SECTION 2.A CERTIFICATION FORM

I, _____, being duly sworn, state that I am _____ (title) of _____ (applicant) and hereby duly certify that I have read and understand the information presented in the attached proposal and any enclosure and exhibits thereto.

Check each box below indicating certification. The person checking must be the same person who signs the Certification Form. (If unable to check any box for any reason, you must attach a statement explaining the non-certification. The Department will review and make a determination as to whether or not the applicant shall be considered further or be disqualified).

- I further certify that to the best of my knowledge the information given in this application and supporting documentation is full, complete and truthful.
- I further certify that the applicant and any principal employee of the applicant has not, in the immediately preceding five (5) years, been convicted of any crime of moral turpitude or any felony offense, nor has had their professional license suspended, revoked or been subjected to disciplinary proceedings, nor is any team members/principals currently under indictment for any reason related to actions on public projects.
- I further certify that I understand that Firms included on the current Federal list or State of Georgia list of firms suspended or debarred are not eligible for selection and that the applicant has not, in the immediately preceding five (5) years, been suspended or debarred from contracting with any federal, state or local government agency, and further, that the applicant is not now under consideration for suspension or debarment from any such agency.
- I further certify that the applicant has not in the immediately preceding five (5) years been defaulted in any federal, state or local government agency contract and further, that the applicant is not now under any notice of intent to default on any such contract, nor has been removed from a contract or failed to complete a contract as assigned due to cause or default.
- I further certify that the applicant or any affiliate(s) has not been involved in any arbitration, litigation, mediation, dispute review board or other dispute resolution proceeding with a client, business partner, or government agency in the last five (5) years involving an amount in excess of \$500,000 related to performance on public projects.
- I further certify that there are not any pending regulatory inquiries that could impact our ability to provide services if we are the selected contractor.

I acknowledge, agree and authorize, and certify that the applicant acknowledges, agrees and authorizes, that GDOT may, by means that either deems appropriate, determine the accuracy and truth of the information provided by the applicant and that the GDOT may contact any individual or entity named in the Statement of Qualifications for the purpose of verifying the information supplied therein.

I acknowledge and agree that all of the information contained in this application is submitted for the express purpose of inducing the GDOT to award a contract.

A material false statement or omission made in conjunction with this proposal is sufficient cause for suspension or debarment from further contracts, or denial or rescission of any contract entered into based upon this proposal thereby precluding the applicant from doing business with, or performing work for, the State of Georgia. In addition, such false statement or omission may subject the person and entity making the proposal to criminal prosecution under the laws of the State of Georgia of the United States, including but not limited to O.C.G.A. §16-10-20, 18 U.S.C. §§1001 or 1341.

Conflict of Interest Disclosure Form O.C.G.A Title 32 Solicitation

Purpose

This Conflict of Interest Disclosure form is provided to assist Supplier's in screening for potential organizational conflicts of interest. The Conflict of Interest Disclosure form must be submitted along with your proposal.

Definition of "Supplier"

As used herein, the word "Supplier" includes both the prime contractor and all proposed subcontractors.

Approach to Reviewing Potential Conflicts

The Georgia Department of Transportation recognizes that Supplier's must maintain business relations with other public and private sector entities in order to continue as viable businesses. GDOT will take this reality into account as it evaluates the appropriateness of proposed measures to mitigate potential conflicts. It is not GDOT's intent to disqualify Suppliers based merely on the existence of a business relationship with another entity, but rather only when such relationship causes a conflict that potentially impairs the Supplier's ability to provide objective advice to GDOT. GDOT would seek to disqualify Suppliers only in those cases where a potential conflict cannot be adequately mitigated. Nevertheless, GDOT must follow statutory guidance on Conflicts of Interest.

Examples of Possible Conflicts of Interest (but not all inclusive):

1. The Supplier, or its principals, own real property in a location where there may be a positive or adverse impact on the value of such property based on the recommendations, designs, appraisals, or other deliverables required by this Contract.
2. The Supplier is providing services to another governmental or private entity and the Supplier knows or has reason to believe, that entity's interests are, or may be, adverse to the state's interests with respect to the specific project covered by this contract. Comment: the mere existence of a business relationship with another entity would not ordinarily need to be disclosed. Rather, this focuses on the nature of services commissioned by the other entity. For example, it would not be appropriate to propose on a GDOT project if a local government has also retained the Supplier for the purpose of persuading GDOT to stop or alter the project plans.
3. The Contract is for right-of-way services (e.g. geotechnical exploration) and the Supplier has an existing business relationship with a governmental or private entity that owns property to be acquired pursuant to the Contract.
4. The Supplier is providing real estate or design services to a private entity, including but not limited to developers, whom the Supplier knows or has good reason to believe, own or are planning to purchase property affected by the project covered by this Contract, when the value or potential uses of such property may be affected by the Supplier's performance of work pursuant to this Contract. "Property affected by the project" includes property that is in, adjacent to, or in reasonable proximity to current or potential right-of-way for the project. The value or potential uses of the private entity's property may be affected by the Supplier's work pursuant to the Contract when such work involves providing recommendations for right-of-way acquisition, access control, and the design or location of frontage roads and interchanges. Comment: this provision does not presume Suppliers know or have a duty to inquire as to all of the business objectives of their clients. Rather, it seeks the disclosure of information regarding cases where the Supplier has reason to believe that its performance of work under this Contract may materially affect the value or viability of a project it is performing for the other entity.
5. The Supplier has a business arrangement with a current GDOT employee or immediate family member of such employee, including promised future employment of such person, or a subcontracting arrangement with such person, when such arrangement is contingent on the Supplier being awarded this Contract. This item does not apply to preexisting employment of current or former GDOT employees, or their immediate family members.

Existing GDOT Construction Bidding Prequalified Contractor & Registered Subcontractor's ONLY Application

Comment: this provision is not intended to supersede any GDOT policies applicable to its own employees accepting outside employment. This provision is intended to focus on identifying situations where promises of employment have been made contingent on the outcome of this particular procurement. It is intended to avoid a situation where a Supplier may have unfair access to "inside" information.

6. The Supplier has, in previous work for the state, helped create the "ground rules" for this solicitation by performing work such as: writing this solicitation, or preparing evaluation criteria or evaluation guides for this solicitation.
7. The Supplier, or any of its principals, because of any current or planned business arrangement, investment interest, or ownership interest in any other business, may be unable to provide objective advice to the state.

Disclosure of Potential Conflict Of Interest

Please describe below any circumstances that you believe could contribute to a conflict of interest:

I have no conflict of interest to report.

I have the following conflict of interest to report (Describe nature of potential conflict):

<u>CERTIFICATION</u>	
I hereby certify that the information set forth above is true and complete to the best of my knowledge. By signing this form, the Supplier agrees that any such material transaction or relationship has been disclosed to the Department.
