

Downloading and Running InRoadsALL.exe

1. Download InRoadsALL.exe to your desktop.
2. Rename InRoadsALL.exe to InRoadsALL.exe.
3. From the Desktop, double click on InRoadsALL.exe and the following window will appear.

4. Leave c:\ as the folder to unzip to. (If you are working from a drive other than c:\ such as d:\, replace c:\ with d:\) All files will be placed in the correct subfolder and a subfolder will be created if necessary.
5. Insure the Checkbox 'Overwrite files without prompting' contains a check mark.
6. Click Unzip. The files will unzip to their proper locations and a message will appear similar to that shown here.

7. Click OK.
8. Close the the WinZip Self-Extractor.
9. Delete the InRoadsALL.exe from your desktop.
