

# COMPLETE STREETS

Gerald Ross, P.E.  
Chief Engineer

# COMPLETE STREETS

**Practice of planning, designing, and constructing roadways that integrate and balance the needs of pedestrians, bicyclists, transit riders, and motor vehicle traffic.**

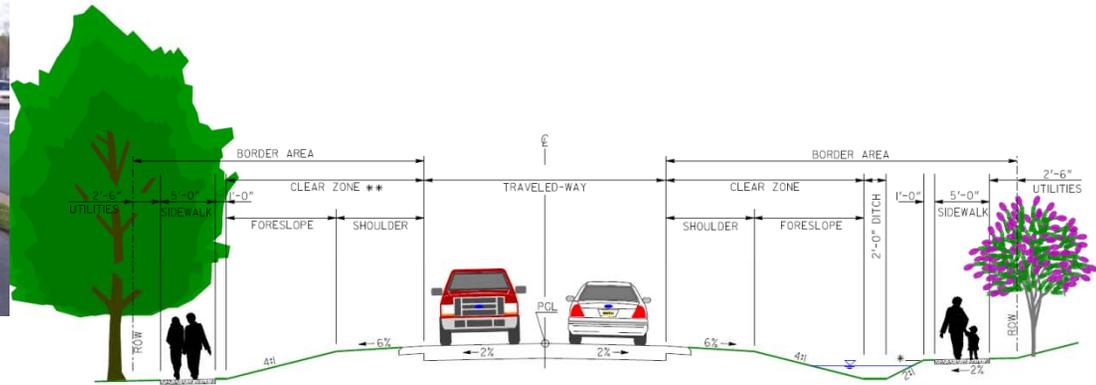

# Complete Streets Warrants

- **Establish conditions for adding bike/ped/transit accommodations to projects.**
- **Requires GDOT review and approval to omit.**
- **Applies to maintenance projects, where practical**

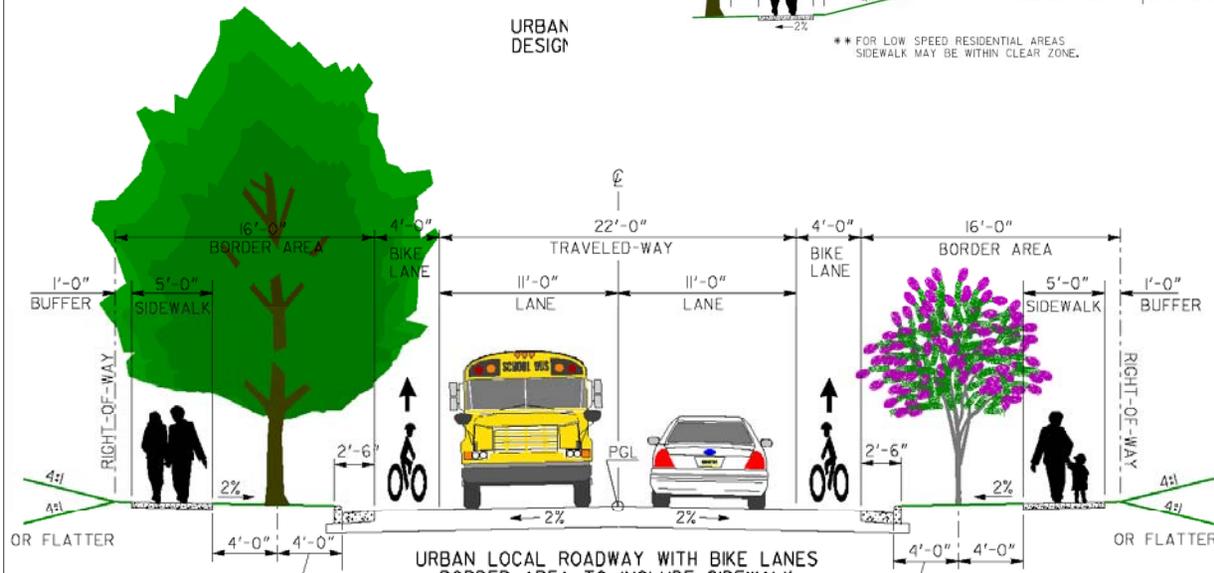

# Complete Streets FACILITY DESIGN

\*\* FOR LOW SPEED RESIDENTIAL AREAS  
SIDEWALK MAY BE WITHIN CLEAR ZONE.

URBAN DESIGN

# Complete Streets **RESOLUTION**

**Supporting the advancement of accessibility for pedestrian, bicycle, and transit modes of transportation ... with the goal of reducing congestion, improving mobility, and enhancing quality of life for all users.**
