

## **Citizens Advisory Committee (CAC)**

### ***CAC Purpose***

The purpose of a Citizens Advisory Committee (CAC) is to gather a group of vested stakeholders representing a variety of interests to help guide the project, build consensus, and serve as project liaisons to their communities. The CAC is convened at key project milestones and plays a vital role providing input on all aspects of the project development.

The current CAC is comprised of members from the former US 411 EIS CAC and new members with interests in Rome – Cartersville Development Corridor (RCDC).

The first RCDC CAC meeting occurred on October 13, 2015. The purpose of the meeting was to introduce the reimagined project to stakeholders as well as address any concerns.

Future CAC meetings will be scheduled in advance of important milestones with any additional meetings as needed.
