Before You Begin Quantity Manager Labs

## **Quantity Manager Labs Dataset Before You Begin Instructions**

## **Program Information:**

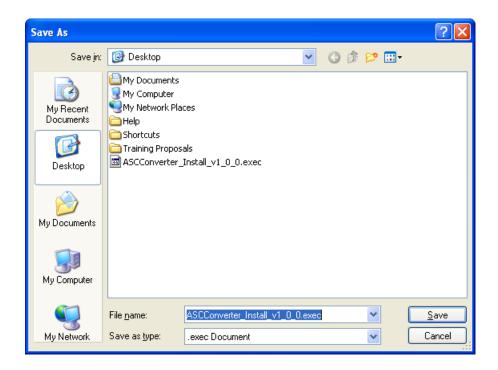

The following document details the steps required to load the InRoads Design Labs Dataset to your computer.

1. Double Click the **InRoads Quantity Manager Training** link and a **File Download** dialog box will appear:

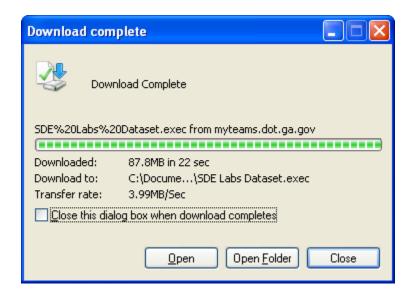

- 2. Click the **Save** button to save the Executable to your hard drive. (Please be patient. It may take a minute for the download to begin).
- 3. A **Save As** dialog box will appear.

Before You Begin Quantity Manager Labs

- 4. Browse to a location on your hard drive such as the Desktop and click the **Save** button.
- 5. A **Download complete** dialog box will appear:

6. Click the **Close** button.

Before You Begin Quantity Manager Labs

7. Browse to the location where you saved the 'Quantity Manager Training.exec'
Executable. After downloading the Quantity Manager Training.exec to your computer
– the file named 'Quantity Manager Training.exec must be renamed to remove the 'c'
in the .exec extension. The 'c' extension is added merely as a work around in order to
make the files available on SharePoint which does not allow .exe files.

8. Double click the **Quantity Manager Training.exe** file and a **WinZip Self Extractor** dialog box appears:

9. **Accept the <u>default</u> install location**. Then click the **Unzip** button and the following message will appear informing you that 20 file(s) were unzipped successfully:

- 10. Click **OK**
- 11. Then click **Close** to close out of the **WinZip Self Extractor** dialog box.
- 12. This will load the **Quantity Manager Training** into the C:\InRoads Training\ folder on the hard drive. These Lab files will be used in association with the *InRoadsQM\_For\_GDOT. PDF* (Training Material) which is downloaded separately from the R.O.A.D.S webpage.
