Lee County...

Expect Short Delays Friday on US 19 at Site of Overpass Construction

What: Six bridge beams are scheduled to be set over the southbound lanes of U.S. 19 as construction continues on the new Leesburg North Bypass. The beams will arrive by truck and must be hoisted by cranes and placed into position. **The process usually takes about 20 minutes per beam and traffic will be stopped by flaggers during that time.** Motorists are advised to expect delays. Please use caution, slow down and obey the directions of the flaggers.

When: Beginning at 10 a.m. Friday, April 3. It is expected to take two to three hours to set the beams.

Where: Southbound lanes of U.S. 19/state Route 3, slightly north of the U.S. 19/SR 3 west bypass, Leesburg. The work will not affect northbound lanes of traffic.
