

HERBICIDE LIST FOR VEGETATION MANAGEMENT AT OUTDOOR ADVERTISING

Revised 8-19-10

The following herbicides are approved for cut surface (stump) treatments on removed vegetation:

PATHFINDER II
TORDON RTU
GARLON 4
GARLON ULTRA
REMEDY ULTRA

The following herbicides are approved for foliar applications on vines (kudzu, honeysuckle, etc.) less than 48 inches in height:

ESCORT XP
TRANSLINE
GARLON 3A (for wetland and stream bank use)
HABITAT (for wetland and stream bank use)

Follow the herbicide manufacturer's recommendation for herbicide rates, use on specific target vegetation, and surfactant rate and use information.

****All herbicides listed above shall be low volume applied using backpack type application equipment.**
