

# HOW TO NAVIGATE A DISPLACED LEFT TURN (DLT) INTERSECTION

GDOT is reconfiguring the intersection of US 78/Main Street and SR 124/Scenic Highway. The new Displaced Left Turn (DLT) improvements will increase the number of vehicles that can move through the intersection and help the intersection to operate more efficiently. The DLT is scheduled to open by the end of 2019.

## MAKING A LEFT TURN AT THE DLT IS EASY AS 1-2-3

**1** Start by lining up in the left turn lane like at a normal intersection, only a little farther back.

**2** When the traffic signal turns green, drive across the lanes for opposing traffic into the two new lanes on the left side of the road.

**3** At SR 124/Scenic Highway, there will be another traffic signal - when the left turn arrow turns green, you can go ahead and make your left turn. *Don't be surprised when you see through-traffic driving past you on your right.*

# HOW TO NAVIGATE A DISPLACED LEFT TURN (DLT) INTERSECTION

GDOT is reconfiguring the intersection of US 78/Main Street and SR 124/Scenic Highway. The new Displaced Left Turn (DLT) improvements will increase the number of vehicles that can move through the intersection and help the intersection to operate more efficiently. The DLT is scheduled to open by the end of 2019.

**A** TURNING RIGHT FROM US 78/MAIN ST

Proceed to the intersection and turn right as you normally would, but you must yield to other vehicles that are traveling straight on SR 124/Scenic Hwy or turning left from US 78/Main St in the opposite direction. You must also stop for pedestrians in the crosswalk.

**B** GOING STRAIGHT ALONG US 78/MAIN ST

When the traffic signal turns green, proceed as you normally would through the intersection. Just past the intersection at SR 124/Scenic Hwy, you will cross over lanes for opposing traffic and proceed straight on US 78/Main St.

**C** TURNING RIGHT FROM SR 124/SCENIC HWY

On southbound SR 124/Scenic Hwy:

- Get in the dedicated right turn lane and proceed to the intersection.
- If the traffic signal is a red arrow, you must stop; if it is a flashing yellow arrow, you may turn right after stopping for pedestrians.

On northbound SR 124/Scenic Hwy:

- **No right turn is permitted onto eastbound US 78/Main St.** Drivers who wish to head east on US 78/Main St should turn right on Henry Clower Blvd (to the south) and then turn right on US 78/Main St. (See Exhibit 3.)

**D** GOING STRAIGHT ALONG SR 124/SCENIC HWY

When the traffic signal turns green, proceed as you normally would through the intersection.

**E** TURNING LEFT FROM SR 124/SCENIC HWY

On southbound SR 124/Scenic Hwy:

- Get in the dedicated left turn lane.
- At the traffic signal, when the left turn arrow is green, turn left onto eastbound US 78/Main St.
- If there is a flashing yellow arrow, you may turn left, but you must yield to oncoming vehicles and pedestrians in the crosswalk.

On northbound SR 124/Scenic Hwy:

- **No left turn is permitted onto westbound US 78/Main St.** Drivers who wish to head west on US 78/Main St should turn left on Henry Clower Blvd (to the south) and then turn left on US 78/Main St. (See Exhibit 3.)

# TRAVELING THROUGH THE DISPLACED LEFT TURN (DLT) INTERSECTION: GETTING TO NEARBY DESTINATIONS

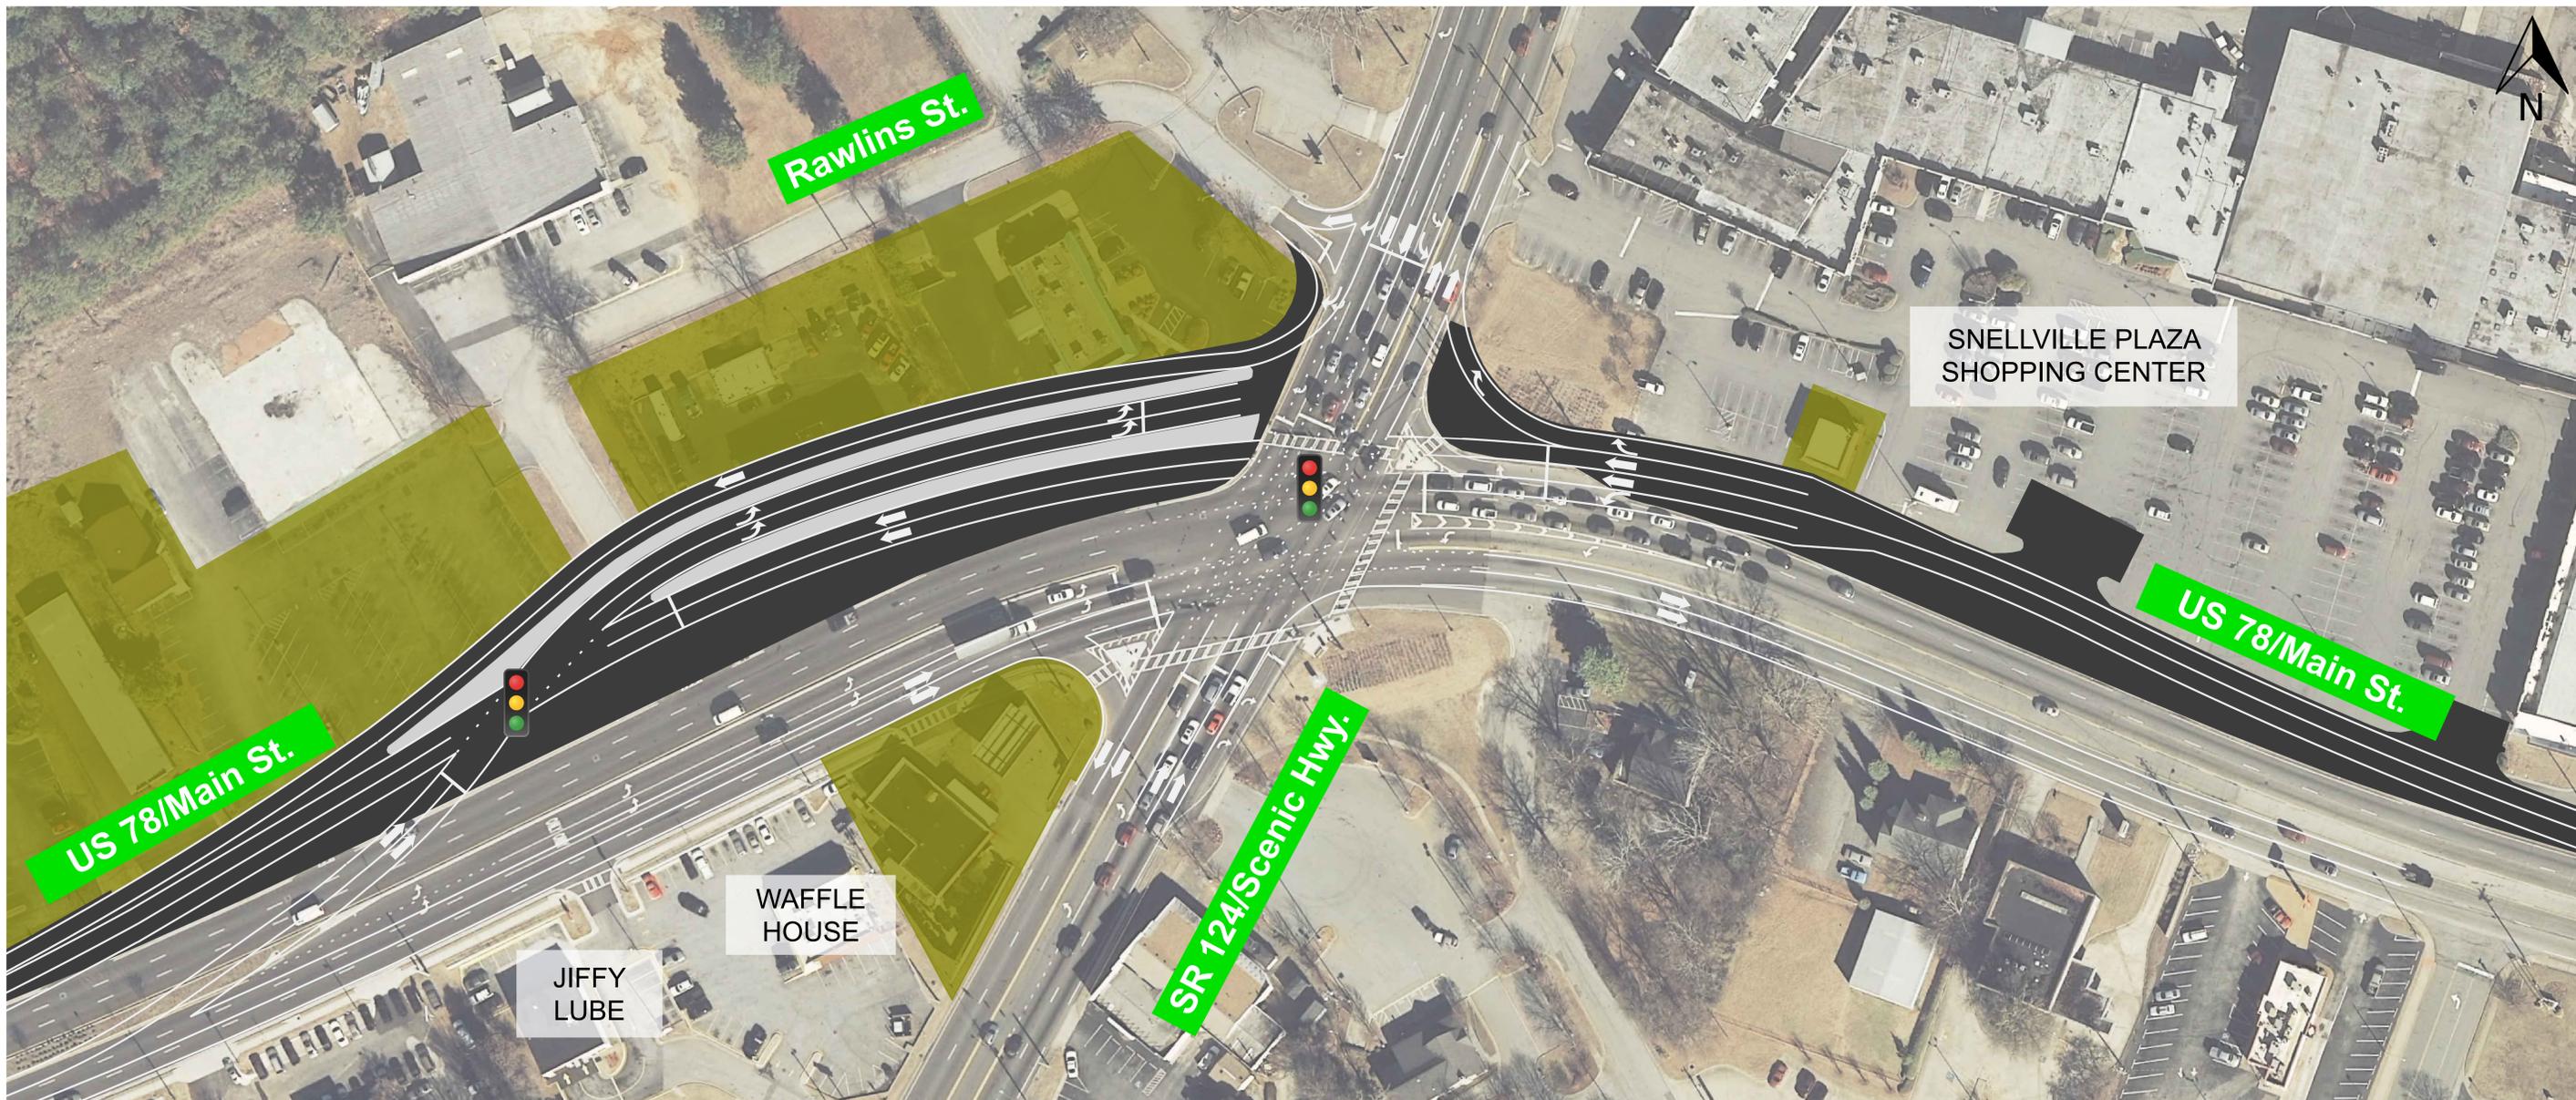

# EASTBOUND DISPLACED LEFT TURN (DLT) - OPENING SPRING 2019

The intersection improvement at US 78/Main Street and SR 124/Scenic Highway is currently under construction and is expected to be complete by the end of 2019. In the interim, during spring 2019, new Displaced Left Turn (DLT) lanes will open from eastbound US 78/Main Street to northbound SR 124/Scenic Highway.

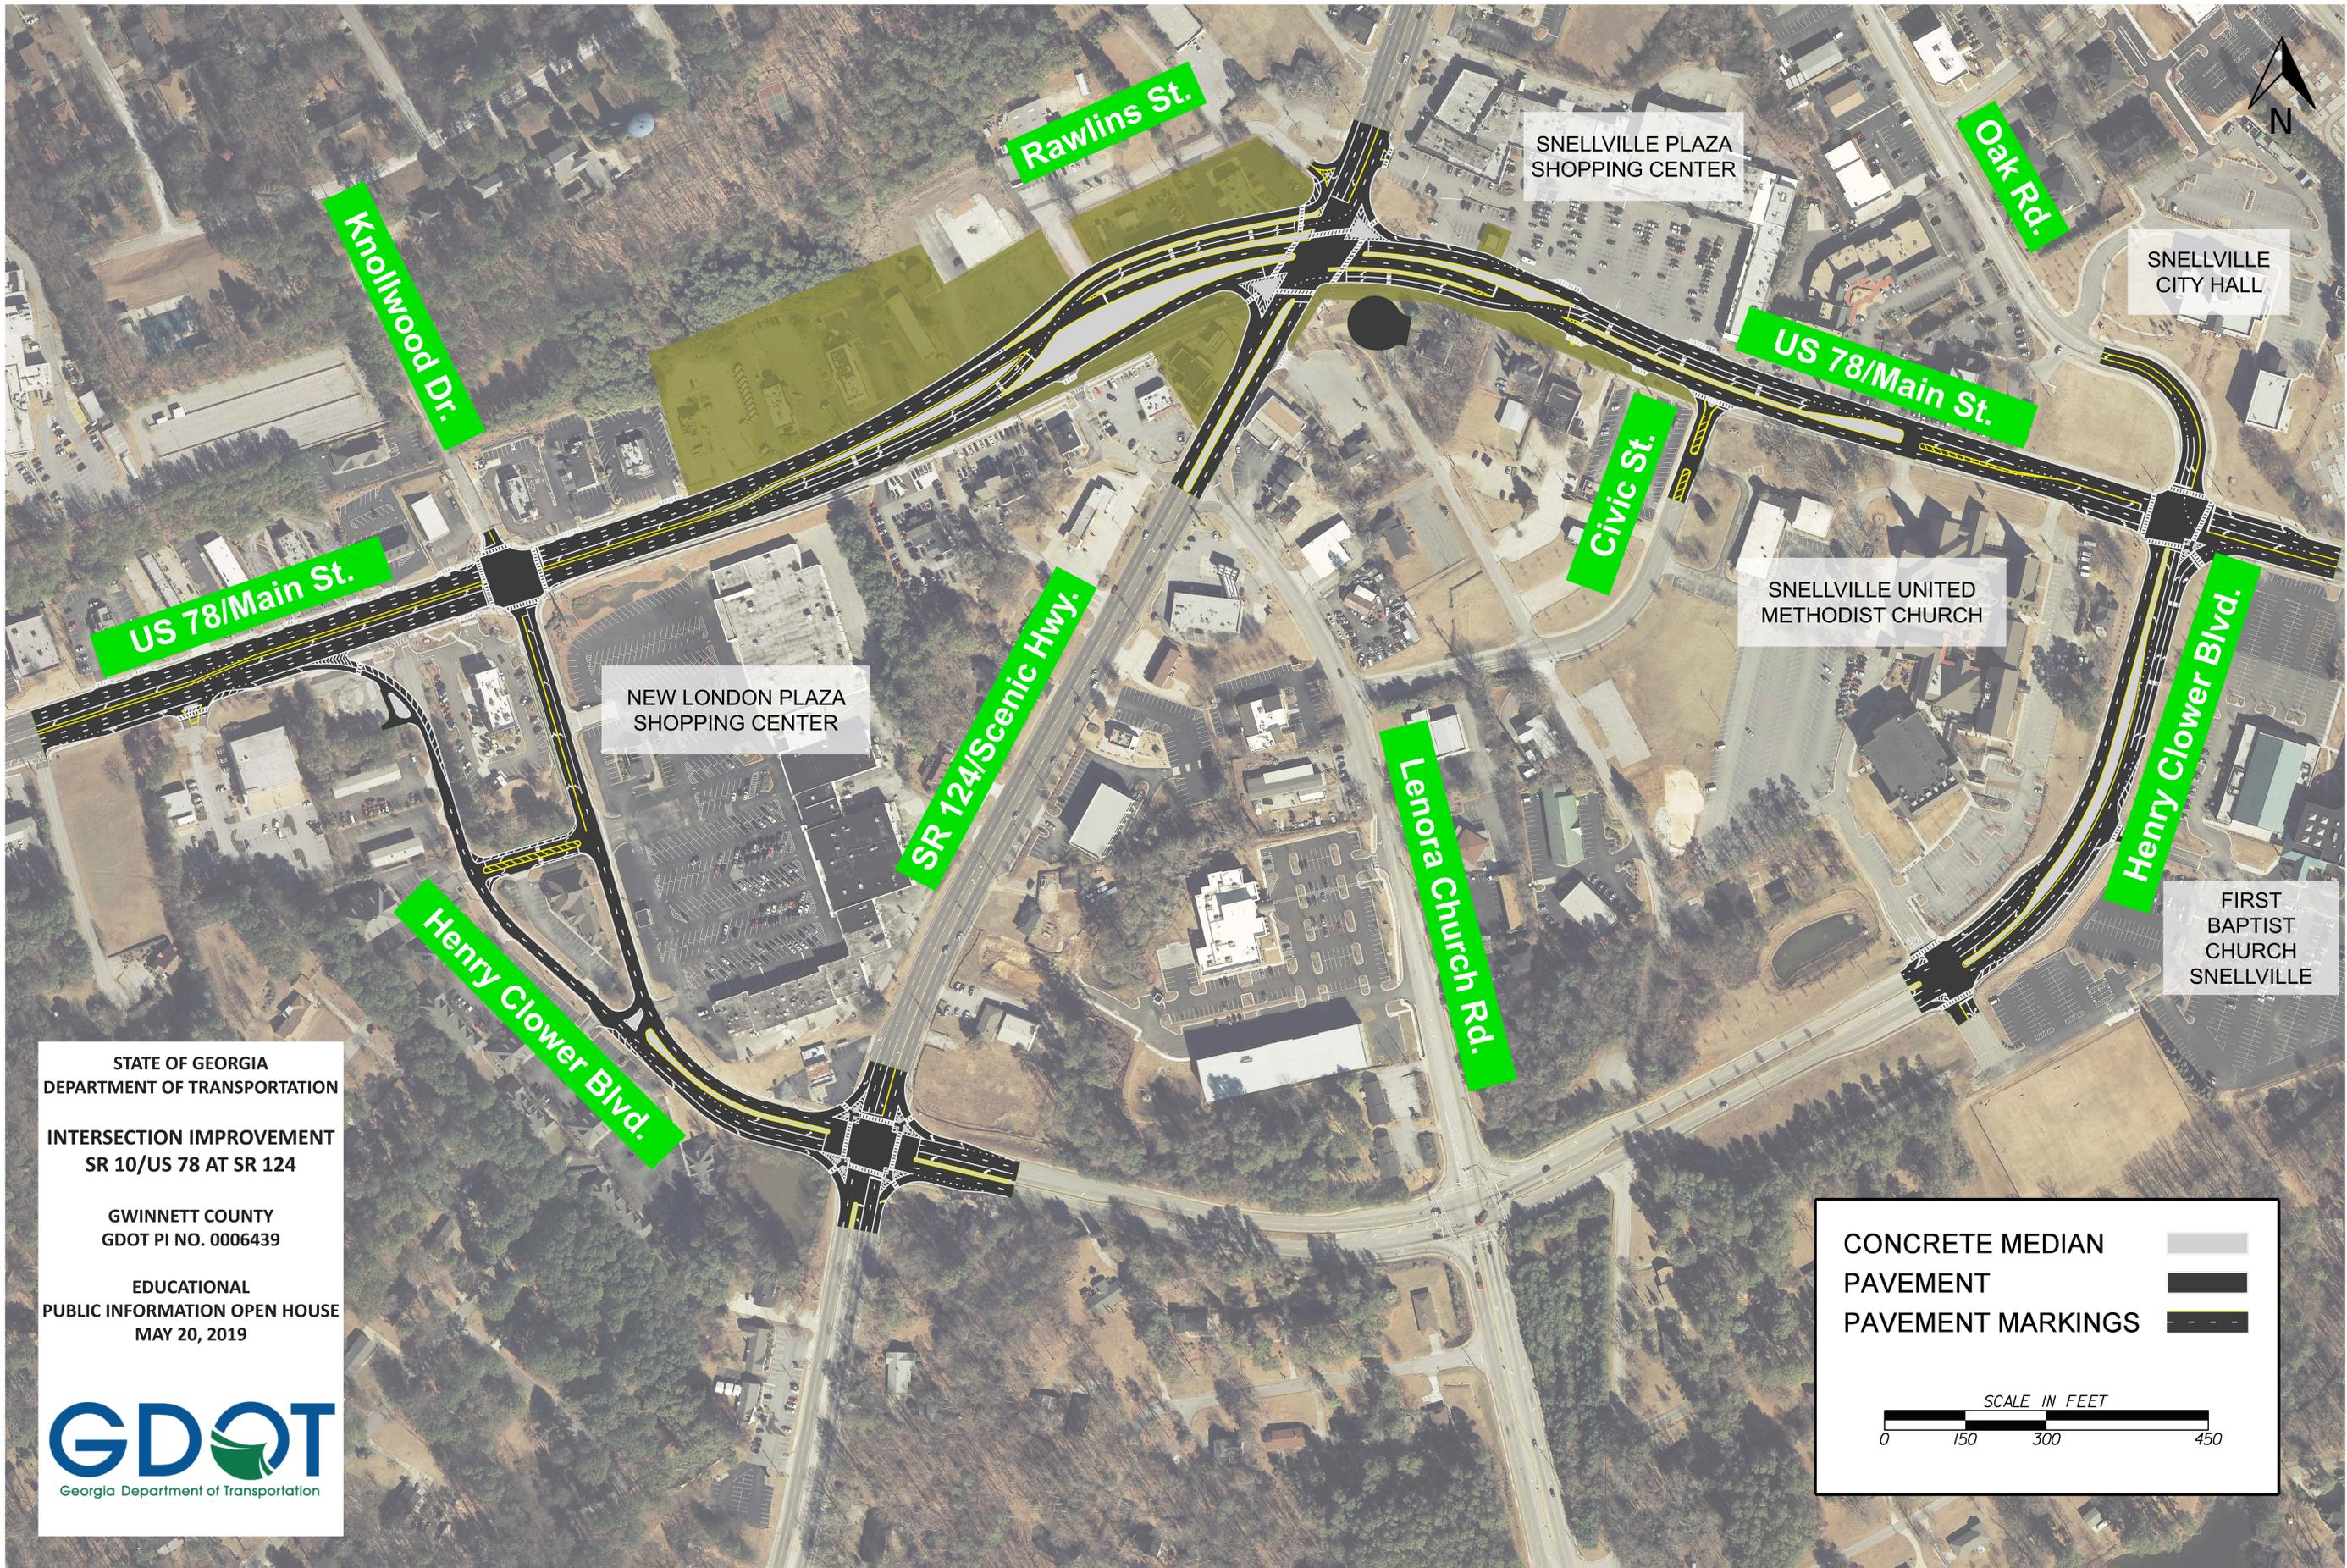

Drivers traveling eastbound on US 78/Main Street who wish to turn left (north) onto SR 124/Scenic Highway will enter new crossover lanes, wait for a green signal, then cross over lanes of traffic headed in the opposing direction and proceed to the main intersection.

Traveling westbound on US 78/Main Street, the lanes will be shifted slightly to the north. As drivers cross SR 124/Scenic Highway, they will notice traffic headed in the opposing direction on the right side, separated by a raised median.
