
Request for NAICS Code Modification

The Georgia Unified Certification Program (GUCP) assigns North American Industry Classification System (NAICS) codes that correspond to the products and/or services that the Disadvantaged Business Enterprise (DBE) can demonstrate it has previously and/or currently sells or provides (49 CFR 26.71(n)). The GUCP will not assign NAICS codes representing products or services that are subcontracted by the DBE to another business. Please be advised that your request to add a code is subject to review and your firm must meet the SBA size standards or the DBE size cap to be eligible.

If the DBE wants to add and/or delete NAICS codes to/from their profile, the disadvantaged owner of the firm should complete and sign this form and submit it along with verification that the company has, or is currently providing the products and/or services covered by the requested code(s). The disadvantaged owner must also demonstrate control with respect to the type(s) of work being requested. **Examples of verification are invoices or copies of contracts, etc.**

If a state or federal license is required to sell a product or perform a service, please provide a current copy of the firm's license.

Requests must be submitted to the GUCP agency that certified your firm. Contact information can be found on our website at <http://www.dot.ga.gov/PS/Business/DBE#tab-1>.
