STATEWIDE TRANSPORTATION PLANNING PROCESS CERTIFICATION

In accordance with Title 23 CFR 450.218, the Georgia Department of Transportation hereby certifies that its statewide transportation planning process is addressing major issues facing the State and its non-urbanized areas, and is being carried out in accordance with the following requirements:

- I. 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;
- II. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- III. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex or age in employment or business opportunity;
- IV. Section 1101(b) of the FAST Act (Fixing America's Surface Transportation Act) (Pub. L. 114-94) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- V. 23 CFR part 230, regarding implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- VI. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27, 37, and 38;
- VII. In States containing nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- VIII. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- IX. Section 324 of title 23 U.S.C., regarding the prohibition of discrimination based on gender; and
- X. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Director of Planning

Date

Non-Discrimination Disclaimer

The Georgia Department of Transportation (GDOT) is committed to compliance with Title VI of the Civil Rights Act of 1964 and all related regulations and activities. GDOT assures that no person shall on the grounds of race, color, national origin, as provided by Title VI of the Civil Rights Act of 1964, and the Civil Rights Restoration Act of 1987 (P.L. 100.259) be excluded from participation in, denied the benefits of, or otherwise subjected to discrimination under any program or activity. GDOT further assures every effort will be made to ensure nondiscrimination in all of its programs and activities, whether or not those programs and activities are federally funded. In addition, GDOT will take reasonable steps to provide meaningful access to services for persons with Limited English Proficiency.

As provided under Section 162a of the Federal-Aid Highway Act of 1973 (section 324, title 23 U.S.C.), GDOT shall not discriminate on the ground of sex and GDOT shall submit a certification to the FHWA indicating that the requirements of section 162a of the Federal-Aid Highway Act of 1973 have been added to its assurances.

When the Department distributes federal aid funds to another governmental entity, GDOT will include Title VI language in all written agreements and the department will monitor for compliance.

GDOT's Equal Employment Opportunity Division (EEO) is responsible for initiating and monitoring Title VI activities, preparing required reports and other GDOT responsibilities as required by 23 Code of Federal Regulation (CFR) 200 and 49 Code of Federal Regulation 21.

Section I

Statewide Transportation Improvement Program

Introduction

We are pleased to present the Statewide Transportation Improvement Program (STIP) for Fiscal Years 2018 (July 1, 2017-June 30, 2018) through 2021 (July 1, 2020- June 30, 2021). The STIP lists Federally-funded transportation projects that are located outside Metropolitan Planning Organization (MPO) boundaries. A Metropolitan Planning Organization (MPO) is a federally required transportation planning body comprised of elected and appointed officials representing local, state and federal governments or agencies having interest or responsibility in transportation planning and programming. A map of the 16 MPOs in the State of Georgia, along with contact information for each MPO, can be found in this document on pages 16-18.

The STIP is fiscally balanced such that it lists project phases expected for the fiscal year shown. It is worth noting that project schedules are subject to many issues and events between project conception and project conclusion that may impede or accelerate their progress. Project cost estimates are based on latest and best available engineering estimates at the time the STIP is being developed; the final cost for a project phase may be revised over time as the project is refined during its progression to construction.

Each MPO develops its own Transportation Improvement Program (TIP) and questions about projects in those areas of the state may be directed to the individual MPO shown in the MPO Contacts section of this STIP. The TIPs are included in the STIP by reference without modification once approved by the MPO and the Governor or his designee.

The Eastern Federal Lands Highway Division (EFLHD) also develops a TIP for transportation projects within Federal Lands. This TIP is also included in the STIP by reference.

Purpose

In order to receive Federal transportation project funds, the Georgia Department of Transportation (GDOT) produces the STIP. The USDOT approved STIP is federally required to be updated no less than once every four fiscal years. If an annual STIP is not developed, the Department handles necessary revisions to the current STIP via an administrative modification or an amendment. The process describing these steps is covered on pages 30-33. The STIP lists all highway, public transit, and multimodal projects proposed for

funding under Title 23 (highways) and Title 49 (transit) of the U.S. Code. The STIP includes Highway, Bridge, Bicycle, Pedestrian, Safety, Transportation Alternative Program Activities and Public Transportation (transit) projects.

Project-related costs, such as scoping (SCP), preliminary engineering (PE), right-of-way acquisition (ROW), construction (CST) and utilities (UTL) are shown for highway projects; capital and operating costs are shown for transit projects. The projects are organized in alphabetical order by county with information on cost, description and fiscal year. Projects that extend into multiple counties are shown in the STIP under each county the project enters. Please see the *Understanding STIP Entries* Section on page 41 for detailed information on how to read STIP entries.

Development

The development and contents of the STIP are in accordance with 23 Code of Federal Regulations (CFR) Section 450.218. The FY 2018-2021 STIP follows the framework of the 2015 Statewide Strategic Transportation Plan (SSTP) in an effort to coincide with the Governor's Strategic Goals (which are located on page 15) for Georgia and to achieve the outlined goals of:

- Supporting Georgia's economic growth and competitiveness;
- Ensuring safety and security;
- Maximizing the value of Georgia's assets; and
- Minimizing impact on the environment

The SSTP is the official, intermodal, comprehensive, fiscally constrained transportation plan that includes projects, programs and other activities to support implementation of the state's strategic transportation goals and policies.

The 2015 SSTP is available online at: www.dot.ga.gov/IS/SSTP

The STIP is developed through the 3C planning process, which is continuing, collaborative and comprehensive. Projects listed in this document were identified through GDOT's ongoing planning processes and are vital to the state's transportation program. Comprehensive planning is a joint effort between the general public, the State Transportation Board, local and elected officials, GDOT District Staff, GDOT Executive Management, FHWA, FTA and the State Director of Planning. Projects in the STIP are programmed based on need and available resources to meet or exceed Department and state goals. The SSTP lists recommended investment levels by transportation program which are considered as well when programming the STIP. Projects in the STIP emphasize the maintenance, safety, and improvement of existing transportation facilities and public transportation systems. The projects support GDOT's mission to provide a safe, seamless and sustainable transportation system that supports Georgia's economy and is sensitive to its citizens and environment.

Additionally in the non-MPO areas which the STIP covers, projects are identified in direct cooperation with rural (non-MPO) local governments through formal, face-to-face meetings with GDOT as well as regular/ongoing informal contact with GDOT throughout the rest of the year.

The STIP was developed under all relevant guidelines provided by the Transportation Equity Act for the 21st Century (TEA-21), passed by Congress in 1998, followed by the Moving Ahead for Progress in the 21st Century Act (MAP-21) passed by Congress in 2012. STIP development has since continued under the Fixing America's Surface Transportation Act (FAST Act) passed by Congress in 2015. The STIP is submitted to the Federal Highway Administration and Federal Transit Administration for final approval.

Transportation Performance Management

FHWA defines Transportation Performance Management (TPM) as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals.

In short, TPM:

- Is systematically applied, a regular ongoing process
- Provides key information to help decision makers allowing them to understand the consequences of investment decisions across transportation assets or modes
- Improving communications between decision makers, stakeholders and the traveling public
- Ensuring targets and measures are developed in cooperative partnerships and based on data and objective information

The Department reports on the performance of the transportation system in the Statewide Strategic Transportation Plan (SSTP), which is a plan required by state legislation. The SSTP is the official, comprehensive, transportation plan that includes, projects, programs, and other activities to support the implementation of the State's strategic transportation goals and policies. The SSTP identifies a set of strategic, financially constrained investment strategies to meet the transportation needs of the state.

The performance goals outlined in the SSTP reflect national transportation goals and also align with the Governor's strategic goals for a lean, responsive state government. A performance-based planning framework is followed using an objective-based strategy to achieve the state's goals. Performance measures set the stage for the execution framework which drives our investment priorities and project implementation. Finally, performance targets are established to monitor outcomes and overall progress. Currently, the Department's performance measures and targets can be found on the Department's Performance Dashboard located at:

<http://www.dot.ga.gov/BS/Performance>. Beginning in May 2018 however, the Department will be setting targets to meet the national performance goals and measures established under 23 USC 150 (b) and (c). For federal regulatory reference on Transportation Performance Management, please see the table below.

Performance Management Table 1: TPM Rulemakings Summary

TPM-Related Rules	Rule Effective Date	Regulatory Chapter
Safety Performance Measures (PM1)	April 14, 2016	23 CFR 490 (Subpart A & B)
Highway Safety Improvement Program (HSIP)	April 14, 2016	23 CFR 924
Statewide and Non-Metropolitan Planning; Metropolitan Planning	June 27, 2016	23 CFR 450
Highway Asset Management Plans for NHS	October 2, 2017	23 CFR 515 & 667
Pavement and Bridge Condition Measures (PM2)	May 20, 2017	23 CFR 490 (Subpart A, C & D)
Performance of the NHS, Freight, and CMAQ Measures (PM3)*	May 20, 2017	23 CFR 490 (Subpart A, E, F, G, H)

The SSTP is updated biennially with a progress report released annually. The 2017 SSTP Progress Report is scheduled for release in December 2017, while the 2018 SSTP full update will be released in late January 2018. The current 2015 SSTP is available at: <http://www.dot.ga.gov/IS/SSTP>. The SSTP will be updated, as necessary, to reflect the newly developed performance targets set forth once they are in place.

For more information on Transportation Performance Management, please visit the following site: <https://www.fhwa.dot.gov/tpm/>

Public Involvement

This STIP serves as a document to provide all citizens and interested stakeholders with the opportunity to review and comment on the state’s transportation priorities for the next four fiscal years. Through direct contact with local elected officials, as well as stakeholders and the general public, the STIP is presented for consideration and comments throughout its development. In addition to the face-to-face meetings with local elected officials, the STIP is presented at public meetings held around the state by GDOT staff that encourages questions and input. These meetings are held at various locations and are advertised through mailings and press releases. Public involvement efforts for the STIP are in accordance with 23 CFR 450.210 (a) and (b). Comments and questions can also be submitted by mail, e-mail and telephone/fax directly to GDOT staff at any time throughout the year.

Additional information on the public involvement process can be found within the *Public Involvement Process* Section on page 12 of the STIP and online in the STIP Public Involvement Report at:

http://www.dot.ga.gov/InvestSmart/Documents/STIP/FY18-21/FINALSTIPAnnualPublicInvolvementReport_2018-2021.pdf

The Environmental Justice Identification and Proposed Outreach Report details information on the STIP's public involvement outreach strategy to include traditionally underserved communities. The report is available online at: <http://www.dot.ga.gov/InvestSmart/Documents/STIP/FY18-21/FY18-21STIPEJOutreachReport.pdf>

Funding

In development of the STIP, the Department must demonstrate fiscal constraint for each year. Fiscal constraint requires ensuring that a given program or project can reasonably expect to receive funding within the time allotted for its implementation. The STIP is fiscally constrained and includes only those projects with funding available or having a reasonable expectation to obtain funds. Fiscal constraint along with project funding implementation are followed under 23 CFR 450.218 and 23 CFR 630.106. To achieve constraint, the FAST Act Appropriations levels were taken to derive the Spending Authority levels. The Spending Authority is the authority to make expenditures from a particular fund source for a specific period of time up to an established level, provided with the setting of an award installment.

The Federal funding total assumptions for fiscal years 2018-2020 were derived from the FAST Act appropriations bill passed in the summer of 2017. For the fiscal year 2021, apportionment levels for fiscal year 2020 were used with an added 1% growth rate. Cost estimates for individual projects are based on the best available engineering estimates. These costs may change as a project progresses from preliminary engineering to the purchase of right of way to construction. If a cost estimate results from a change in the original scope of the project, the STIP will be amended including the necessary public involvement. If an increased cost estimate is based on updated engineering improvements rather than a change in the actual work, an amendment to the STIP may be necessary depending on the revised cost. Greater detail may be found in the Financial Plan Section beginning on page 19.

Please see Appendix A for a glossary of terms used throughout the STIP.

The most current Census data (2010) indicates that Georgia's population growth rate from 2000 to 2010 was 18.3%, which is close to double the U. S. average population growth of 9.7% over the same time period. Georgia's economy is also growing, leading to increased demands on the transportation system. The STIP process ensures that maximum benefits are received from available funding and that Georgia's transportation system will continue to support and promote Georgia's growth and economy.

Based on the National Cooperative Highway Research Program (NCHRP Project 20-24 (37)), Georgia invests less per capita in transportation than most other states. Despite this fact, Georgia ranks 1st for construction projects on budget at 85% and ranks 2nd for construction projects delivered on time at 85%. Georgia's ranking is based on a 39-state study.

Freight

This year's STIP makes great strides in the effective movement of freight around the state. Widening corridors designated on the Statewide Freight Corridor Network – see Appendix C – and key connections to the interstate will improve the flow of freight throughout the state. There are also numerous congestion relief projects including several state route widenings and bypasses. The continued emergence of the Port at the Savannah complex as one of the leading container ports in the United States has provided Georgia a great strategic transportation asset, giving the State a larger role in global

trade. Savannah's growth has introduced a range of economic development opportunities, particularly for distribution, warehousing, and manufacturing. Freight volumes, mostly in the form of containers handled by the Savannah Port Complex, have a direct impact on Georgia's highway and rail networks. As such, the State of Georgia, in cooperation with the Coastal Area (Savannah) Metropolitan Planning Organization and Georgia Ports Authority, is pursuing several projects to accommodate and efficiently serve freight volumes moving throughout Georgia and the region.

For example, freight-supportive highway projects pursuing Federal funds are reflected in this FY 2018-2021 STIP document, as well as in the Savannah MPO's 2018-2021 TIP (which is incorporated via reference), to support the continued growth and activity expected at the Port of Savannah complex. Examples of freight-supportive highway projects included in the FY 2018-2021 STIP include:

- Widening on SR 109 in Troup County (PI 0008674)
- Widening on SR 31 in Wheeler County (PI 0013577)
- Interchange work on SR 316 in Barrow County (PI 0008430)
- Bridge construction on I-85 in Jackson County (PI 0013923)

Air Quality

The Department is responsible for the administration of the Congestion Mitigation and Air Quality Improvement (CMAQ) Program in the State of Georgia. The CMAQ program is a federally funded program authorized under the Fixing America's Surface Transportation Act (FAST Act) as part of § 1114; 23 U.S.C. 149. Georgia is eligible to receive CMAQ funds due to violations of the National Ambient Air Quality Standards (NAAQS). A geographic area that meets or does better than the NAAQS for a given pollutant is called an attainment area; an area that does not meet this standard for a given pollutant is called a nonattainment area.

In this past, some areas in Georgia have been in violation of the NAAQS for two pollutants: ozone and PM2.5. However, as of October 24, 2016 all areas in Georgia are in attainment for PM2.5. As of June 2, 2017, all areas are in attainment for ozone. The Atlanta Regional Commission (ARC) still does air quality modeling for the following 15 counties: Bartow, Cherokee, Clayton, Cobb, Coweta, DeKalb, Douglas, Fayette, Forsyth, Fulton, Gwinnet, Henry, Newton, Paulding, and Rockdale. These counties also participate in the conformity process. The Department works closely with the county's MPO, as well as, State and Federal agencies throughout the conformity process to ensure future transportation plans, programs, and projects are consistent with air quality goals.

Additional information on Georgia's CMAQ program can be found at:

<http://www.dot.ga.gov/DriveSmart/Travel/Pages/Details.aspx?categoryID=2>

For more information on designations visit:

<https://www.epa.gov/green-book>

For more information on conformity visit:

https://www.fhwa.dot.gov/environment/air_quality/conformity/

Conclusion

The Department of Transportation wishes to thank all of the citizens and local officials for taking the time to provide input on the development of this program. Comments and questions may be directed to the STIP Coordinator, listed on the inside front cover of the STIP.

Section II

Public Involvement Process

A major component of the STIP development process is public involvement, in accordance to 23 CFR 450.210 (a) and (b). The Office of Planning oversees the STIP public involvement process for the six rural GDOT Districts and distributes the STIP to the Districts for use in their public meetings and meetings with local officials.

Public Meetings

Public meetings are scheduled to provide an opportunity for public review and comment. All of the public meetings are held in ADA accessible locations. In 2017, twelve public meetings were scheduled on the following dates:

August 28 – Albany
August 28 – Waycross
August 29 – Tifton
August 29 – Statesboro
August 31 – Carrollton
September 5 – Americus

September 7 – LaGrange
September 11 – Helen
September 11 – Dublin
September 12 – Maysville
September 12 – Thomson
September 13 – Jasper

**September 11 and 12 meetings cancelled due to impacts from Hurricane Irma*

The Department invites large numbers of customers to these meetings. The Department mailed over 1,800 individual invitations to local officials and the Family of Partners, a group of stakeholders with interest in transportation.

Ads were placed and press releases sent to local newspapers publicly announcing STIP meetings. Radio ads were aired and legal ads were placed in all Legal Organs in the state. An informational flyer explaining the STIP process is also published and distributed at the public meetings – see Appendix D. Additional information about the STIP public involvement process can be found in the STIP Public Involvement Report:

www.dot.ga.gov/InvestSmart/Documents/STIP/FY18-21/FINALSTIPAnnualPublicInvolvementReport_2018-2021.pdf

Meetings with Local Officials

As part of the STIP development process, the District Planning and Programming Specialists meet with the elected officials from each rural county in their area to discuss proposed projects in the STIP to solicit comments and questions. During these meetings, a range of transportation issues

are discussed and requests are forwarded to the appropriate DOT office for response. Local officials sign a “Certification of Cooperation with Elected Officials” documenting STIP consultation.

STIP on the Web

The Department makes the STIP available to citizens on the Department’s web page. The web address for the Georgia STIP is:

www.dot.ga.gov/IS/STIP

Contact information is also included on this site for citizen’s comments.

Comments

Comments received from the public meetings and the meetings with locals are taken into consideration in the development of the STIP and any comments received are answered or forwarded to the appropriate GDOT office for response.

Additional Comments can be sent using the contact information below:

Georgia Department of Transportation
Attn: Office of Planning/STIP Coordinator
600 W. Peachtree St. NW
Atlanta, Georgia 30308

Email: stipcoordinator@dot.ga.gov

In the sixteen previously established metropolitan areas of the state, public involvement is the responsibility of the local metropolitan planning organizations (MPOs); for questions about projects located in these areas, please contact the corresponding agency on pages 17-18 (following the MPO map).

Section III

Georgia's Transportation Leadership

Governor Deal approved the STIP on September 20, 2017. The Governor has taken an active role in ensuring the state has a plan that provides vision, direction, and priorities by developing the Governor's Strategic Goals for Georgia located on the following page. The Georgia DOT is currently governed by a 14-member State Transportation Board, which provides leadership and sets policies for the Department. The Board is entrusted with powers that include, but are not limited to: naming the Commissioner; designating which public roads are encompassed within the state highway system; approving long-range transportation plans; overseeing the administration of construction contracts; and authorizing lease agreements. Board Members are elected by a majority of a General Assembly caucus from each of Georgia's fourteen congressional districts. Each board member serves a five-year term.

Section IV

Vision: **A lean and responsive state government that allows communities, individuals and businesses to prosper**

Governor's Strategic Goals for Georgia

Educated: **Developing life-, college-, and work-ready students**

- Increase number of students reading at grade level by the completion of 3rd Grade – a strategic benchmark for lifelong learning
- Increase the percentage of students who complete a college education
- Improve and expand science, technology, engineering and mathematics (STEM) education
- Identify and implement innovative strategies that increase teacher effectiveness and student achievement
- Increase the percentage of high school graduates that are college and career ready
- Empower citizens with public school options and local flexibility for the purpose of improving student achievement

Mobile: **Transporting people and products in a 21st century Georgia**

- Improve the movement of people and goods across and within the state
- Expand Georgia's role as a major logistics hub for global commerce
- Leverage public-private partnerships and improve intergovernmental cooperation for successful infrastructure development

Growing: **Creating jobs and growing businesses**

- Implement strategic tax and regulatory reforms that make Georgia more competitive
- Promote small business growth and entrepreneurship
- Maximize access to capital for startups and growing businesses
- Conserve and enhance natural resources, with an emphasis on increasing state water supplies and security

Healthy: **Accessible care and active lifestyles**

- Reduce childhood obesity in Georgia
- Increase access to health services throughout the state
- Increase consumer choice and personal responsibility in health care
- Improve access to treatment and community options for those with disabilities

Safe: **Protecting the public's safety and security**

- Implement alternative sentencing options to improve offender rehabilitation
- Promote successful offender re-entry and compliance
- Reduce injury and loss of life on Georgia's roads
- Promote safe communities and stable families where children thrive

Responsible and Efficient Government: Fiscally sound, principled, conservative

- Maintain Georgia's AAA bond rating
- Increase availability of state services through innovative technology solutions
- Build and maintain a quality state government workforce
- Focus state resources on essential services and employ enterprise solutions
- Enlist community support and public-private partnerships to leverage available resources

Section VI

Georgia Department of Transportation STIP Financial Plan

The Georgia Statewide Transportation Improvement Program (STIP) is developed in accordance with 23 Code of Federal Regulations (CFR) Section 450.218 and includes a priority list of highway, passenger rail and transit projects to be implemented (Section 630.106(a)(2)).

The following describes transportation program estimates which financially constrain by year the STIP Financial Plan (SFP) for Fiscal 2018-2021. In order to provide for 23CFR Section 630.110, “Modification of Original Agreements,” for project phases authorized (Section 630.106(a)(2)) under a previous STIP, the SFP reserves a portion of the funding for this purpose and allocates the remaining transportation revenues to state and local projects for a four year time period. The financial plan includes projects for which funding can reasonably be expected to be available. Only those projects or project phases (scoping, preliminary engineering, rights-of way, utilities or construction) for highway projects or (capital or operating) for transit projects are included in the STIP.

The Fiscal 2018-2021 SFP was developed on the basis of current state and federal fund balances and projected 2018, 2019, 2020 and 2021 Federal-aid and state funding for each of the four years of the STIP. Also the Transportation Improvement Programs (TIP) and their related funding, developed by Georgia’s sixteen Metropolitan Planning Organizations (MPO), are incorporated into the STIP by reference.

The Fiscal 2018-2021 SFP for highways and transit totals \$8.39 billion with a FY 2018 annual program of \$2.02 billion. Funding for this four-year program includes \$5.10 billion in federal funds, \$1.92 billion in state funds, and \$1.37 billion in local funds (*see STIP Funds by Category pie chart on page 40*). This level of infrastructure investment supports jobs in the construction industry as well as a well-maintained transportation system that fosters a healthy economy by providing the infrastructure for efficient movement of goods and people.

The project cost estimates used in developing the STIP are based on the best available engineering estimates at the time. Final cost for the actual project phase authorization may differ, right of way needs or design quantities are finalized through the pre-construction process. If changes due to these revisions alter the STIP description of intent, design, or scope of the project, then appropriate STIP amendment procedures, provided in this section, will be followed. Funds are also reserved for these amendments.

HIGHWAY PROGRAMS – funded by FAST (Fixing America’s Surface Transportation) Act

National Highway Performance Program (NHPP) – Under the FAST Act, the enhanced National Highway System is composed of rural and urban roads serving major population centers, intermodal transportation facilities and major travel destinations. It includes the Interstate System, all principle arterials, highways that provide motor vehicle access between the NHS and major intermodal transportation facilities, and the network of highways important to U.S. strategic defense (STRAHNET) and its connectors to major military installations. Moving forward it is anticipated as new principle arterials are identified, there will be a separate process/review to determine if they are NHS eligible.

Surface Transportation Program (STP) – STP funds may be used the State and localities for projects to preserve or improve conditions and performance on any Federal-aid highway, bridge projects on any public road, facilities for nonmotorized transportation, transit capital projects and public bus terminals and facilities. The distribution of STP funds includes 50 percent for use in urban and rural areas of the state based on population. The remaining 50 percent can be used in any area of the state at the direction of the Department.

Highway Safety Improvement Program (HSIP) - The Highway Safety Improvement Program is a program to achieve a significant reduction in traffic fatalities and serious injuries on all public roads. Safety projects include Hazard Elimination, Railroad Crossing, and Railroad Protective Devices.

Congestion Mitigation/Air Quality (CMAQ) - These funds are for projects, which can be proven to reduce traffic congestion and/or improve air quality in non-attainment or maintenance areas. Projects such as intersection improvements, signal coordination, and ride sharing qualify for these funds. Currently, there are fifteen counties in non-attainment or maintenance areas: Bartow, Cherokee, Clayton, Cobb, Coweta, DeKalb, Douglas, Fayette, Forsyth, Fulton, Gwinnett, Henry, Newton, Paulding, Rockdale.

Transportation Alternatives Program (TAP) – Established with MAP-21 and carrying over to the FAST Act, this new program encompasses projects that were previously eligible activities under separately funded programs. Qualifying projects include transportation enhancement activities, recreational trails, safe routes to school, and planning, designing or constructing roadways within the right-of-way of former Interstate routes or other divided highways.

Demonstration or High Priority (Demo, HPP) – These funds are congressionally authorized and designated for specified projects.

HIGHWAY FUNDING SOURCES

State Funding Sources - The \$1.92 billion in State highway funds are available from several sources including motor fuel taxes, special fuel taxes (diesel), and State Bonds. Eighty-two percent of these funds are used for construction and maintenance of state highways. Another eight percent are programmed for improvements to local roads. The remainder is not associated with a specific route. Revenues from these sources increase about one percent a year. State funds are part of the STIP program development, with about \$1.04 billion used for federal match.

Federal Highway Funding Sources – Federal highway funds in the STIP are estimated based on the Department’s expectations of what Congress will authorize to be spent on the program. The Department expects to get at least \$5.49 billion in federal highway funds over the next four years, from the Highway Trust and Other Funds and \$1.08 billion from carryover funding from MAP-21 and previous highway laws. Estimates are subject to change based on forthcoming yearly appropriation and obligation levels set by Congress.

Advance Construction (AC) – Federal law allows states to borrow against future federal funding. Available state dollars are used to fund these projects until payments are made. These projects are then partially or completely converted to regular federal funds and the Federal Highway Administration billed for the federal portion of these payments.

There are eight projects in the STIP establishing amounts for conversion for the debt service of GARVEE bond projects that were funded federal AC.
(PI # 0009717, 0009718, 0009719, 0009720, 0015480, 0015481, 0015482, 0015483)

**Additional information about the GARVEE bonded and regular AC projects to be converted can be found in Appendix B*

Local Highway Funding Sources - During the four-year program, an estimated \$1.28 billion in local funds will be needed to match federal-aid for local highway projects and for local contributions to matching improvements on the state highway system.

Unobligated Balances – Refers to Federal funding from prior years that have not had their Apportionments completely exhausted. These funds are still available to be used as part of the current year's Obligation Authority as well as the new Apportionments for the first year of this document.

HWY Table 1: Summary of Highway Available Funds and Projects
(\$ Millions)

Description	FY 2018	FY 2019	FY 2020	FY 2021	Total
Total funds available	\$2,080	\$2,239	\$2,431	\$2,061	\$8,811

Grand Total	\$2,080	\$2,239	\$2,431	\$2,061	\$8,811

*A 5-year average of actual Apportionments vs Spending Authority was used for this STIP, with the average being 96.81 percent.

FY 18 – FY 21 Funding of Highway Projects: The \$8.14 billion highway program for FY 2018-2021 includes \$4.94 billion in federal-aid, \$1.92 billion in state funds and \$1.28 billion in local funds. The following table summarizes program funding for FY 2018-2021:

**HWY Table 3: FY 2018-2021 Highway Projects
(\$ Millions)**

Fund Source	FY 2018	FY 2019	FY 2020	FY 2021	Total FY 2018-2021	Average Annual
Federal Aid	\$1,231	\$1,259	\$1,276	\$1,177	\$4,943	\$1,236
State Funds	\$451	\$569	\$503	\$394	\$1,917	\$479
Local Funds	\$263	\$260	\$476	\$282	\$1,281	\$320
Total	\$1,945	\$2,088	\$2,255	\$1,853	\$8,141	\$2,035
Bond Funds (included in State and/or Local)	\$119	\$119	\$202	\$196	\$636	\$159
Program Distribution (Federal Aid \$) *						
NHPP	\$137	\$129	\$190	\$159	\$615	\$154
STP	(\$41)	(\$67)	(\$45)	(\$7)	(\$160)	(\$40)
Safety	(\$11)	(\$16)	(\$14)	(\$13)	(\$54)	(\$14)
CMAQ	\$40	\$59	\$48	\$72	\$219	\$55
Transportation Alt.	\$30	\$18	\$21	\$21	\$90	\$23
Freight	\$0	\$0	\$0	\$0	\$0	\$0

* The negative balances represent the over programming of a particular fund source, but the overall program maintains financial constraint. Funding from other categories may be transferred to cover the additional projects (i.e. the freight funding for 18-21 will be transferred to other fund sources).

Fixing America’s Surface Transportation (FAST) Act – Title 3 programs

Transit, passenger rail, aviation, freight rail and ports join highways as significant modes in Georgia’s intermodal transportation system. Non-highway modes funded through Title 3 or through moneys flexed from Title 1 are part of the STIP. Because of its importance to the state’s transportation program, a comprehensive summary of non-highway modal programs, funded with *other than* FAST Act funding and administered by the Georgia Department of Transportation is included in this document.

TRANSIT PROGRAMS

Georgia Department of Transportation (GDOT) in cooperation with the Federal Transit Administration (FTA), works closely with the metropolitan planning organizations (MPOs), regional commissions (RCs) and the state’s rural and small urban public transit agencies across Georgia to plan, develop, and deliver much-needed public transportation services and facilities to meet our state’s transit needs. Over 100 local jurisdictions and regional agencies receive federal and state transit funding through GDOT.

The primary mission of GDOT’s Transit Program (which is assigned to its Intermodal Division) is to oversee the management of a variety of FTA and/or state funding programs to support transit planning, capital projects, and transit system operations. GDOT is responsible for statewide transit planning and coordinates with regional agencies and other state agencies, such as the Georgia Department of Human Services (DHS) in its transit activities. GDOT also oversees transit capital projects and programs and operating assistance for transit systems that range in size from very small systems (1-3 vehicles operated) to large ones, operating between 50-70 vehicles each day.

The GDOT Transit Program is also the leader in federally-required transit asset management planning and monitoring activities for the state’s rural and small urban transit systems. Making sure all of the federally- and state-funded transit vehicles and facilities are maintained in a “state of good repair” is a critically important role.

GDOT also serves as a source of technical assistance to MPOs, regional commissions, local governments, and transit agencies of all sizes in Georgia. With Transit staff based in GDOT’s General Office in Atlanta and also located in six district offices, GDOT personnel can work closely with the local agencies that are engaged in transit activity.

The public transportation projects listed in the STIP are funded with FTA funds along with state funds for certain transit activities. Transit projects located in designated urban areas of Georgia are identified through the MPO planning process which includes representation from the transit system(s) in the area. All urban transit projects are included in the Transportation Improvement Programs (TIPs) and Long-Range Transportation Plans (LRTPs) in all of the MPO areas in the state.

GDOT is the designated recipient of FTA funds for areas under 200,000 population. In addition to the federal transit funds apportioned to the state and urbanized areas in Georgia, GDOT also receives state funds from the State’s General Fund budget to match up to one-half of the local share of transit capital projects located in the urbanized areas of Albany, Athens, Cartersville, Gainesville, Hinesville, Macon and Rome. In addition, the Department coordinates with the Georgia Department of Human Services (GDHS) on transportation projects for the elderly and disabled population. GDHS is the Designated Recipient for FTA’s Section 5310 program funding in Georgia.

The urbanized areas for Metro Atlanta, Augusta, Savannah and Columbus have populations of over 200,000 and receive transit federal funds directly from FTA. Within the constraints of the state budget each year, GDOT provides up to one-half of the local share of matching funds for capital projects in these areas.

Primary FTA Transit Programs include:

Section 5303 and 5304 Metropolitan and Statewide Planning Programs– These programs provide funding to states and urbanized areas to carry out transit planning activities in order to plan and develop multimodal transportation systems.

Section 5307 - Urbanized Area Formula Grants Program – FTA Section 5307 provides funding for capital, operating and planning assistance. Funds are distributed nationwide on a formula basis.

Section 5310 – Formula Grants for the Enhanced Mobility of Seniors and Individuals with Disabilities Program – FTA Section 5310 supports the capital costs of transportation services for older adults and people with disabilities. This program is administered by the Georgia Department of Human Services (DHS) which coordinates its activities with the GDOT Transit Program.

Section 5311 - Formula Grants for Rural Areas Program – FTA Section 5311 provides funding to enhance the access of people in non-urbanized areas to health care, shopping, education, employment, public services and recreation. Funds are available for capital, operating assistance, and administrative expenses. This program also includes the Rural Transit Assistance Program (RTAP) for State DOTs (Section 5311(b)(3) which provides funding for training, technical assistance projects, research and other support services for rural transit operations. The Section 5311 Program also includes a 15% set-aside for capital projects associated with private intercity bus operations (Section 5311(f)).

Section 5329 - State Safety Oversight – FTA Section 5329 provides authority to establish and enforce a new comprehensive framework to oversee the safety of public transportation throughout the United States as it pertains to heavy rail, light rail, buses, ferries, and streetcars. GDOT has this responsibility in Georgia.

Section 5339 – Grants for Bus and Bus Facilities Program - FTA Section 5339 provides capital funds for purchase or major rehabilitation of bus vehicles and for the development and construction of bus-related facilities, such as maintenance centers, administrative buildings, park and ride lots, and other related bus facilities.

Other FTA Transit Programs

Transit Asset Management - In addition to the FTA programs that provide financial assistance for public transportation, there are other FTA initiatives that recipients and subrecipients of FTA funds must comply with. One of these compliance areas is Transit Asset Management (TAM). New requirements addressing the requirement to maintain transit vehicles and facilities in a state of good repair were enacted in 2016. By October 2018, all federally-funded transit systems must have a Transit Asset Management Plan, including detailed performance targets for vehicles, equipment, and facilities.

TRANSIT FUNDING SOURCES

State Funding Sources – The State Legislature provides up to one-half of the required twenty percent match for federal transit funding through the General Fund. Approximately \$3 million in General Funds for transit purposes are programmed in the STIP.

Federal Transit Funding Sources – The \$158 million in federal funds is partially based on estimates of federal revenue available to Georgia through the United States Department of Transportation’s surface transportation programs authorized under the FAST Act (Chapter 53 of Title 49 of the United States Code).

Local Transit Funding Sources – During the four-year program, an estimated \$86 million in local funds will be needed to match federal funds. These funds are acquired through local sales taxes, special taxing districts, property taxes as well as the general tax digest.

AVIATION PROGRAMS

The mission of GDOT's aviation program is to preserve and enhance the State's air transportation system to meet the demands of users. The program provides financial and technical support to publicly owned, open to the public airports. The Georgia Department of Transportation is authorized to plan and support the establishment, development and maintenance of aviation and aviation facilities. The Georgia Airport Aid Program (GAAP) provides state funding assistance, appropriated by the Georgia General Assembly, for capital, maintenance, approach aid and planning projects. Development, Maintenance, Approach Aid, and Planning projects are funded at 75% state assistance or 50% state assistance for urban area airports lacking federal support. All FAA (Federal Aviation Administration) supported construction projects may be funded at 95% FAA and 2.5% state aid. Airport markings on State development projects are eligible for 100% funding. In addition, the minimum contract level of state funding assistance on all GAAP projects is \$1,500. State projects (non-federal) are selected annually based on the GAAP Priority System criteria. Federally funded projects have the highest priority for matching state funds.

RAIL PROGRAMS

The primary mission of GDOT's rail program is to preserve and enhance the State's rail transportation system for future development and expansion of rail freight and rail passenger service. Existing rail corridors in the Department's Freight Rail Plan are identified to be either acquired and rehabilitated, or rehabilitated, in order to maintain and assure strategic rail freight access to Georgia's communities. Since 1992, GDOT has acquired 540 miles of light density railroad lines and since 1981, GDOT has rehabilitated 793 miles of light density railroad lines.

The passenger rail program defined in the document titled: *Intermodal Program for Rail Passenger Service in Georgia*, guides implementation of intrastate, intercity, and commuter rail passenger service to provide a multi-modal alternative in the State's largest travel market. Seven (7) commute services and six (6) intercity rail lines are identified in the Program to serve and connect together the Atlanta, Athens, Griffin, Macon, Bremen, Canton, Senoia, Albany, Savannah, Augusta, and Columbus metropolitan markets.

PORT PROGRAMS

The mission of GDOT's ports program is to partner with the Corps of Engineers to maintain the navigability of the Atlantic Intracoastal Waterway and Georgia's deepwater ports in Savannah and Brunswick. In order to maintain a navigable channel, the Corps of Engineers dredges the Savannah and Brunswick Harbors annually. The Department's role is to partner with the Corps to provide dredge material containment areas for the Corp's work for the federal navigation projects. The Department is required to cost/share in dike design, construction, and environmental mitigation. GDOT funds 35% of dike construction costs but no maintenance costs of disposal areas. GDOT annually requests funding from the Georgia General Assembly to cover the costs of these activities.

Statewide Transportation Improvement Program (STIP) and Transportation Improvement Program (TIP) Amendment Process

The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) issued the Final Rule to revise the Statewide and Metropolitan Transportation Planning regulations incorporating changes from the Fixing America's Surface Transportation Act (FAST). The revised regulations clearly define administrative modifications and amendments as actions to update plans and programs. 23 Code of Federal Regulations (CFR) Part 450.104 defines administrative modifications and amendments as follows:

- Administrative modification “means a minor revision to a long-range statewide or metropolitan transportation plan, Transportation Improvement Program (TIP), or Statewide Transportation Improvement Program (STIP) that includes minor changes to project/project phase costs, minor changes to funding sources of previously-included projects, and minor changes to project/project phase initiation dates. Administrative Modification is a revision that does not require public review and comment, redemonstration of fiscal constraint, or a conformity determination (in nonattainment and maintenance areas).”
- Amendment “means a revision to a long-range statewide or metropolitan transportation plan, TIP, or STIP that involves a major change to a project included in a metropolitan transportation plan, TIP, or STIP, including the addition or deletion of a project or major change in project cost, project/project phase initiation dates, or a major change in design concept or design scope (e.g., changing project termini or the number of through traffic lanes). Changes to projects that are included only for illustrative purposes do not require an amendment. An amendment is a revision that requires public review and comment, redemonstration of fiscal constraint, or a conformity determination (for metropolitan transportation plans and TIPs involving “non-exempt” projects in nonattainment and maintenance areas). In the context of a long-range statewide transportation plan, an amendment is a revision approved by the State in accordance with its public involvement process.”

The following procedures have been developed for processing administrative modifications and amendments to the STIP and Metropolitan Planning Organizations (MPOs) TIPs and Long Range Transportation Plans (LRTPs). Processes described below detail procedures that are to be used to update an existing approved STIP or TIP and associated plan, if applicable. A key element of the amendment process is to assure that funding balances are maintained.

Administrative Modifications for Initial Authorizations

The following actions are eligible as Administrative Modifications to the STIP/TIP/LRTP:

- A. Revise a project description without changing the project scope, conflicting with the environmental document or changing the conformity finding in nonattainment and maintenance areas (less than 10% change in project termini). This change would not alter the original project intent.
- B. Splitting or combining projects.
- C. Federal funding category change.
- D. Minor changes in expenditures for transit projects.
- E. Roadway project phases may have a cost increase up to \$2,000,000 or 20% of the amount to be authorized.
 - If the STIP amount is \$10,000,000 or less, the cost may be increased up to \$2,000,000.
 - If the STIP amount is greater than \$10,000,000, the cost may be increased by a maximum of 20%.
- F. Shifting projects within the 4-year STIP as long as the subsequent annual draft STIP was submitted prior to September 30.
- G. Projects may be funded from lump sum banks as long as they are consistent with category definitions.

An administrative modification can be processed in accordance with these procedures provided that:

- 1. It does not affect the air quality conformity determination.
- 2. It does not impact financial constraint.
- 3. It does not require public review and comment.

The administrative modification process consists of a monthly list of notifications from GDOT to all involved parties, with change summaries sent on a monthly basis to the FHWA and FTA by the GDOT.

The GDOT will submit quarterly reports detailing projects drawn from each lump sum bank with remaining balance to the FHWA.

Amendments for Initial Authorizations

The following actions are eligible as Amendments to the STIP/TIP/LRTP:

- A. Addition or deletion of a project.
- B. Addition or deletion of a phase of a project.
- C. Roadway project phases that increase in cost over the thresholds described in the Administrative Modification section.
- D. Addition of an annual TIP.
- E. Major change to scope of work of an existing project. A major change would be any change that alters the original intent i.e. a change in the number of through lanes, a change in termini of more than 10 percent.
- F. Shifting projects within the 4-year STIP which require redemonstration of fiscal constraint or when the subsequent annual draft STIP was not submitted prior to September 30. (See Administrative Modification item F.)

Amendments to the STIP/TIP/LRTP will be developed in accordance with the provisions of 23 CFR Part 450. This requires public review and comment and responses to all comments, either individually or in summary form. For amendments in MPO areas, the public review process should be carried out in accordance with the procedures outlined in the Participation Plan. The GDOT will assure that the amendment process and the public involvement procedures have been followed. Cost changes made to the second, third and fourth years of the STIP will be balanced during the STIP yearly update process. All amendments should be approved by FHWA and/or FTA.

Notes:

- 1. The date a TIP becomes effective is when the Governor or his designee approves it. For nonattainment and maintenance areas, the effective date of the TIP is based on the date of U.S. Department of Transportation's positive finding of conformity.
- 2. The date the STIP becomes effective is when FHWA and FTA approve it.
- 3. The STIP is developed on the state fiscal year which is July 1-June 30.
- 4. Funds for cost increases will come from those set aside in the STIP financial plan by the GDOT for modifications and cost increases. Fiscal Constraint will be maintained in the STIP at all times.

Additional Funding Request After the Initial Authorization

Additional funding requests for all phases after the receiving initial authorization for those phases shall be a modification and be reported at each month's end except under the following conditions:

- A. The Initial Work Authorization for the phase is older than 10 years.
- B. The additional funding request exceeds the Initial Work Authorization by greater than \$10 million.

FHWA/GDOT PE and Right of Way FMIS Authorization Policy

Requirements for Additional PE Submittals:

These policies pertain to FMIS modifications incurred after the initial authorization. The initial authorization must be programmed in the applicable TIP/STIP to receive funding. The FHWA Georgia Division reserves the right to deny the FMIS modification request regardless of whether it meets the below requirements. Additional funding requests for PE phases after the receiving initial authorization shall be a modification and be reported at each month's end. Any requests not meeting the below expectations or appear to not be a candidate for additional funds through a FMIS modifications shall be required to have programming in the current planning document updated to reflect the request. Mitigation phases added as a FMIS modification will not be approved and must be programmed separately.

If any requests fall outside of the below guidelines the request will need to be programmed in the current planning document.

- The Initial Work Authorization for the phase is older than 7 years.
- The additional funding request exceeds the Initial Work Authorization by greater than \$2,000,000 or 20% of the amount of the initial authorization, whichever is greater.

Requirements for all ROW Submittals:

Every project presented to FHWA for right of way funding authorization must be listed in the current STIP/TIP. All FMIS requests need to be based on a current GDOT ROW cost estimate. All projects must have approved current/accurate Right of Way plans. All projects must have a current approved NEPA document.

ROW Phase under \$15 million

Right of Way Project authorizations under \$15 million must be programmed in a single year through the current STIP/TIP and be authorized fully in that same year.

Split Funded Project over \$15 million

Right of Way projects over \$15 million may be split funded in two phases that are programmed in consecutive years.

Final Right of Way phase must not fall in the same fiscal year as construction.

A minimum of 40% of all funding must be in the first year of authorization.

If Additional Right Of Way Funds are Needed

If additional Right of Funds are needed for the following situations:

1) Condemnation over runs, 2) Change in cost estimate due to change in scope or significant plan changes an amount up to 20% of original cost estimate may be authorized immediately with documentation of where the funds were obtained from in the GDOT program to follow within 30 days to the FHWA Georgia Division Office. If an amount is needed over 20% of the original ROW cost estimate, or for reasons other than stated above, FHWA and GDOT will deal with these issues on a case by case basis. Documentation of where the funds were obtained from will be forwarded to the Georgia FHWA Division office within 30 days of approval.

LUMP SUM FUNDING

A portion of the STIP funding is set aside for eleven groups of projects that do not affect the capacity of the roadway. The Lump Sum projects program is intended to give the Department and MPO flexibility to address projects of an immediate need while fulfilling the requirements of the STIP. Funds are set up in lump sum banks to undertake projects that are developed after the STIP is approved. These lump sums banks, located in the statewide or “All” county section of the STIP, are listed in a number of funding types for each year for the Department’s convenience in managing and accounting for the funding. These Lump Sum Banks are shown in the TIP/STIP with the words “Lump Sum” in the *project description* and contain an amount of funding for each year. Funds are drawn from these lump sums during the year and individual projects are programmed. The individual projects may include work at one or several locations for letting and accounting purposes. Listed below are these eleven groups and information about them. Except for groups for preliminary engineering and rights of way protective buying, the total available funds are shown as construction for easy accounting but preliminary engineering and rights-of-way may be drawn from this amount when needed in that category.

Individual projects are programmed and funds drawn from the Lump Sum Bank at the time these funds are needed for Preliminary Engineering, Rights of Way and Construction. These projects may be funded in the current year or one of the other TIP/STIP years. Funds for these projects are not counted until authorization is requested for the funds. At that time the actual cost is deducted from the balance in the Lump Sum Bank.

To provide the readers of the TIP/STIP with as much information as possible, individual projects to be funded from the Lump Sum Bank in the future may be shown in the TIP/STIP with a preliminary estimated cost. These projects are also denoted with the words “Uses Lump Sum Bank PI # 000xxxx” in the lower left area of the project listing. To avoid double counting, these projects are not included in the county total at the end of the county.

Group: Maintenance

Criteria: existing system maintenance only

This group has six funding/work types: two are for bridge painting/maintenance and the other four are for roadway maintenance. Major types of work undertaken are: resurfacing, pavement rehabilitation, median work, impact attenuators, signing, fencing, pavement markings, landscaping, rest areas, walls, guardrail and shoulder work. Also included is preliminary engineering necessary to prepare plans and rights-of-way needed for work such as landslide repair, sewer hookups and erosion control.

Group: Safety

Criteria: work qualifying for the High Hazard Safety Program and other safety projects

This group includes the following work types: signal installation/upgrades, guardrail installation, sign installation, railroad protection devices, operational improvements, railroad crossing hazard elimination, roadway hazard elimination and special safety studies and programs.

Group: Preliminary Engineering

Criteria: planning, studies and management systems

This group is a single item

Group: Roadway/Interchange Lighting

Criteria: lighting

This group is a single item.

Group: Rights of Way - Protective Buying and Hardship Acquisitions

Criteria: purchase of parcel(s) of rights of way (RW) for future projects that are in jeopardy of development and for hardship acquisition. Qualifying projects are those that have preliminary engineering (PE) underway or have a PE, RW or construction phase in the STIP. For counties that are not in conformance for air quality the only qualifying projects are those that have a RW phase in the STIP.

This group is a single item.

Group: Transportation Enhancement

Criteria: projects qualifying for the Transportation Enhancement program (TE) and the Recreational Trails & Scenic Byway programs

TE projects shown in the STIP will be funded on a first come first served basis. When a project is funded it is drawn down from the lump sum. When all funds are gone, no other projects can be funded until the next fiscal year, which begins on July 1.

This group has two funding types.

Group: Transportation Alternatives Program (TAP)

Criteria: TAP provides funding for programs and projects defined as transportation alternatives, including on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, community improvement activities, and environmental mitigation; recreational trail program projects; safe routes to school projects; and projects for planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.

Consistent with what is allowed in the FAST legislation, GDOT reserves the right to transfer 50% of available TAP funds to one of the most flexible funding categories available. Those dollars may be spent on any federal-aid eligible project to permit GDOT to focus on delivering the long-needed transportation improvements that support the safe and efficient movement of people and goods, in the most cost-effective manner.

The remaining 50% of TAP funds consists of dollars sub-allocated to MPOs over 200,000 in population as well as TAP funds held at State DOTs eligible for use in areas below 200,000 populations. Projects selected to receive these funds must be the result of a competitive selection process.

This group has two funding types.

Group: Livable Centers Initiative (LCI)

Criteria: projects qualifying for the LCI program and selected by the Atlanta Regional Commission (ARC)

LCI implementation projects are selected on a competitive basis and lump sum funding amounts are programmed according to reasonable schedules for engineering, right of way acquisitions and construction for projects comprising the overall program. Funding for individual phases of a project may be shifted between fiscal years as necessary if such shifts do not affect the implementation schedule of other projects or exceed the overall lump sum funding amount.

This group is a single item.

Group: Safe Routes to Schools

Criteria: To enable and encourage children, including those with disabilities, to walk and bicycle to school; to make walking and bicycling to school safe and more appealing; and to facilitate the planning, development and implementation of projects that will improve safety, and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.

This group has three items; Infrastructure & non-infrastructure & any project.

Group: High Risk Rural Roads

Criteria: States are required to identify these roadways (and expend the HRRR funds) according to the following definition:

Any roadway functionally classified as a rural major or minor collector or a rural local road and

- A. on which the accident rate for fatalities and incapacitating injuries exceeds the statewide average for those functional classes of roadway; or
- B. that will likely have increases in traffic volume that are likely to create an accident rate for fatalities and incapacitating injuries that exceeds the statewide average for those functional classes of roadway."

Group: Low Impact Bridges

Criteria: Candidates for this process will require minimal permits, minor utility impacts, minimal FEMA coordination, no on-site detour, and meet other low-impact characteristics as identified in this document. Projects that ultimately qualify for this expedited process also must not exceed established environmental impact thresholds and thus qualify as a Categorical Exclusion (CE) determinations in compliance with the National Environmental Policy Act (NEPA). The Program has been created with three major principles in mind – safety, stewardship and streamlining.

- The safety of the travelling public is of paramount importance. It is the intent of this program to reduce risk associated with structurally deficient, scour critical, temporarily shored, or fracture critical structures.
- Second only to safety, the program will foster stewardship of Georgia’s environmental and financial resources. Projects developed under the Program will seek to minimize the impact to the natural environment while providing long-term cost effective engineering solutions.
- The Program will result in accelerated, streamlined delivery of all phases of the bridge replacement including, planning, design, environmental approval and construction.

The MPO Lump Sum Process

The types of projects that the Department programs with lump sum funding have always adhered to the Federal Regulations set forth in 23 CFR 450.216 (9) b, which states “(for STIP) projects that are not considered to be of appropriate scale for individual identification in a given program year may be grouped by function, work type, and/or geographic area using the applicable classification under 23 CFR 771.117 (c) and (d) and/or 40 CFR part 51.” The Department’s lump sum projects also follow the guidelines set forth in 23 CFR 771.117 (c) and (d). The Lump Sum program is intended to give the Department and MPO the flexibility to address projects of an immediate need while fulfilling the requirements of the STIP.

Every year as the TIP development process begins, each MPO is provided with funding information for the Lump Sum “banks”. The Lump Sum banks identified for the MPOs are part of a larger series of Statewide Lump Sum banks. The purpose of showing these Lump Sum banks in the TIPs is to allow for projects that are more “routine” or “minor” to be shown in the TIPs therefore allowing for the funds to be authorized without the need for administrative actions by the MPO.

In an effort to allow for increased transparency in the Lump Sum Program for the MPO areas, several changes in the program will be implemented. These changes include the distribution of the Lump Sum Banks by a population-based formula, establishment of new procedures for revising the distributions levels, and timely and consistent reporting methods for identifying the projects programmed and let against the banks for each MPO. It is with the implementation of these additional efforts we believe that a higher level of transparency will be achieved and maintained.

Beginning with the annual development of each MPO TIP, each MPO shall receive for each Lump Sum bank that they qualify for, the funding amounts as calculated by the most current census information available. The share will be calculated using the MPO’s percentage of entire population of the state including the rural areas. Currently those distributions are as follows:

Lump Sum Table 1: MPO Lump Sum Bank Distributions

<i>MPO</i>	<i>2010 Census</i>
Albany	0.99%
Athens	1.33%
Atlanta	46.61%
Augusta	2.92%
Brunswick	0.53%
Cartersville	0.54%
Chattanooga	0.81%
Columbus	1.99%
Dalton	0.88%
Gainesville	1.35%
Hinesville	0.53%
Macon	1.42%
Rome	0.63%
Savannah	2.69%
Valdosta	0.80%
Warner Robins	1.37%
MPO Total	65.39%
Rural Total	34.61%

In the event an MPO exhausts any one annual Lump Sum bank capacity and it becomes necessary to increase the Lump Sum bank, the MPO may move future years Lump Sum bank funding in the TIP of a like kind to the current year. Constraint will be maintained from the annual set aside of obligation authority for modifications.

Reporting of the projects that are programmed from these Lump Sum banks will consist of two delivery methods. The first method will consist of two Lump Sum Reports posted on the GDOT external website. The first report will list projects and financial information by Lump Sum bank. The user may select the Lump Sum bank of interest and “real time” project information for all projects funded from that Lump Sum bank for the current fiscal year will be listed. The report shall also include the beginning balance for the Lump Sum bank and its current balance and at the end of the fiscal year, a complete report of the usage and shifts made to the Lump Sum bank will be posted on the webpage.

The second report will be by MPO where a user may select the MPO of interest and a “real time” MPO Lump Sum bank usage will be generated that will show project information for all projects programmed for all Lump Sum banks for the MPO in the current fiscal year. The Department will request that each MPO setup a link from their website to these reports to provide another access point to the reports as well.

The second delivery method will consist of the reviewing of the Lump Sum banks and projects authorized and let within the MPO area at the regularly scheduled Technical Coordinating Committee and Policy Committee meetings. The same versions of the reports as described earlier will be used to convey this information.

With these additional changes to the Lump Sum Program, the Department will be able to provide another level of transparency and at the same time provide each MPO with the most accurate and current information possible. The Department remains committed to providing a responsive Lump Sum program with a transparent, streamlined reporting process.

Section VIII

STIP Funds by Category

for

2018 - 2021

Total Funds \$8.39 Billion

\$ in Thousands

Understanding STIP Entries

Project description

The PI or Project Identification number used throughout the life of the project for tracking purpose.

Pickens
 Project: 0013827
 Type Work: Replace Bridge
 Descp: SR 136 @ TALKING ROCK CREEK 3 MI N OF JASPER
 Length: 0.40

Total Project Cost: \$ 1,950,000
 Total Project Authorizations: \$ 500,000
 Total Parcels: 0

Project Details: Replaces a load restricted bridge.

Total amount previously authorized, i.e. funds spent on the project

Total cost, authorizations plus funds not yet authorized.

Type of work, see Appendix A - Glossary of Terms for further definitions.

List the different phases involved in a particular project. Project can consist of Scoping (SCP), Preliminary Engineering (PE), Right of Way (ROW), Utilities (UTL) and/or Construction (CST).

The status of when work is scheduled to begin, or when the funds were authorized.

Phase	Fund	Year	Federal	State	Other	Total
PE	STP	2016	\$400,000	\$100,000	\$0	\$500,000
ROW	STP	2019	\$200,000	\$50,000	\$0	\$250,000
CST	STP	2020	\$960,000	\$240,000	\$0	\$1,200,000

Funding Category: May be Bridge, STP, NHPP, etc. & refers to specific Category of funds to be used.

Describes the purpose and anticipated benefits of the project.

Preliminary parcel count anticipated for ROW phase.

Total cost of funding for each phase of work.

Identify government participation (Federal, State, or Local) in funding each phase of project.

STATE TRANSPORTATION IMPROVEMENT PROGRAM

Decatur

Project: **0008042** Type Work: Miscellaneous Improvements

Descp: SR 1/SR 38 FROM CR 393/BETHEL ROAD TO CR 208/WHIGHAM ROAD

Length: 7.00

Phase	Fund	Year	Federal	State	Other	Total
PE	NHPP	2019	\$1,862,794	\$465,698	\$0	\$2,328,492
ROW	NHPP	After 2021	\$7,841,352	\$1,960,338	\$0	\$9,801,690
CST	NHPP	After 2021	\$20,978,081	\$5,244,520	\$0	\$26,222,601

Total Project Cost: \$ 38,352,783

Total Project Authorizations: \$ 0

Total Parcels: 0

Project Details: Project will improve the capacity and operations of the interchanges to enhance mobility. Bring grade separated road system up to current design standards.

Project: **0010926** Type Work: Intersection Improvement

Descp: SR 38BU/US 84BU @ SR 38/US 84

Length: 0.40

Phase	Fund	Year	Federal	State	Other	Total
PE	Safety	2012	\$395,389	\$43,932	\$0	\$439,321
CST	HSIP	LUMP	\$3,003,177	\$333,686	\$0	\$3,336,863
UTL	HSIP	LUMP	\$205,200	\$22,800	\$0	\$228,000

Total Project Cost: \$ 4,004,184

Total Project Authorizations: \$ 439,321

Total Parcels: 0

Project Details: Intersection reconstruction – Improve operation – reduce vehicular and pedestrian crash frequency and severity

Uses Lump Sum Bank: ROADWAY SAFETY FUNDS FOR FY 2018 - FY 2021

Project: **0011683** Type Work: Replace Bridge

Descp: SR 253 @ SPRING CREEK 12 MI SW OF BAINBRIDGE

Length: 0.40

Phase	Fund	Year	Federal	State	Other	Total
PE	STP	2013	\$3,133	\$783	\$0	\$3,916
PE	Bridge	2013	\$995,756	\$248,939	\$0	\$1,244,695
ROW	Bridge	2016	\$112,000	\$28,000	\$0	\$140,000
CST	Bond	2018	\$0	\$3,798,301	\$0	\$3,798,301

Total Project Cost: \$ 5,186,912

Total Project Authorizations: \$ 1,388,611

Total Parcels: 4

Project: **0013557** Type Work: Turn Lanes

Descp: SR 38/US 84 FM BAINBRIDGE TO GRADY COUNTY-MEDIAN TURN LANES

Length: 5.96

Phase	Fund	Year	Federal	State	Other	Total
PE	HSIP	LUMP	\$90,000	\$10,000	\$0	\$100,000
CST	HSIP	LUMP	\$5,650,200	\$627,800	\$0	\$6,278,000

Total Project Cost: \$ 6,378,000

Total Project Authorizations: \$ 0

Total Parcels: 0

Uses Lump Sum Bank: ROADWAY SAFETY FUNDS FOR FY 2018 - FY 2021

STATE TRANSPORTATION IMPROVEMENT PROGRAM

Project: **0013561** Type Work: Turn Lanes

Descp: SR 38/US 84 FM DONALSONVILLE TO
BAINBRIDGE-MEDIAN TURN LANES
Length: 26.95

Phase	Fund	Year	Federal	State	Other	Total
PE	HSIP	LUMP	\$90,000	\$10,000	\$0	\$100,000
CST	HSIP	LUMP	\$9,900,000	\$1,100,000	\$0	\$11,000,000

Total Project Cost: \$ 11,100,000
Total Project Authorizations: \$ 0
Total Parcels: 0

Uses Lump Sum Bank: ROADWAY SAFETY FUNDS FOR FY 2018 - FY 2021

Also in Seminole County

Project: **M004389** Type Work: Resurface & Maintenance

Descp: SR 1BU FROM SR 38BU TO SR 97
Length: 0.82

Phase	Fund	Year	Federal	State	Other	Total
CST	NHPP	LUMP	\$110,884	\$27,721	\$0	\$138,605

Total Project Cost: \$ 138,605

Appendix A

Glossary of Terms

GLOSSARY OF TERMS

APPORTIONMENT

Each state's fair share of the Highway Trust Fund.

ATMS

Advanced Transportation Management System; a computerized system that integrates video, voice, and data management functions to collect information about the transportation infrastructure and performance analysis as well as support traffic management decisions based on real-time information.

AVAILABLE FEDERAL SPENDING AUTHORITY

The authority to make expenditures from a particular fund source for a specific period of time up to an established level, provided with the setting of an award installment.

CMAQ

Congestion Mitigation and Air Quality Improvement Program; directs funds primarily to areas that have failed to reach certain air quality standards. Projects allowed under this program include mass transit improvements and high-occupancy vehicle facilities.

CORRIDOR

A generally linear area that is defined by one or more modes of transportation such as highways, railroads or public transit which share a common course.

CST

Construction; the phase of a project that includes the actual construction of the project.

DONOR STATE BONUS

Donor states are states that contribute more to the Highway Trust Fund than they receive back in federal-aid highway programs. These states receive a predetermined amount based on a comparison of a projection of all payments into the Highway Trust Fund and the amount received in federal-aid apportionments. Starting with the state with the lowest return, states are brought up to the level of return for states with the next higher level of return until available funds are depleted.

FAST ACT

Fixing America's Surface Transportation Act; The most recent federal transportation bill approved by Congress in December 2015 which authorizes the federal surface transportation programs for highways, highway safety, transit, and rail for the five-year period from 2016 through 2020.

FED Share

Federal Share; portion of funding to be paid for with federal money.

FLAP

Federal Lands Access Program; provides funds for projects on Federal Lands Access Transportation Facilities that are located on or adjacent to, or that provide access to Federal lands.

Freight

Goods or carried transported via truck, train, ship, or plane.

GARVEE

Grant Anticipation Revenue Vehicle; bonds against anticipated federal funds for the purpose of accelerating the construction of the “Governor’s Road Improvement Program”.

GA Share

Georgia Share; portion of funding to be paid for with state money.

GRVA

GARVEE Advance; advance funding to pay for “Governor’s Road Improvement Program” projects with GARVEE bond before converting to regular federal aid funding.

GRVC

GARVEE Converted; funding to pay back the GARVEE bond.

HPP

High Priority Project; these funds are congressionally authorized and designated for specified projects.

HIGHWAY TRUST FUND

Federal account established by law to hold receipts collected by the government, earmarked for highway programs and a portion of the mass transit program; supported by the federal gasoline tax and other user taxes.

HSIP

Highway Safety Improvement Program; a program to achieve a significant reduction in traffic fatalities and serious injuries on all public roads. Safety projects include Hazard Elimination, Railroad Crossing, and Railroad Protective Devices.

LIVEABLE CENTERS INITIATIVE (LCI)

A grant program overseen by the Atlanta Regional Commission that encourages cities and communities in the Atlanta region to develop strategies that link residents to shopping, dining and other activities via sidewalks and bike trails.

MANAGED LANE

A type of highway lane that is operated with a management scheme, such as lane use restrictions or variable tolling, to optimize traffic flow, vehicle throughput, or both.

MPO

Metropolitan Planning Organization; the entity responsible for transportation planning in urbanized areas with populations greater than 50,000 required by federal regulations to develop transportation plans and programs, and is responsible for developing the Transportation Improvement Program (TIP). There are 16 urbanized areas classified as MPOs in Georgia – Albany, Athens, Atlanta, Augusta, Brunswick, Cartersville, Chattanooga, Columbus, Dalton, Gainesville, Hinesville, Macon, Rome, Savannah, Valdosta, and Warner Robins.

NATIONAL HIGHWAY FREIGHT PROGRAM

Program enacted by the FAST Act to improve efficient movement of freight on the National Highway Freight Network (NHFN).

NEPA

National Environmental Policy Act of 1969; requires federal government to use all practical means and measures to protect environmental values; makes environmental protection a part of the mandate of every federal agency and department.

NHPP

National Highway Performance Program; provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan for the NHS.

NHS

National Highway System; consists primarily of the Interstates and other major routes. Also includes all urban and rural principal arterials.

NON-ATTAINMENT

Areas that do not meet the national ambient air quality standards set by USEPA.

OBLIGATION CEILING

The maximum amount that a state is expected to receive from the Highway Trust Fund.

OTH Share

Other Share; portion of funding to be paid for with money other than federal or state funds; generally provided by local governments.

PE

Preliminary Engineering; the phase of a project that includes the development of the concept, survey, environmental documentation, and design plans.

RECREATIONAL TRAILS PROGRAM (RTP)

Administered by FHWA, this program provides funds to the States to develop and maintain recreational trails and trail-related facilities for both non-motorized and motorized recreational trail uses.

ROW

Right of Way; the phase of a project that includes the acquisition of any necessary property for the construction of the project.

SCDOT CASH PARTICIPATION

South Carolina Department of Transportation's portion of the construction of PI# 210327- (I-20 bridge over the Savannah River). South Carolina will be transferring \$50 million of their Spending Authority to Georgia in FY 2019.

SCENIC BYWAYS PROGRAM

Managed by GDOT, this program designates and oversees 15 highway corridors in Georgia that have cultural significance in local area.

SCP

Scoping; the initial step in the project development process. After the project sponsor defines the project purpose and need and determines the funding sources, a Project Manager will be assigned.

SPECIAL LIMITATION APPALACHIAN HIGHWAY

The Appalachian Development Highway System (ADHS) is part of the Appalachian Regional Commission in the United States. It consists of a series of highway corridors in the Appalachia region of the eastern United States. The routes are designed as local and regional routes for improving economic development in the historically isolated region. It was established as part of the Appalachian Regional Development Act of 1965, and has been repeatedly supplemented by various federal and state legislative and regulatory actions.

STATE AID LET

Projects that are funded with state money.

STATE HIGHWAY SYSTEM

The network of roads maintained by the state including road and bridge construction, maintenance, rehabilitation, and restoration. There are approximately 17,911 miles of state highways in Georgia which make up 14% of the total public road system in the state.

STP

Surface Transportation Program; federal funding category that provides funding for projects on any federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, and public bus terminals and facilities.

TAP

Transportation Alternatives Program; funding for programs and projects defined as transportation alternatives, including on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, community improvement activities such as historic preservation and vegetation management, and environmental mitigation related to stormwater and habitat connectivity; recreational trail projects; safe routes to school projects; and projects for planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former divided highways.

TE

Transportation Enhancement Activities; Replaced by MAP-21 with TAP, this program offered funding opportunities to help expand transportation choices and enhance the transportation experience through 12 eligible TE activities related to surface transportation, including pedestrian and bicycle infrastructure and safety programs, scenic and historic highway programs, landscaping and scenic beautification, historic preservation, and environmental mitigation.

TIA

Transportation Investment Act; a one percent sales tax passed in three regions in 2012 over a ten year period to fund transportation improvements. GDOT is responsible for the management of the budget, schedule, execution and delivery of all projects contained in the Approved Investment Lists.

TIGER

Transportation Investment Generating Economic Recovery; A supplementary discretionary grant program included in the American Recovery and Reinvestment Act of 2009 that provides funding to be awarded on a competitive basis for capital investments in surface transportation projects.

TIP

Transportation Improvement Program; in metropolitan areas over 50,000 in population, a program of federally funded transportation projects proposed to be carried out in the first three years of adoption by the MPO. The TIPs are incorporated into the STIP as adopted by the respective governments and approved by the Governor, with no changes.

UTL

Utilities; the phase of a project that involves relocation of utility lines (such as power lines, gas lines, and water pipes) to accommodate a project under construction.

WORK TYPE – category of project and source of funding

- **ATM/ITS** - Advanced Transportation Management/Intelligent Transportation System; work relating to computerized transportation system that supports traffic management decisions; commonly known as the NAVIGATOR System.
- **Bicycle/Ped. Facility** - generally bike/pedestrian path/lane funded through a Transportation Alternatives (TAP) project.
- **Bridges** - lump sum funding identified for bridge maintenance or bridge painting.
- **Bridge Painting** - lump sum for bridge painting.
- **Bridge Rehab** - bridge rehabilitation – work that will improve and/or widen an existing bridge.
- **Capital** - funding identified for the purchase of transit related items.
- **Historic Preservation** - restoration or rehabilitation of historic structures that have a direct linkage to the transportation system; funded as part of a Transportation Enhancement Activities (TEA) project.
- **Interchange** - work at an interchange.
- **Intersection Improvement** - work that will improve an existing intersection.
- **Landscaping** - purchase/installation of shrubbery, plants, trees, etc.
- **Lighting** - lump sum funding for purchase/installation of lighting along a National Highway System road.
- **Miscellaneous Improvements** - identified for various projects that are not necessarily covered by a standard category.
- **New Construction** - new roadway construction on new location.
- **Operating** - funding identified for the operation of transit systems.
- **Passing Lanes** -- passing lanes added along an existing roadway.
- **Preliminary Engineering** - the design phase of a project.
- **Ramp** - construction work on a ramp at an interchange.
- **Realignment** - improvements to the geometry of a roadway.
- **Replace Bridge** - construction of a new bridge to replace an existing bridge.
- **Rest Area** - construction of rest areas along state routes (Interstates).
- **Resurface and Maintenance** - re-paving of a roadway and minor improvements.
- **RR Xing** - improvements to a road/rail crossing, such as the installation of gates, bells, lights, or improvements to the crossing itself.
- **Safety** - work that is designed to reduce accidents.
- **Shoulder Work** - improving and/or widening shoulders on a roadway.
- **Sidewalks** - installation of sidewalk.
- **Signals** - installation and/or improvement of signals.
- **Signing** - fabrication/installation of roadway signs.
- **Special Studies** - lump sum funding for planning and management studies.
- **Turn Lanes** - addition of turn lanes at intersections.
- **Water Pollution Mitig.** - lump sum funding for wetland mitigation site that were taken by roadway construction.
- **Weigh Station** - construction and/or rehabilitation of truck weigh stations.
- **Widening** - adding additional travel lanes to a roadway.

Georgia Department of Transportation Fact Sheet

The Governor's Road Improvement Program (GRIP)

Definition

The Governor's Road Improvement Program, commonly referred to as GRIP, is a system of proposed economic developmental highways in Georgia. GRIP was originally adopted in 1989 by the Georgia General Assembly. Georgia law defines the following corridors as the GRIP:

- ◆ Appalachian Developmental Highway
- ◆ South Georgia Parkway/US 82
- ◆ US 319
- ◆ Golden Isles Parkway
- ◆ Fall Line Freeway
- ◆ SR 72
- ◆ Savannah River Parkway
- ◆ US 19
- ◆ US 1/SR 17
- ◆ US 27
- ◆ US 441
- ◆ US 84
- ◆ Sunbelt Parkway/SR 133
- ◆ Power Alley/US 280
- ◆ East-West Highway
- ◆ SR 40
- ◆ SR 32
- ◆ SR 125
- ◆ SR 15

GRIP was initiated in 1989 and originally consisted of 12 corridors with 2,845 miles of roadway, including 113 miles of truck access routes. During the 2001 and 2005 Legislative sessions, the General Assembly added new routes, including three truck access routes. The current length of the GRIP system has grown to **3,323 miles**. The total length will continue to vary as alignments, including bypasses and shifts, are determined through the engineering process.

Purpose

Economic development highways traditionally receive strong support in Georgia. The purpose of the GRIP system explains why :

- ◆ **Connectivity** in Rural Georgia: GRIP will connect 95% of Georgia cities with a population of 2,500 or more to the Interstate System and ensure that 98% of all areas in the state will be within 20 miles of a four-lane road.
- ◆ Provide **opportunities for growth**: Several studies have provided evidence that GRIP fosters economic development.
- ◆ Provide **effective and efficient transportation** for the growing statewide population
- ◆ **Safer travel** in rural areas: Accidents occur three times more often on 2-lane highways than on multi-lane divided highways.

Current GRIP Corridor Statistics

GRIP CORRIDOR	TOTAL LENGTH (miles)	COMPLETE OR UNDER CONSTRUCTION (miles)	COMPLETE OR UNDER CONSTRUCTION (percentage)	CORRIDOR STATUS	REMAINING COST TO COMPLETE (millions)
Appalachian Developmental Highway	76	75	99%	No Activity on Final 1 Mile	\$13.7
South Georgia Parkway/US 82	262	262	100%	Complete	\$0.0
US 319	72	72	100%	Complete	\$0.0
Golden Isles Parkway	168	168	100%	Complete	\$0.0
Fall Line Freeway	215	215	100%	Active Construction	\$0.0
SR 72	45	32	71%	Active Construction, No Activity on last 13 miles	\$82.9
Savannah River Parkway	156	156	100%	Complete	\$0.0
US 19	194	194	100%	Complete	\$0.0
US 1/SR 17	331	197	60%	Active Engineering and Construction	\$793.5
US 27	352	328	93%	Active Engineering and Construction	\$391.4
US 441	371	228	61%	Active Engineering and Construction	\$796.5
US 84	259	259	100%	Active Engineering	\$0.0
Sunbelt Parkway/SR 133	66	11	17%	Active Engineering and Construction	\$188.5
Power Alley/US 280	238	8	3%	Active Engineering on 27 miles only	\$1,479.7
SR 32	149	13	9%	Active Engineering on 4 miles only	\$1,215.5
SR 40	29	13	45%	Active Engineering	\$61.9
East-West Highway	169	0	0%	No Activity	\$550.9
SR 15	149	0	0%	No Activity	\$917.8
SR 125	18	0	0%	No Activity	\$170.2
Subtotals for Original 1989 GRIP Corridors:	2501	2186	87%		\$2,078.0
Subtotals for Active & Complete GRIP Corridors:	2983	2218	74%		\$4,725.9
Grand Totals for all GRIP Corridors:	3318	2231	67%		\$6,662.5

Meeting the Challenge

GDOT is striving to complete the construction of the GRIP System. A strategy is in place that recognizes the complexity of each of the three phases of project development:

- ◆ Engineering (including environmental studies)
- ◆ Right of way acquisition
- ◆ Construction

These phases are not generally scheduled for completion in the same year, and in most cases a phase takes several years to complete. Another consideration in scheduling each phase is the availability of funds. A multiple-year funding program to accomplish the planning, design, right of way and construction of the GRIP System is based on these considerations and the past funding history for GRIP projects.

What is the STIP?

The **Statewide Transportation Improvement Program**, also known as the STIP, is Georgia's four-year transportation and capital improvements program. The STIP lists federally-funded transportation projects that are located outside Metropolitan Planning Organization (MPO) boundaries. Projects include highway, bridge, public transit, bike, pedestrian, railroad, and other improvements.

How is the STIP Developed?

The STIP is developed in coordination with the citizens of Georgia, interested stakeholders, and in direct cooperation with local governments. Projects listed in the STIP are identified through GDOT's ongoing planning processes in keeping with the Governor's Strategic Goals for Georgia to provide a lean and responsive state government that allows communities, individuals, and businesses to prosper. These projects are vital to supporting GDOT's mission in providing a safe, seamless, and sustainable transportation system that supports Georgia's economy and is sensitive to its citizens and the environment.

Why Should I Become Involved?

The STIP Public Involvement Process gives all citizens and interested stakeholders the opportunity to review and comment on the State's transportation priorities for the next four fiscal years. The public is encouraged to become involved and provide GDOT with thoughts, suggestions, and information about transportation needs for Georgia.

The current and previous STIP documents may be viewed at:
