DOT 325M 08/2004

Georgia Department of Transportation

Office Of Materials And Research

EMULSIFIED ASPHALT TEST REPORT

Lab Number **Technician**

Furnished By

Refinery Or Terminal Location

No Run?

Mfg No **Grade** **Examined For** **Submitted By** **Used In**

Log Code **Sampled From** **P/F** **C/S** **Viscosity T-59** **Specific Gravity T-227** **Residue % T-59**

Settlement Days T-59 **Sieve Test T-59** **Cement Mixing Test T-59** **Demulsibility T-59** **Penetration 25°C T-59** **Ductility 25°C T-59**

Solubility By Weight T-59 **Storage Stability T-59** **Oil Distillate T-59** **Particle Charge T-59** **Float Sec. T-59**

Viscosity at 25°C

Viscosity at 50°C

Date Sampled **Received Date** **Date Tested** **Date Reported**

Supplier Surveillance Analysis

Viscosity T-59 **Residue % T-59** **Sieve Test T-59** **Penetration 25°C T-59**

Comments

Plant Code	County Code	Quantity (Liters)	Project Number	Contract ID Number

Sampled From

A = Storage Tank
B = Distributor Sample Value
C = Loading Rack
D = Rail Car
E = Barge
F = Transport Contractor
G = Transport Source
H = Common Carrier Transport
I = Blend Tank

P/F

P = Passed
F = Fail

C/S

C = Contractor Storage
S = Source Storage

Log Code

M = Miscellaneous
P = Project
RA = Recovered Asphalt
RC = Refinery Complete
RS = Refinery Surveillance
SC = Stock Complete
SS = Stock Surveillance
SU = Start up Sample
X = Supplier Monthly Complete Analysis
Y = GDOT Complete Analysis Comparison

State Materials And Research Engineer
