“Introduction to the 2000 MUTCD” has been recommended by GADOT as qualifying for 6 professional development hours toward continuing education requirements for Registered Professional Engineers and Land Surveyors.

OTHER SCHEDULED COURSES :

Traffic Signal Operation at Local Intersections May 8-10 Heart of Georgia, Dublin

Traffic Signal Operation at Local Intersections May 8-10 Gwinnett Technical Institute Lawrenceville

Expected Values for Crash Analysis at Intersections - Dates: June 28, July 10 & 12, August 7; Locations: T.B.A.

Improving Operational Safety on Local Roads and Streets - Dates: August 14, 16, 28, 30; Locations : T.B.A.

For more information on all these programs and more,
call the Georgia LTAP/T² Center at 404/656-5364 or 800-573-6445.

Who Should Attend

This course, intended primarily for persons with an engineering background, is designed for those with traffic engineering responsibilities working in allied fields. It will be of value to junior level traffic engineers, engineers in cities and counties without traffic engineers, and engineers working in areas closely allied to traffic engineering, such as transportation planning and highway design. It will also benefit some experienced traffic technicians

Locations and Dates

- Henry County Government Complex
May 22nd
- Coastal Georgia Center-Savannah
May 24th
- Rural Development Center - Tifton
May 30th

Registration

There is a \$50.00 registration fee for participation in this program.

Preregistration is required.

Checks ONLY! Make Checks payable to:
"GEORGIA DEPARTMENT OF
TRANSPORTATION".

Payment must be received prior to date of class!

No refunds will be granted after fourteen business days prior to the registered class date.

Participants will receive a copy of the Millennium Edition of the MUTCD

Lunch is sponsored by: Local Government Risk Management Services

Description

Although the MUTCD is frequently updated, it has been more than 20 years since the last full-scale revision of the Manual in 1978.

The changes to the MUTCD are intended to promote uniformity, improve traffic operations and safety, and incorporate technical advances.

The Millennium Edition MUTCD has been reformatted to improve the overall organization and discussion of the content. This reformatting makes the manual easier to read and easier for the user to access information.

Many sections of the Millennium Edition MUTCD have been revised, including:

- New signs and pavement markings
- Changes in both standards and guidance
- A revised table of contents
- New sections, such as Part 5 (Rural Roads) and Part 10 (Light Rail)
- Major changes in Part 6 (Work Zones)
- Americans with Disabilities Act (ADA) and
- pedestrian guidance

LTAP in partnership with Local Government Risk Management will be conducting a one day seminar designed to familiarize participants with the changes in the MUTCD.

In addition to receiving instruction from Dr. Pete Parsonson, Parsonson & Associates, Inc., and Mike O'Quinn, O'Quinn and Cronin, participants will receive a copy of the new MUTCD. There is a \$50.00 fee to attend!

Due to the importance and quantity of the information, the program will begin promptly at 8:00 A.M. and conclude at 4:30 P.M. Lunch will be provided.

The Department of Transportation is an Equal Opportunity/Affirmative Action institution and as such encourages participation in all its programs without regard to age, race, sex, creed, national origin or religion.
