

Employee Qualification Statement

Area Class 6.05 – Hazardous Waste Site Assessment Studies
One Professional Engineer or Professional Geologist required

Firm Name:

Employee Name:

Professional Registration, GA #

In brief, concise sentences and using the following format, please describe your work experience that demonstrates your ability to provide large or small scale studies of existing or proposed right-of-way where potentially hazardous materials are suspected to exist under or above ground. These studies shall include physical testing and laboratory analysis to determine the types of hazardous materials present, an analysis of the danger caused by their presence, and an analysis of the potential liability of acquiring property with such substances present, and an analysis of what would be entailed in constructing a roadway facility safely in such an environment. The work may involve assisting the Department in negotiating appropriate settlements with the Environmental Protection Agency for the protection of future liability.

Experience descriptions must be written in first person and must state the design personally completed.

1) Project and location:

GDOT project number, if applicable:

Project Description:

Employee's Responsibilities on Project:

Reference name and contact information:
