**NOTES:**

1. Refer to GDOT Policy 2434-1 - Method of Payment for Earthwork
2. The Pay Items listed are the primary earthwork payment items. There are several other GDOT Pay Items used for more specific applications which may be required in addition to the items listed here. Follow GDOT Specifications and Special Provisions for the use of these Pay Items. Often the recommendation to use some of these Pay Items is contained in a Project’s Soil Survey, Wall Foundation Investigation, Bridge Foundation Investigation, and Bridge Plans. Common items include:
   - 204-0001 Channel Excavation (CY)
   - 205-0210 Excavation - Rock (CY)
   - 206-0002 Borrow Excavation, Incl Matl (CY)
   - 208-0100 In Place Embankment (CY)
   - 210-0200 Undercut Excavation (CY)
   - 211-0200 Bridge Excavation, Grade Separation (CY)
   - 211-0300 Bridge Excavation, Stream Crossing (CY)
   - 212-1000 Granular Embankment, Incl Matl & Haul (CY)
   - 217-1500 Overexcavation of Contaminated Soil (CY)
3. The Clearing & Grubbing Pay Item includes removal of existing constructed items unless the work or a portion of the work is removed as excavation, shown in the Proposal as a separate pay item, removed by others, or is incorporated in the project. There are some items that GDOT traditionally includes as a separate pay item. Common items include:
   - 610-9008 Rem Portions of Existing Clv, Incl Wingwalls & Parapets, Sta - (LS)
   - 610-9610 Hwy Sign, Ovhd (LS)
   - 610-9310 Rem Str Support, TP - (LS)
4. The Grading Complete Pay Item includes Clearing & Grubbing thus Note (3) also applies.
