## **Activation of New Traffic Signal on US 19 at Century Road Postponed**

**What:** A new traffic signal to be installed at the intersection of U.S. 19 and Century Road is tentatively scheduled to be activated by the end of the month. The original date of Thursday, Jan. 21, was changed because inclement weather interrupted installation of the signal.

U.S. 19 traffic currently has a flashing yellow light and cross traffic has stop signs. It is expected that the traffic signal may help reduce the number and severity of crashes due to drivers failing to yield at the intersection.

**When:** Thursday, Jan. 28 (tentative, dependent on the weather)

**Where:** U.S. 19 at Century Road, Lee County.
