

External Users Access to GDOT ProjectWise

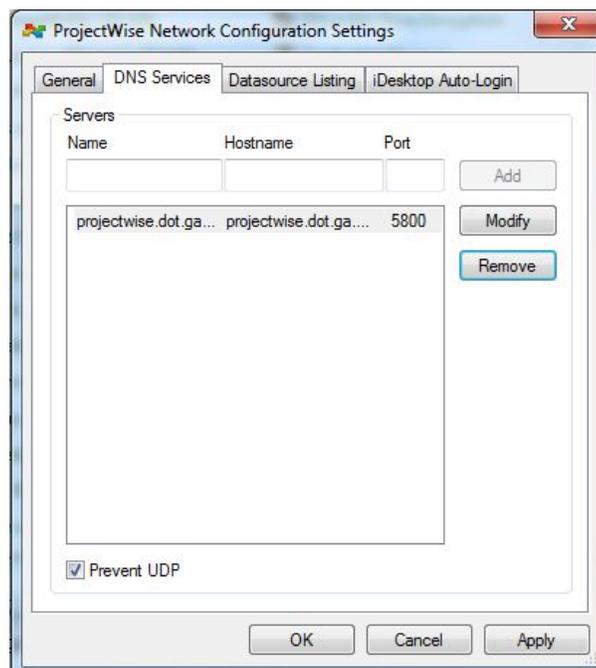

ProjectWise can be accessed either through the full-featured ProjectWise Explorer Client (recommended) or through Internet Explorer.

ProjectWise Explorer Client

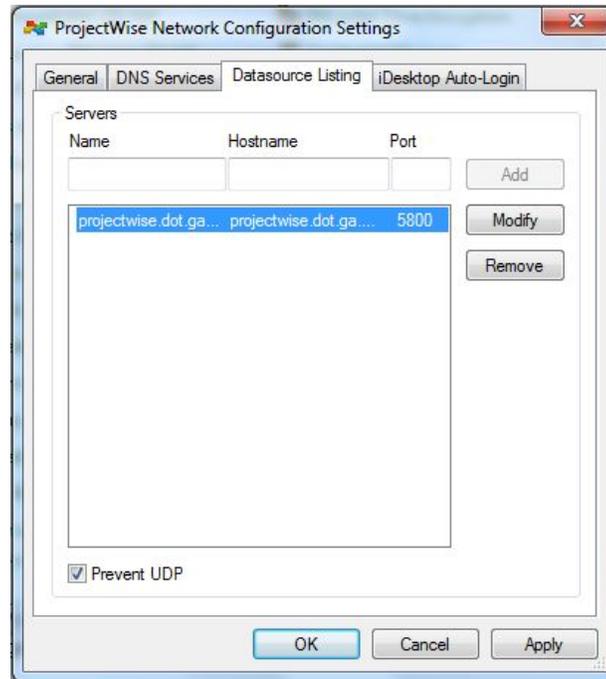

1. Install **ProjectWise Explorer Client SS4**. You may download the software from the GDOT ROADS page (coming soon).
2. Go to **ProjectWise V8i Network** in the Control Panel.

3. On the DNS Services tab, enter **projectwise.dot.ga.gov** for the **Name** and **Hostname** fields.
4. Enter **5800** into the **Port** field.
5. Click the **Add** button.
6. Make sure that **Prevent UDP** is checked at the bottom of the window.

7. On the Datasource Listing tab, enter **projectwise.dot.ga.gov** for the **Name** and **Hostname** fields.
8. Enter **5800** into the **Port** field.
9. Click the **Add** button.
10. Make sure that **Prevent UDP** is checked at the bottom of the window.

11. Click **OK** to exit the window.
12. Launch ProjectWise Explorer and double-click **ProjectWise (via GDOT Gateway)**.
13. Use the GADOT credentials to login (i.e. GADOT\V0001234) and the password for that account.
14. Look under Projects for the project documents.

Web Client through Internet Explorer

If you must use the Web Client, use the Internet Explorer with the following URL:

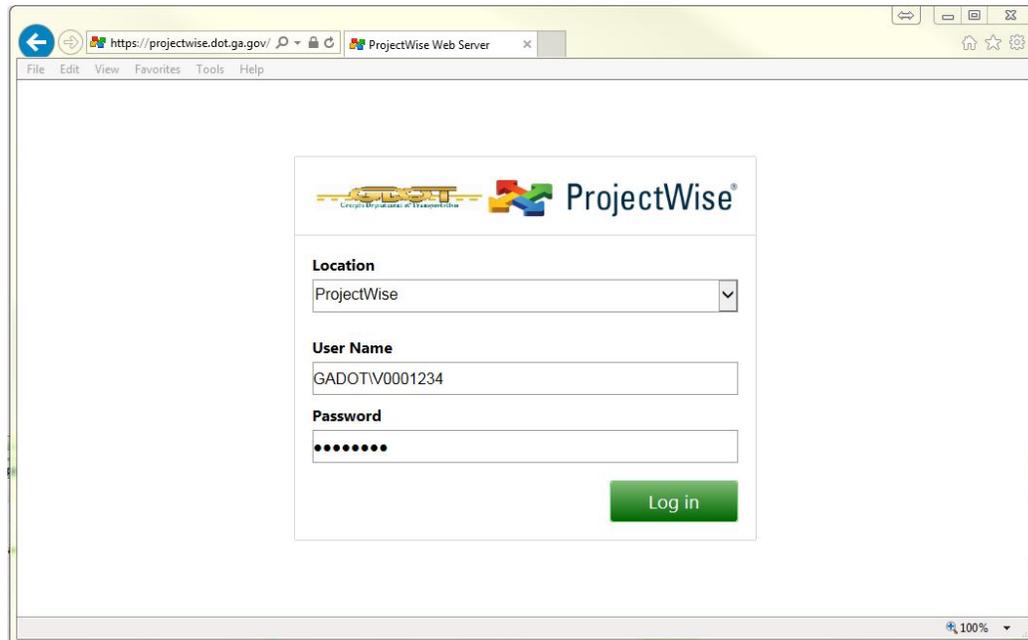

<https://projectwise.dot.ga.gov>

1. Select **ProjectWise** from the Location drop-down list.

The image shows a close-up of a web form's 'Location' field. The field is a drop-down menu with a blue header bar containing the text '<none>'. Below the header, the option 'ProjectWise' is selected and highlighted in white. The label 'Location' is positioned above the menu, and 'User Name' is partially visible below it.

2. Use the GADOT credentials to login (i.e. GADOT\V0001234) and the password for that account.

The image is a screenshot of an Internet Explorer browser window displaying the ProjectWise login page. The address bar shows 'https://projectwise.dot.ga.gov/'. The page features the ProjectWise logo at the top, which includes a stylized bridge and the text 'ProjectWise®'. Below the logo is a login form with three input fields: 'Location' (set to 'ProjectWise'), 'User Name' (containing 'GADOT\V0001234'), and 'Password' (masked with dots). A green 'Log in' button is located at the bottom right of the form. The browser's menu bar (File, Edit, View, Favorites, Tools, Help) and status bar (100% zoom) are also visible.

3. Click **Log In**.
4. Look under Projects for project documents.
5. ActiveX controls must be installed through the browser in order to gain full control of the web parts. Allow these controls to install when prompted. Elevated rights may be required on your system to allow these components to install.
