Déjà vu All Over Again; I-20 & I-285 Work Continues

ATLANTA – Continuing construction projects on Interstate 20 downtown as well as east and west of Metropolitan Atlanta and a combination of projects on Interstate 285 on the NorthWest side are planned for this weekend, weather permitting. Each has the potential to significantly impact traffic.

As is the norm during hot summer months, afternoon and evening thunderstorms are possible. Such weather could temporarily halt work or cause it to be postponed completely. Georgia DOT suggests calling 511 or consulting 511ga.org before travelling to learn current work status and traffic conditions. If all project activities take place as scheduled, motorists should strongly consider alternate routes to avoid delays in these construction zones:

- On I-20 in Rockdale and Newton counties, two westbound (WB) outside (right) lanes on a three-mile section between Covington and Conyers will be closed continuously from 9 p.m., Friday, until 5 a.m., Monday, for resurfacing. Also, the I-20 WB exit and entrance ramps to U.S. 278/State Route 12 will be closed completely all weekend. Long delays are expected.
- In Douglas County, two westbound (WB) I-20 lanes between Liberty and Post roads will be closed continuously from 9 p.m., Friday, until 6 a.m., Monday, also for resurfacing. The outside shoulder will be reinforced so that vehicles will be able to use it as a travel lane and thus keep two lanes open at all times; but again, delays are possible.
- Downtown, overnight restriping of I-20 eastbound (EB) will continue nightly with multiple lane closures from 8 p.m. until 6 a.m., between Candler Road and Capitol Avenue, including the EB on-ramp from the southbound (SB) Downtown Connector Saturday night (one lane of the ramp will remain open throughout the work). Also, multiple EB lane closures will be in place during Monday's overnight hours, extending from Capitol to Hill Street.

- On I-285 in Cobb County, two southbound (SB – Outer Loop) lanes between Paces Ferry and South Atlanta roads may be closed from 9 p.m., until 5 a.m., each overnight (Friday, Saturday and Sunday) for concrete slab replacement and repair. Work on various sign construction projects north of this area will continue as well – closing two lanes in each direction between New Northside Drive and Interstate Highway 75 continuously from 9 p.m., Friday, until 5 a.m., Monday; three Westbound (WB – Inner Loop) lanes between Riverside and Northside drives and two WB – Inner Loop lanes between GA 400 and the Glenridge Connector will be closed each overnight.

Other work and routine maintenance will necessitate lane closures on area interstates this weekend (as detailed in the attached spreadsheet). The Department also cautions that incident and emergency repair related closures may be necessary on any route at any time.

As noted, all work is contingent upon favorable weather.

Additional information on these and other traffic interruptions is available via the following attachments:
