

# Collector-Distributor (CD) Roads

**What is a Collector Distributor (CD) Road?** CD Roads provide lanes adjacent to the main freeway for entering and exiting and their primary focus is to move vehicle lane changing onto the CD and off the main freeway. This allows the main freeway to operate more efficiently and reduce the potential for side swipe collisions due to vehicles entering and exiting at multiple locations.

**Example Collector Distributor (CD) Road locations in Georgia?**

SR 316 at Collins Hill Road - Lawrenceville, GA

I-85 at Sugarloaf Parkway - Duluth, GA

I-85 at Old Peachtree - Duluth, GA
