

## Office of Materials and Testing Qualified Products List

(A) Following is a list of **Waterproofing Membranes for Bridge Decks** that have been evaluated and meet the requirements of Standard Specification Sub-section 888.2.01. These membranes are used as a waterproof barrier between the concrete bridge deck and the overlay of asphaltic concrete. These membranes shall be used in accordance with Section 533 of the Standard Specifications.

(B) Following is a list of **Waterproofing Membranes for Pavement Joints and Cracks** that have been evaluated and meet the requirements of Standard Specification Sub-section 888.2.02. These membranes are used to seal joints and cracks in concrete pavement before overlaying with asphaltic concrete. These membranes shall be used in accordance with Section 445 of the Standard Specifications.

(C) Following is a list of **Waterproofing Membranes for Retaining Wall Joints** that have been evaluated and meet the requirements of Standard Specification Sub-section 888.2.03. These membranes serve as a waterproofing barrier for concrete and other types of masonry surfaces. These membranes shall be used in accordance with Section 530.01.B of the Standard Specifications.

Note: All Trade Names are Registered Trademarks of the appropriate company.  
Ending Source # is 008

**BA Preference designation of compliant, non-compliant or exempt for the Build America, Buy America Act, Pub. L. No. 117-58, §§ 70901-52**
