

Georgia Statewide Transit Plan

Improving Access and Mobility in 2050

Purpose of Study

The purpose of GDOT's Statewide Transit Plan (SWTRP) is to coordinate with local governments, MPOs, and transit providers to quantify public transit needs and document strategies to ensure all Georgians have access to public transit. The SWTRP will incorporate existing local & regional transit plans and will support GDOT's multimodal long range planning efforts. GDOT will use clear and understandable metrics to evaluate implementation strategies.

Outreach

Stakeholder organizations and the public are invited to provide input on needs and contribute to the development and evaluation of proposed recommendations. Public comments can be submitted via the contact information provided on the back of this page. Public opinion surveys will be made available on the project website. Public Information Open Houses (PIOHs) will be held at various locations across the state to gather input on draft recommendations. GDOT will also engage advocacy and interest groups, industry professionals, major employers, and educational and health institutions.

SWTRP Focus Areas

Quantify Needs

Cohesive Statewide Vision

Future Focused

Robust Public and Agency Engagement

Coordination with Other Statewide & Local Plans

PROJECT SCHEDULE

There are 159 Counties in Georgia:

- 123 counties have transit service
- 36 counties do not have transit service
