(3) Alternative Procedure for Assessing Fees.

- a. In lieu of the Permit Fees set forth in this Rule, a Communications Utility may enter into an agreement with the Department for payment of an annual lump sum amount that represents a reasonable approximation of the average cost to the Department associated with the administration of the Permits of the Communications Utility, the inspection of work on the Public Rights-of-Way, and the continued occupancy by the permitted Communications Utility on the Public Rights-of-Way to be negotiated on an individual basis. Such agreements will take into consideration the mileage and/or number of facilities in place by the Communications Utility, the amount of current and anticipated Permit work within the Public Rights-of-Way, and the estimated costs to the Department of the Communications Utility's operations. Such agreements shall provide for annual adjustments of the fee amount.
- b. The Department and a Communications Utility may have previously entered into an agreement for payment of an annual lump sum amount prior to the adoption of this Chapter. Such agreements will remain in full force and effect if desired by the Communications Utility and the Department or may be renegotiated.
