Notice to Contractors

The Department is requesting Industry's help in ending amendments for Advertised Contracts by midday on Wednesday before the Lettings. In order to accomplish this, we would need your comments on projects in the Letting as soon as possible but no later than Friday afternoon the week before the Letting.

While this will require Contractors to look at their bid documents a little earlier, it will also provide some much needed relief on the trailing end of the bidding process. The extra time should allow Contractors to finalize quotes from subcontractors and prepare their bids without the anxiety of last minute revisions to add to the already frantic schedule.
