

**Office of Materials and Testing
Qualified Products List**

<p>The following is a list of coarse aggregate sources established according to the specifications set forth in Standard Operating Procedure No. 1, "Monitoring the Quality of Coarse and Fine Aggregates." These sources have proven their capability of meeting the requirements of 800.2.01 of the Standard Specifications. All of these sources are approved to certify materials for use in Portland cement concrete and/or asphaltic concrete. Most of these sources also supply a full range of other products.</p>	<p>QPL-2</p> <p>Coarse Aggregate Sources Section A "Standard Sources List"</p>	<p>Pit and Quarry Control Branch 15 Kennedy Drive Forest Park, GA 30297</p> <p>Office Phone: 404-608-4845 Office Fax: 404-608-4752</p>
<p>The sources listed have approved Quality Control Programs and materials they certify may be used prior to project testing unless non-uniform or non-specification material is suspected. Section 106 of the Standard Specifications provides that the approval of preliminary samples does not obligate the engineer to accept the materials from the same source delivered later.</p> <p>For the purpose of this list, the descriptions listed under CHARACTER OF MATERIAL are very general.</p>

NOTE 1: Contains excessive sulfur computed as sulfide sulfur. Not to be used in bridge-type structures.

NOTE 2: Testing has shown this aggregate to be potentially alkali-silica reactive. Certain restrictions apply to its use in Portland cement concrete and these restrictions must be verified by the Office of Materials and Testing prior to use.

NOTE 3: Mechanically graded rip rap can be furnished from this source.

NOTE 4: The restrictions applicable to the use of Group I aggregate in bituminous mixes do not apply to this Group I aggregate. All other Group I specifications are applicable.

NOTE 5: Material at times may exceed abrasion loss limits of Class A. Verification of class will be made when Class A material is required.

NOTE 6: This material is not approved for use in Portland cement concrete construction.

NOTE 7: Use of this material for asphaltic concrete construction on Interstate Projects or for Portland Cement Concrete construction must be approved by the Office of Materials and Testing.

NOTE 8: Portland Concrete Design Restrictions (Current restrictions and exemptions should be verified through the Concrete Branch of the Office of Materials and Testing)

- a. Restricted from use in Class AA-1 Portland cement concrete.
- b. Restricted from use in Class AA and AA-1 Portland cement concrete.
- c. Restricted from use in Class A, AA, and AA-1 Portland cement concrete.
- d. Restricted from other uses as determined by the Concrete Branch.

**Office of Materials and Testing
Qualified Products List**

<p>Following is a list of the coarse aggregate sources that are approved to supply aggregates for limited use only. This list was established according to the requirements set forth in Standard Operating Procedure No. 1, "Monitoring the Quality of Coarse and Fine Aggregates." These sources have proven their capability of meeting the requirements applicable to the products and uses that are listed below.</p>	<p>QPL-2</p> <p>Coarse Aggregate Sources Section B "Temporary Sources List"</p>	<p>Pit and Quarry Control Branch 15 Kennedy Drive Forest Park, GA 30297</p> <p>Office Phone: 404-608-4845 Office Fax: 404-608-4752</p>
<p>These listed sources have approved Quality Control Programs that are applicable to the products listed. The listed products may be certified by the producer and may be used prior to project control tests unless non-uniform or non-specifications material is suspected. Section 106 of the Standard Specifications provides that the approval of preliminary samples does not obligate the Engineer to accept materials from the same source delivered later.</p> <p>For the purpose of this list, the descriptions listed under CHARACTER OF MATERIAL are very general.</p>

**Office of Materials and Testing
Qualified Products List**

<p>Following is a list of the coarse aggregate vendor established according to the requirements set forth in Standard Operating Procedure No. 1, "Monitoring the Quality of Coarse and Fine Aggregates." These sources vend materials that originate from approved sources or approved stockpiles.</p>	<p style="font-size: 24px; font-weight: bold;">QPL-2</p> <p style="font-weight: bold;">Coarse Aggregate Sources Section C "Vendor Sources List"</p>	<p style="text-align: center;">Pit and Quarry Control Branch 15 Kennedy Drive Forest Park, GA 30297</p> <p style="text-align: center;">Office Phone: 404-608-4845 Office Fax: 404-608-4752</p>
<p>These listed sources have approved Quality Control Programs and materials they certify may be used prior to project control tests unless non-uniform or non-specifications material is suspected. Section 106 of the Standard Specifications provides that the approval of preliminary samples does not obligate the Engineer to accept materials from the same source delivered later.</p>

***MATERIALS ORIGINATING FROM A "STOCKPILE BASIS ONLY" SOURCE:** Project Control Acceptance Samples must be taken from materials delivered to the project or plant by departmental personnel and acceptability confirmed prior to use. The exception would be for base, backfill and stabilizer material. These materials may be placed but not covered up or otherwise rendered inaccessible for correction or removal prior to acceptability being confirmed. **THE SOURCE NUMBER FOR "STOCKPILE BASIS ONLY" SOURCES WILL END WITH AN "S."**

QPL-2

Coarse Aggregate Sources Section D "Stockpile Basis Only Sources List

The following list of sources do not meet criteria for being placed on Qualified Products List 2, Section A or B as set forth in Standard Operating Procedure No. 1, "Monitoring the Quality of Coarse and Fine Aggregates." Therefore these sources may not certify quality of aggregates "shipped. However, SOP I does provide acceptance procedures to utilize specification materials as they are available.

Vendor	Source Number	Character of Material	Aggregate Group	Approved	Revised: August 14, 2017
Barnett Southern Corporation Danburg, GA 6793 Danburg RD Danburg, GA 30668 706-678-1507	038S	Granite	II
