US 27 Resurfacing About to Begin in Bainbridge

What:

A Georgia Department of Transportation contractor is about to begin milling and resurfacing 2.4 miles of U.S. 27/state Route 1 in Bainbridge. The work will require multiple lane closures for the duration of the project, which is expected to take at least two months. Traffic will not be detoured, but will be shifted to adjacent lanes as needed.

Most work will be done during daylight hours, but resurfacing on the northern end of the project will be done from 7 p.m. to 7 a.m. to minimize traffic interruptions in the commercial area.

Motorists should expect delays and are reminded to pay special attention to traffic control devices, signs and posted speed limits to ensure safe passage through the work zone.

When:

Begins March 28.

Where:

U.S. 27/SR 1 from Toole Dairy Road to south of Alice Street in Bainbridge.
