Area Class 1.13 Description: Non-Motorized Transportation Planning

In brief, concise sentences and using the following format please describe your work experiences that demonstrate your ability to perform work in Area Class 1.13. Descriptions should be written in the first person and must reference the non-motorized transportation plan that you completed.

The descriptions of experience must at a minimum include examples of: **data collection and analysis, non-motorized route planning, costs-to-benefits comparisons, incorporation of a range of bicycle and pedestrian facility types, and consideration of the social, economic, and environmental impacts of proposed non-motorized improvements. Additionally, advanced experience with assessments of bicycle or pedestrian demand, levels of service or quality, suitability mapping, or national design best-practices are preferred.**

Note: Please list and describe projects below. **This class of work includes planning and evaluation of on-street and off-street bikeways, walkways, and crossing treatments; this class does not include preparation of construction plans for bicycle or pedestrian facilities, highways, bridges, or other physical features of the transportation system.** Additional sheets may be used if necessary, but are not encouraged.
