OVER \$54 MILLION AWARDED FOR IMPROVEMENTS TO GEORGIA'S TRANSPORTATION INFRASTRUCTURE

Road resurfacing and maintenance represent 73 percent of total dollars

ATLANTA—Georgia Department of Transportation (Georgia DOT) has awarded 25 contracts for statewide transportation projects totaling \$54,335,216. This investment in Georgia's transportation infrastructure yields significant economic benefits for Georgia as well as an improved quality of life for residents. Projects were advertised for bids in November, bids were received in December and contracts were awarded on January 5 and 6.

Georgia DOT continues to focus on preserving existing infrastructure with 13 awards totaling \$39.9 million for resurfacing and maintenance of 170 miles of state highways. Since FY 17 began on July 1, Georgia DOT has invested \$215.4 million in resurfacing interstate and state routes.

Georgia DOT is tackling deferred maintenance with funds generated by Georgia's Transportation Funding Act (TFA) of 2015. This includes Georgia's 18,000 miles of interstate and state routes.

"Taking proper care of our pavements not only extends the life of our roads, but also reduces the cost of driving by lowering fuel consumption and saving wear and tear on vehicles," Georgia DOT Commissioner Russell R. McMurry, P.E. said. "We are now resurfacing on an average 12 to 15-year cycle with preventative maintenance in between, instead of the previous 50-year cycle."

The highest valued awarded contract is a 12-mile resurfacing on I-95/SR 405 from north of I-16/SR 404 to south of Georgia/South Carolina Bridge in Chatham and Effingham counties. The project, valued at \$8.5 million, was awarded to Reeves Construction Company, Macon, Ga. The anticipated completion date is November 30, 2017.

Other resurfacing and maintenance projects include 24.3 miles on SR 315 in Harris County, 16 miles on SR 144 in Liberty and Long counties, and 5 miles on SR 38 in Decatur County.

Bridge projects represent 21 percent of the value of the awarded contracts. These include \$3.7 million for rehabilitation of 33 bridges on I-85 in west central Georgia; and bridge construction in southeast Georgia.

Safety projects include signal improvements at six intersections in Forsyth County and railroad intersection signing and pavement marking upgrades at 149 railroad crossings in northwest and central Georgia.

PRESS RELEASE

Visit us on Facebook or Twitter.

See two attached documents: Award Announcement project list and Supplemental Award Announcement. Information on schedules, lane closures and detours will be made available in advance of construction activities.

The public is urged to “know before you go.” For real-time information on active construction, incidents and more, call 511 or visit 511ga.org before you get into your car.

Routine Maintenance Contracting opportunities are available. For information about contractor qualification and the bidding process for Routine Maintenance projects, visit www.GAroads.org.

Construction work zones are hazardous for workers and for the public. In fact, most victims in work zones crashes are drivers or passengers. Obey the rules in work zones – Pay Attention – Slow Down – Watch for Workers. And always, expect the unexpected. It can make the difference between life and death. Visit www.dot.ga.gov. Follow us on Facebook (www.facebook.com/GeorgiaDOT) and Twitter (<http://twitter.com/gadepoftrans>).
