

ECONOMIC IMPACT OF
Bacon County Airport

Georgia Airports Mean Business

Georgia's airport system of 104 publicly-owned, public-use airports – nine commercial service airports and 95 general aviation airports – are essential to the state's transportation and economic infrastructure, supporting its diversified industries including technology, manufacturing, distribution, tourism, and agriculture. These businesses utilize Georgia's airports to transport employees, customers, vendors and goods, which spur economic development. Airport businesses support on-site and local jobs by providing aviation-related goods and services to aircraft and passengers. Additionally, on-airport capital improvements promote economic activity in the

community through increased construction jobs and the purchase of goods and services. Georgia's business and leisure visitors, who regularly arrive on commercial airlines and general aviation aircraft, stimulate local economies by spending money for lodging, food, other transportation, shopping, recreation, and entertainment.

Georgia's airports, by means of on and off-site businesses, visitors, and aviation-related organizations, contribute significantly to the state's economy, supporting 471,175 jobs, \$17.7 billion in payroll, and \$62.6 billion in statewide economic impact.

Statewide Economic Impact Study

The Georgia Department of Transportation commissioned this Federal Aviation Administration (FAA)-funded study to quantify the economic contribution of the state's airport system using an FAA-approved methodology of survey data and modeling estimates. The economic impacts are categorized by on-airport, visitor, and multiplier impacts to measure the total jobs, payroll, and total economic output of each of the 104 airports in this study.

visitors. The multiplier effect of these direct impacts was calculated using Georgia-specific regional multipliers. For example, if an airport employee purchases groceries, those dollars may support a grocer's payroll, the grocer may spend money on child care, and so on, until those payroll dollars originating from airport activity leave the community and state. The spending and re-spending generates additional economic activity in the region.

The economic benefits calculated for each of the airports was based on comprehensive survey data provided by airport managers, airport tenants, non-aviation businesses who utilize the airport, and airport

The total economic impact of \$62.6 billion is the sum of all direct airport and visitor impacts combining with the multiplier effects and presented in terms of jobs, payroll, and total economic output.

Statewide Economic Impact

	Hartsfield-Jackson Atlanta International	Other Commercial Service Airports	General Aviation Airports	Statewide Totals
Jobs	434,434	26,451	10,290	471,175
Payroll	\$16.3 billion	\$1.1 billion	\$354.4 million	\$17.8 billion
Economic Output	\$58.2 billion	\$3.2 billion	\$1.2 billion	\$62.6 billion

Note: Hartsfield-Jackson Atlanta International Airport data is from 2009 Economic Impact Study. All other data is based on CY2010.

Benefits of Bacon County Airport

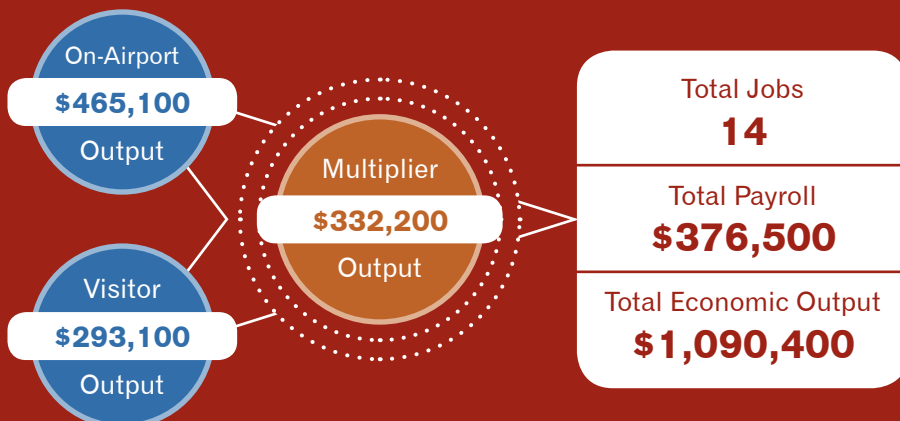

Alma is a south Georgia community located at the intersection of U.S. Highways 1/23 and Highway 32, approximately 80 miles northeast of Valdosta. With a 2009 population estimate of approximately 3,500, Alma is the largest city and county seat of Bacon County. Alma touts itself as the “Blueberry Capital of Georgia” thanks to extensive blueberry growing in the area and hosts the annual Georgia Blueberry Festival each June. The area is home to several tourist attractions including nearby General Coffee State Park.

Bacon County Airport is located three miles west of Alma and is owned and operated by Bacon County. The airport has one paved runway, Runway 15/33, measuring 5,000 feet long and can accommodate 85 percent of all general aviation aircraft. Bacon County serves as the fixed base operator, providing aircraft fueling, tie-downs, and ground transportation. Manning Aviation provides aircraft maintenance services.

The airport supports local employers, including Lee Meats and Richmond Baking, when they conduct business in the area. The airport also supports a wide spectrum of activities including corporate flights, flight training, transporting doctors and medical supplies in and out of the region, aerial agricultural operations, and aerial utility inspections.

Airports connect Georgia’s citizens and businesses to the rest of the state, our nation, and the global economy. Bacon County Airport plays a vital role in supporting the region with 14 jobs with an annual payroll of \$376,500, and \$1,090,400 in economic output for the local and regional economies.

Economic Impact of Bacon County Airport

Jobs measures the number of full-time equivalent jobs where a part-time employee counts as half a full-time employee.

Payroll measures the total annual wages and benefits paid to all workers whose salaries are directly attributable to airport activity.

Economic Output measures the value of goods and services related to the airport.

Georgia Airports

- Georgia is served by 104 publicly-owned, public-use airports:
 - Nine commercial service airports, including Hartsfield-Jackson Atlanta International, and
 - 95 general aviation airports.
- Airports in Georgia (excluding Hartsfield-Jackson Atlanta International) support:
 - 1.2 million annual boarded passengers.
 - 720,000 commercial service visitors.
 - 1.1 million general aviation visitors.
 - More than 500 on-airport businesses.
- Hartsfield-Jackson Atlanta International Airport:
 - Supports more than 46 million annual boarded passengers; that's nearly 12,700 daily boarded passengers.
 - Provides nonstop service to 156 U.S. cities and more than 80 international destinations in 52 countries.
 - Supports nearly 60 passenger and cargo airlines.
 - Is the busiest passenger and operations airport in the world.
