement, a 15-day comment period, and responds to all comments, either individually or in summary form. For a STIP amendment that is solely inclusion of an approved TIP or approved amended TIP, such public involvement is not necessary as this requirement was fulfilled by the MPO prior to State approval.

An amendment will be submitted to FHWA and FTA requesting approval of the addition or change made and stating the source of funding to maintain a balanced STIP. Cost changes made to the second and third year of the STIP will be balanced during the STIP yearly update process. The Department assures that the Major Amendment process and the public involvement procedure had been followed.

Notes:

1) An amendment to the STIP or TIP is not necessary for adding individual projects from Lump sum categories as long as they are consistent with the category definitions.
2) The date at which a TIP becomes effective, when the Governor or his designee approves it.
3) The date at which a STIP becomes effective is when FHWA and FTA approve it.
4) The STIP is developed on the state fiscal year which is July 1-June 30.
5) For cost increases > 50% for a project with the STIP cost under $1,000,000 and for cost increases > 20% or $1 million (whichever is greater) for projects costing over $1,000,000 will be handled as a minor amendment. Notification will be sent to the project sponsor and the MPO as appropriate when a project is shifted within the STIP as a result of these amendments.

LUMP SUM FUNDING

A portion of the STIP funding is set aside for seven groups of projects that do not affect the capacity of the roadway. Funds are set up in lump sum categories to undertake projects that are developed after the STIP is approved. These lump sums are listed in a number of funding types for each year for the Department's convenience in managing and accounting for the funding. Funds are drawn from these lump sums during the year and individual projects are programmed. The individual projects may include work at one or several locations for letting and accounting purposes. Listed below are these seven groups and information about them. Except for groups for preliminary engineering and rights of way protective buying, the total available funds are shown as construction for easy accounting but preliminary engineering and rights-of-way may be drawn from this amount when needed in that category.

Group: maintenance

Criteria: maintenance only

This group has six funding/work types: two are for bridge painting/maintenance and the other four are for roadway maintenance. Major types of work undertaken are: resurfacing, pavement rehabilitation, median work, impact attentuators, signing, fencing, pavement markings, landscaping, rest areas, walls, guardrail and shoulder work. Also included is preliminary engineering necessary to prepare plans and rights-of-way needed for work such as landslide repair, sewer hookups and erosion control.

Group: safety

Criteria: work qualifying for the High Hazard Safety Program and other safety projects

This group includes the following work types: signal installation/upgrades, guardrail installation, sign installation, railroad protection devices, railroad crossing hazard elimination, roadway hazard elimination and special safety studies and programs.

Group: preliminary engineering

Criteria: planning, management systems and consultant design services

This group has two funding/work types: planning/management systems and consultant design services

Group: wetland mitigation

Criteria: site restoration for projects already under construction/complete and wetland banks

This group is a single item.

Group: roadway/interchange lighting

Criteria: lighting

This group is a single item.

Group: rights of way - protective buying and hardship acquisitions

Criteria: purchase of parcel(s) of rights of way (RW) for future projects that are in jeopardy of development and for hardship acquisition. Qualifying projects are those that have preliminary engineering (PE) underway or have a PE, RW or construction phase in the STIP. For counties that are not in conformance for air quality the only qualifying projects are those that have a RW phase in the STIP. This group is a single item.

Group: transportation enhancement

Criteria: projects qualifying for the Transportation Enhancement program (TEA).

TEA projects shown in the STIP will be funded on a first come first served basis. When a project is funded it is drawn down from the lump sum. When all funds are gone, no other projects can be funded until the next fiscal year, which begins on July 1.

This group is a single item.

Understanding STIP Entries

Typical project

NOTE: Projects that are located in multiple counties are shown in each of the counties the project is located. The funding information and mileage for these projects include the total project cost and mileage and **not** per county project cost or mileage.

This is the PI or Project Identification number used throughout the life of the project for tracking purpose.

List the different phases involved in a particular project. Project can consist of Preliminary Engineering, Right of way and/or Construction.

The status of when work is scheduled to begin. Right of Way to be purchased in fiscal year 2002.

DRAFT STATE TRANSPORTATION IMPROVEMENT PROGRAM

BEN HILL COUNTY

PROJECT: 432155	*TYPE WORK*	REPLACE BRIDGE	*Phase*	*Fund*	*Year*	*Fed*	*State*	*Other*	*Total*
DESCRP: SR 90 @ LITTLE HOUSE CREEK 1.7 MI S OF FITZGERALD			PE	STP	Underway				
			ROW	STP	2002	$80,000	$20,000	$0	$100,000
Lanes: *Exist.*2	*Prop.*4	*LENGTH:* 0.35	CST	STP	After 2004	$1,920,000	$480,000	$0	$2,400,000

Type of work, replacement of an existing bridge. See Glossary of Terms for further definitions.

Funding type: fourth item on top line. May be Bridge, STP, NHS, etc. & refers to specific type of federal funds to be used.

Total cost of funding for each phase of work. Construction cost is $2.4 million.

Project description: State Route 90 at Little House Creek approximately 1.7 miles south of Fitzgerald. Passing lane projects may only indicate milepost numbers.

Identify government participation in funding each phase of project. Federal government will pay $80,000 of right-of-way cost and state government will pay $20,000.

APPENDIX A

Glossary

GLOSSARY OF TERMS

ATMS
Advanced Transportation Management System; a computerized system that integrates video, voice, and data management functions to collect information about the transportation infrastructure and performance analysis as well as support traffic management decisions based on real-time information.

CMAQ
Congestion Mitigation and Air Quality Improvement Program; directs funds primarily to areas that have failed to reach certain air quality standards. Projects allowed under this program include mass transit improvements and high-occupancy vehicle facilities.

CST
Construction; phase of a project that includes the actual construction of the project.

DONOR STATE BONUS
Donor states are states that contribute more to the Highway Trust Fund than they receive back in federal-aid highway programs. These states receive a predetermined amount based on a comparison of a projection of all payments into the Highway Trust Fund and the amount received in federal-aid apportionments. Starting with the state with the lowest return, states are brought up to the level of return for states with the next higher level of return until available funds are depleted.

FED Share
Federal Share; portion of funding to be paid for with federal money.

GA Share
Georgia Share; portion of funding to be paid for with state money.

HPP
High Priority Project; list of 1,850 high priority projects specified by Congress in TEA-21. Funding for these projects totals $9.4 billion over the six years of TEA-21. Georgia will receive $283.87 million for 40 projects.

HIGHWAY TRUST FUND
Federal account established by law to hold receipts collected by the government, earmarked for highway programs and a portion of the mass transit program; supported by the federal gasoline tax and other user taxes.

INTERMODAL SURFACE TRANSPORTATION EFFICIENCY ACT of 1991 (ISTEA)
Transportation bill approved by Congress in 1991.

METROPOLITAN PLANNING ORGANIZATION (MPO)
Required by federal regulations in urbanized areas to develop transportation plans and programs; responsible for developing the Transportation Improvement Program (TIP).

NEPA
National Environmental Policy Act of 1969; requires federal government to use all practical means and measures to protect environmental values; makes environmental protection a part of the mandate of every federal agency and department.

NHS
National Highway System; consists primarily of the Interstates and other major routes. Includes a large percentage of urban and rural principal arterials.

NON-ATTAINMENT
The 13 county area around Atlanta that fails to meet federal air-quality standards. Projects in the non-attainment area are not allowed to proceed if there is an increase in capacity of a roadway unless they were identified in the 1995 TIP for Atlanta.

OBLIGATION CEILING
The maximum amount that a state is expected to receive from the Highway Trust Fund .

OTH Share
Other Share; portion of funding to be paid for with money other than federal or state funds; generally provided by local governments.

PE
Preliminary Engineering; phase of a project that includes the development of the concept, survey, environmental documentation and design plans.

ROW
Right of Way; phase of a project that includes the acquisition of any necessary property for the construction of the project.

STATE AID LET
Projects that are funded with state money.

STATE HIGHWAY SYSTEM
Network of roads maintained by the state including road and bridge construction, maintenance, rehabilitation and restoration. There are approximately 17, 947 miles of state highways in Georgia which make up 16% of the total public road system in the state.

STP
Surface Transportation Program; federal funding category that provides funding for projects on any federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, and public bus terminals and facilities.

TRANSPORTATION EQUITY ACT FOR THE 21ST CENTURY (TEA-21)
Six year transportation bill approved by Congress in 1998.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)
In metropolitan areas over 50,000 in population, a program of federally funded transportation projects proposed to be carried out in the first three years of adoption by the MPO. There are 11 urbanized areas in Georgia – Chattanooga, Rome, Athens, Augusta, Savannah, Brunswick, Macon, Columbus, Albany, Atlanta, and Warner Robins. The TIPS's are incorporated into the STIP as adopted by the respective governments and approved by the Governor, with no changes.

TYPE WORK – category of project and source of funding

ATM/ITS - Advanced Transportation Management/Intelligent Transportation System; work relating to computerized transportation system that supports traffic management decisions; commonly known as the NAVIGATOR System.

Bicycle/Ped. Facility - generally bike/pedestrian path/lane funded through a Transportation Enhancement Activity (TEA) project.

Bridges - lump sum funding identified for bridge maintenance or bridge painting.

Bridge Painting - lump sum for bridge painting.

Bridge Rehab - bridge rehabilitation – work that will improve and/or widen an existing bridge.

Capital - funding identified for the purchase of transit related items.

Historic Preservation - restoration or rehabilitation of historic structures that have a direct linkage to the transportation system; funded as part of a Transportation Enhancement Activities (TEA) project.

Interchange - work at an interchange.

Intersection Improvement - work that will improve an existing intersection.

Landscaping - purchase/installation of shrubbery, plants, trees, etc.
Lighting - lump sum funding for purchase/installation of lighting along a National Highway System road.
Miscellaneous Improvements - identified for various projects that are not necessarily covered by a standard category.
New Construction - new roadway construction on new location.
Operating- funding identified for the operation of transit systems.
Passing Lanes – passing lanes added along an existing roadway.
Preliminary Engineering - the design phase of a project.
Ramp - construction work on a ramp at an interchange.
Realignment - improvements to the geometry of a roadway.
Replace Bridge - construction of a new bridge to replace an existing bridge.
Rest Area - construction of rest areas along state routes (Interstates).
Resurface and Maintenance - re-paving of a roadway and minor improvements.
RR Xing - improvements to a road/rail crossing, such as the installation of gates, bells, lights, or improvements to the crossing itself.
Safety - work that is designed to reduce accidents.
Shoulder Work - improving and/or widening shoulders on a roadway.
Sidewalks - installation of sidewalk.
Signals - installation and/or improvement of signals.
Signing - fabrication/installation of roadway signs.
Special Studies - lump sum funding for planning and management studies.
Turn Lanes - addition of turn lanes at intersections.
Water Pollution Mitig. - lump sum funding for wetland mitigation site that were taken by roadway construction.
Weigh Station - construction and/or rehabilitation of truck weigh stations.
Widening - adding additional travel lanes to a roadway.
