UTAH AND GEORGIA INSTALL TECH THAT LETS ROADS TALK

Both states are experimenting with a new technology that flags congestion, black ice and spots vulnerable to potholes—and eventually would alert drivers in real-time.

AUTHOR

[SCOTT CALVERT](#)

JULY 17, 2020 9:09 AM ET

READING TIME

5 MINUTE READ

State Route 190, the two-lane highway that snakes through Big Cottonwood Canyon up to ski country east of Salt Lake City, can be a nightmare. Hairpin curves and unpredictable winter weather frequently cause crashes that snarl traffic for miles. In spring, freeze-thaw cycles gouge the asphalt with potholes that pose safety risks and damage cars.

"In Atlanta, the Georgia DOT has installed V2X radios at a few hundred intersections, with many more planned. The agency hopes the technology could one day help prevent the often-serious crashes caused by red light-running, says Alan Davis, assistant state traffic engineer."

Virtual P.I. during COVID-19

SR 400 Express Lanes

Georgia DOT PI No. 0001757 Fulton and Forsyth Counties
Virtual Information Meeting/Public Hearing Open House (PHOH)

The proposed SR 400 Express Lanes project would construct express lanes to an approximately 16-mile section of SR 400 from the Metropolitan Atlanta Rapid Transit Authority (MARTA) North Springs Station (Exit 5C) in Fulton County to approximately 0.9 miles north of McFarland Parkway (Exit 12) in Forsyth County.

Hi!
 This space is specific to the project's environmental process. Be sure to review the Draft Environmental Assessment (EA) and National Park Service's Statement of Findings (SOF) documents on the table. We have a Quick Reference Guide here to help you locate pages in the EA that covers specific environmental impacts.

Virtual Presentation and Q&A

On Tuesday, September 1, from 5:30 p.m. to 7:30 p.m. meet virtually with members from the SR 400 Express Lanes project team for a live presentation, followed by opportunity to ask questions. A link to access the virtual meeting and dial-in information will be posted on this page the day of the event.

Due to the virtual format, you can request a formal in-person PHOH by attending a drive-in event where you would be provided handouts (copies of what is posted online), an opportunity to view layouts and the draft Environmental Assessment (EA), and to ask questions to members of the project team from the comfort of your car to comply with social distancing. To request that Georgia DOT hold an in-person PHOH and to schedule your attendance, please call 404-556-9816 no later than **September 2, 2020**. The PHOH would be by appointment only from 5-6 p.m., 6-7 p.m., or 7-8 p.m., on **Tuesday, September 8, 2020**, at **District 7 office located at 5025 New Peachtree Road Chamblee, GA 30341**.

License Plate Readers (LPR's) for Law Enforcement

John Hibbard, Operations Division Director

August 20, 2020

What we're doing

- Developed a permit process for License Plate Readers (LPR's) for local governments
- Goal is to be familiar, simple to local agencies:
 - Will be just one more type of encroachment permit
 - Will share similarities with speed enforcement permit lists
- Local law enforcement and our Districts have reviewed
- It will be added to our Policy 6755-8, "Rules and Regulations for Driveway and Encroachment Control"

State of Georgia
Department of Transportation

Regulations for Driveway and Encroachment Control

Regulations for
Driveway and
Encroachment Control
