

Fall Line Freeway

CORRIDOR FACTS

- ◆ The corridor traverses the entire width of the state from the Alabama State Line in Columbus to Macon and then to Augusta at the South Carolina State Line.
- ◆ This corridor is approximately **215 miles** in length and is 100% open to traffic.
- ◆ Completed projects provide **4-lanes** of roadway, usually divided with a grass median.

PREPARING A HIGHWAY PROJECT FOR CONSTRUCTION

Highway construction demands adherence to an exact project development process, as specified in federal and state laws. This process incorporates a number of key stages that are vital to the development of a highway construction project:

- ◆ Concept Development: Data analysis, conceptual studies and alternatives analysis
- ◆ Environmental Approval: Surveys for environmental resources, public meetings and environmental document approval
- ◆ Preliminary Design Plans: Design and preparation of preliminary roadway plans and utility coordination
- ◆ Right of Way Acquisition: Property title research, right of way plans, property appraisal, purchase of right of way
- ◆ Final Design Plans: Design and preparation of final construction plans and contract documents
- ◆ Let to Contract: Advertise for bids, award to construction contract and begin construction

FALL LINE FREEWAY CORRIDOR STATUS FROM COLUMBUS TO AUGUSTA
