Asphalt Repair Begins in Chattooga County

SUMMERVILLE, Ga. - Georgia DOT advises motorists on State Route (SR) 337 in Chattooga County that a maintenance crew begins today its work on repairing and deep patching the deteriorating asphalt spots on this highway. Work will proceed daily Monday through Thursday from 7:30 a.m. until 5:30 p.m. This maintenance operation and the temporary lane closure it necessitates are weather permitting and subject to change.

It is the Georgia DOT policy to repair and maintain Georgia interstates and state highways promptly, efficiently and economically using well-planned activities, proper equipment, and skilled and dedicated employees. Prompt repair of small asphalt pavement defects has significant impacts on reducing maintenance costs. Deep patching which will be used in this maintenance operation is one of the methods Georgia DOT uses to repair deteriorated, settled, cracking and dislodged pavement.

Each day, hundreds of Georgia Department of Transportation employees and contractors work on dozens of highway, bridge and intersection improvements throughout the state. Their work often brings them and heavy machinery in close proximity to travel lanes. Fifty-nine Georgia DOT personnel and many more motorists, passengers and contractors' workers have been killed in highway work zone accidents since 1973. Please help us prevent these tragedies by slowing down; being especially attentive and cautious as you pass through construction work zones; and always driving responsibly. Safer Driving; Safer Work Zones; For Everyone. For information on the Department of Transportation, visit <http://www.dot.ga.gov>.
