

## Transportation Stats and Reports

Georgia DOT provides the latest traffic, road and crash report data regarding our transportation system.

### Traffic Data

- o Annual Traffic Counts - Traffic volumes for each of Georgia's 159 counties are counted on an annual basis.

- o Georgia ATR Traffic Data Reports - These reports contain traffic data collected from permanent traffic collection devices throughout the state.

- o Georgia's State Traffic And Report Statistics (STARS) - Georgia's STARS provides Annual Average Daily Traffic (AADT) counts collected from permanent and portable traffic collection devices throughout the state for every segment of Georgia's State Highway System.

- o Traffic Counts: Frequently Asked Questions

  - \* Color Brochure

  - \* Black and White Brochure

This tri-fold brochure answers questions concerning portable traffic counting devices.

### Crash Data

- o Requesting Copies of Crash Data or obtain information on Insurance, Georgia Uniform Motor Vehicle Accident Report Overlay and Law Enforcement Forms.

- o Crash Analysis, Statistics & Information (CASI) Reports

### Road Data

- o Designer's Manual - Georgia Highway System Administrative Review – This document provides project designers insight as to when to account for highway systems administrative activity as a part of project plan development. It also provides the means by which this information should be communicated to the Systems and Classification Branch in Georgia Department of Transportation's Office of Transportation Data. It is referenced as Appendix V in the PDP 2000 – Manual of Guidance 4050 – TOPPS 4050.

- o Georgia DOT HPMS Data Collection Guide (13MB) - This guide provides additional guidance while collecting data for the Highway Performance Monitoring System (HPMS). This document is not intended to replace the current HPMS manual, but rather to give you another tool to aid you in the collection of the HPMS data.

- o Georgia's Roadway Mileage & Characteristics Reports (400 Series Reports) - These reports depict mileage and Daily Vehicle Miles Traveled (DVMT) in several categories for each county in Georgia and

for the state. These reports provide a useful way to tabulate roadway mileage for further reporting and analysis.

- o Georgia's Special Road and Bridge Name Locator - The Special Road and Bridge Name Locator is a complete listing of State roads and bridges in Georgia named for outstanding individuals from Georgia by the Georgia General Assembly and the Transportation Board in their honor.

- o Highway Systems Management: Frequently Asked Questions Brochure

- \* Color brochure

- \* Black & White brochure

This tri-fold brochure answers questions concerning the Highway Systems Management.

- o Public Roads: Local Acceptance and Frequently Asked Questions Brochure

- \* Color brochure

- \* Black and White brochure

This tri-fold brochure answers questions concerning public roads.

- o GDOT Bridge Centerline Data Collection Methodology Standards Guide - This guide provides GPS collection methodologies and procedures, establishing a common means of GPS collection by field technicians.

- o Data Dictionaries for Bridge GPS Data Collection - This data dictionary can be imported into Pathfinder Office v. 2.x for use in the field by GPS data collectors.

- \* Data Dictionary file (DDF)

- \* Data Dictionary Text file (TXT)

- o Metadata Templates for Bridge GPS Data Collection - This template can be customized and imported into either SMMS Metadata or ArcCatalog 9.x software to create Federal Geographic Data Committee (FGDC) compatible metadata reports.

- \* Metadata Template Extensible Markup Language file (XML)

- \* Metadata Template Text file (TXT)
