

NORTHSIDE DRIVE Study Survey Results

Results as of August 28, 2015

Reflects survey results as of August 2015, including during & following the May Stakeholder Workshops and subsequent neighborhood presentations.

NORTHSIDE DRIVE Stakeholder Workshops & Presentations

May - August 2015

Workshop Results* "I wish for Northside Drive..."

*Note: These wishes reflect input provided at the visioning station during the May 5 and May 12, 2015 stakeholder workshops

Major Themes

From Stakeholder Workshops & Presentations

Reflects input received as of August 28, 2015
From two stakeholder workshops & three presentations

Segment 1: I-75 to north of 16th St.

- Traffic congestion throughout segment

- Poor intersection design at Northside Dr. & neighborhood streets

- Better sidewalks & more bus shelters needed

Segment 2: North of 16th St. to north of Donald Lee Hollowell Pkwy.

- Traffic congestion between 14th St. & 10th St.

- Need lane & traffic signal re-configurations at cross-streets: 17th, 16th, 14th, 10th, 8th, Tech Pkwy. & Marietta St.

- Need better sidewalks & mid-block crossings

Segment 3: North of Donald Lee Hollowell Pkwy. to MLK Jr. Dr.

- Problems with traffic & parking on game days & during stadium construction

- Morning congestion; cars back up at intersections – signal problems?

- Lack of connectivity/cohesion across Northside Dr. between west side neighborhoods & downtown Atlanta

- Difficult to turn left from northbound Northside Dr. into west side neighborhoods

- Need for transit and pedestrian amenities

Segment 4: MLK Jr. Dr. to Spelman Ln.

- Vehicles travel too fast on Northside Dr.

- Need more sidewalks, landscaping, crosswalks, bike paths, & transit access

- Concerns that an I-20 interchange will increase traffic, reduce property values, further disconnect AUC from downtown Atlanta, & hurt local businesses

- Need better connectivity around AUC, downtown, Vine City, & GWCC

- Concerns about traffic from I-20 down to Metropolitan Pkwy.

Northside Drive Corridor
