

Detours During Bridge Construction

During construction of the SR 400 Phase 1 Design-Build (DB) project, the Pitts Road bridge will have an anticipated detour for the bridge replacement. During that time, the detour route seen below will be posted for motorists during construction.

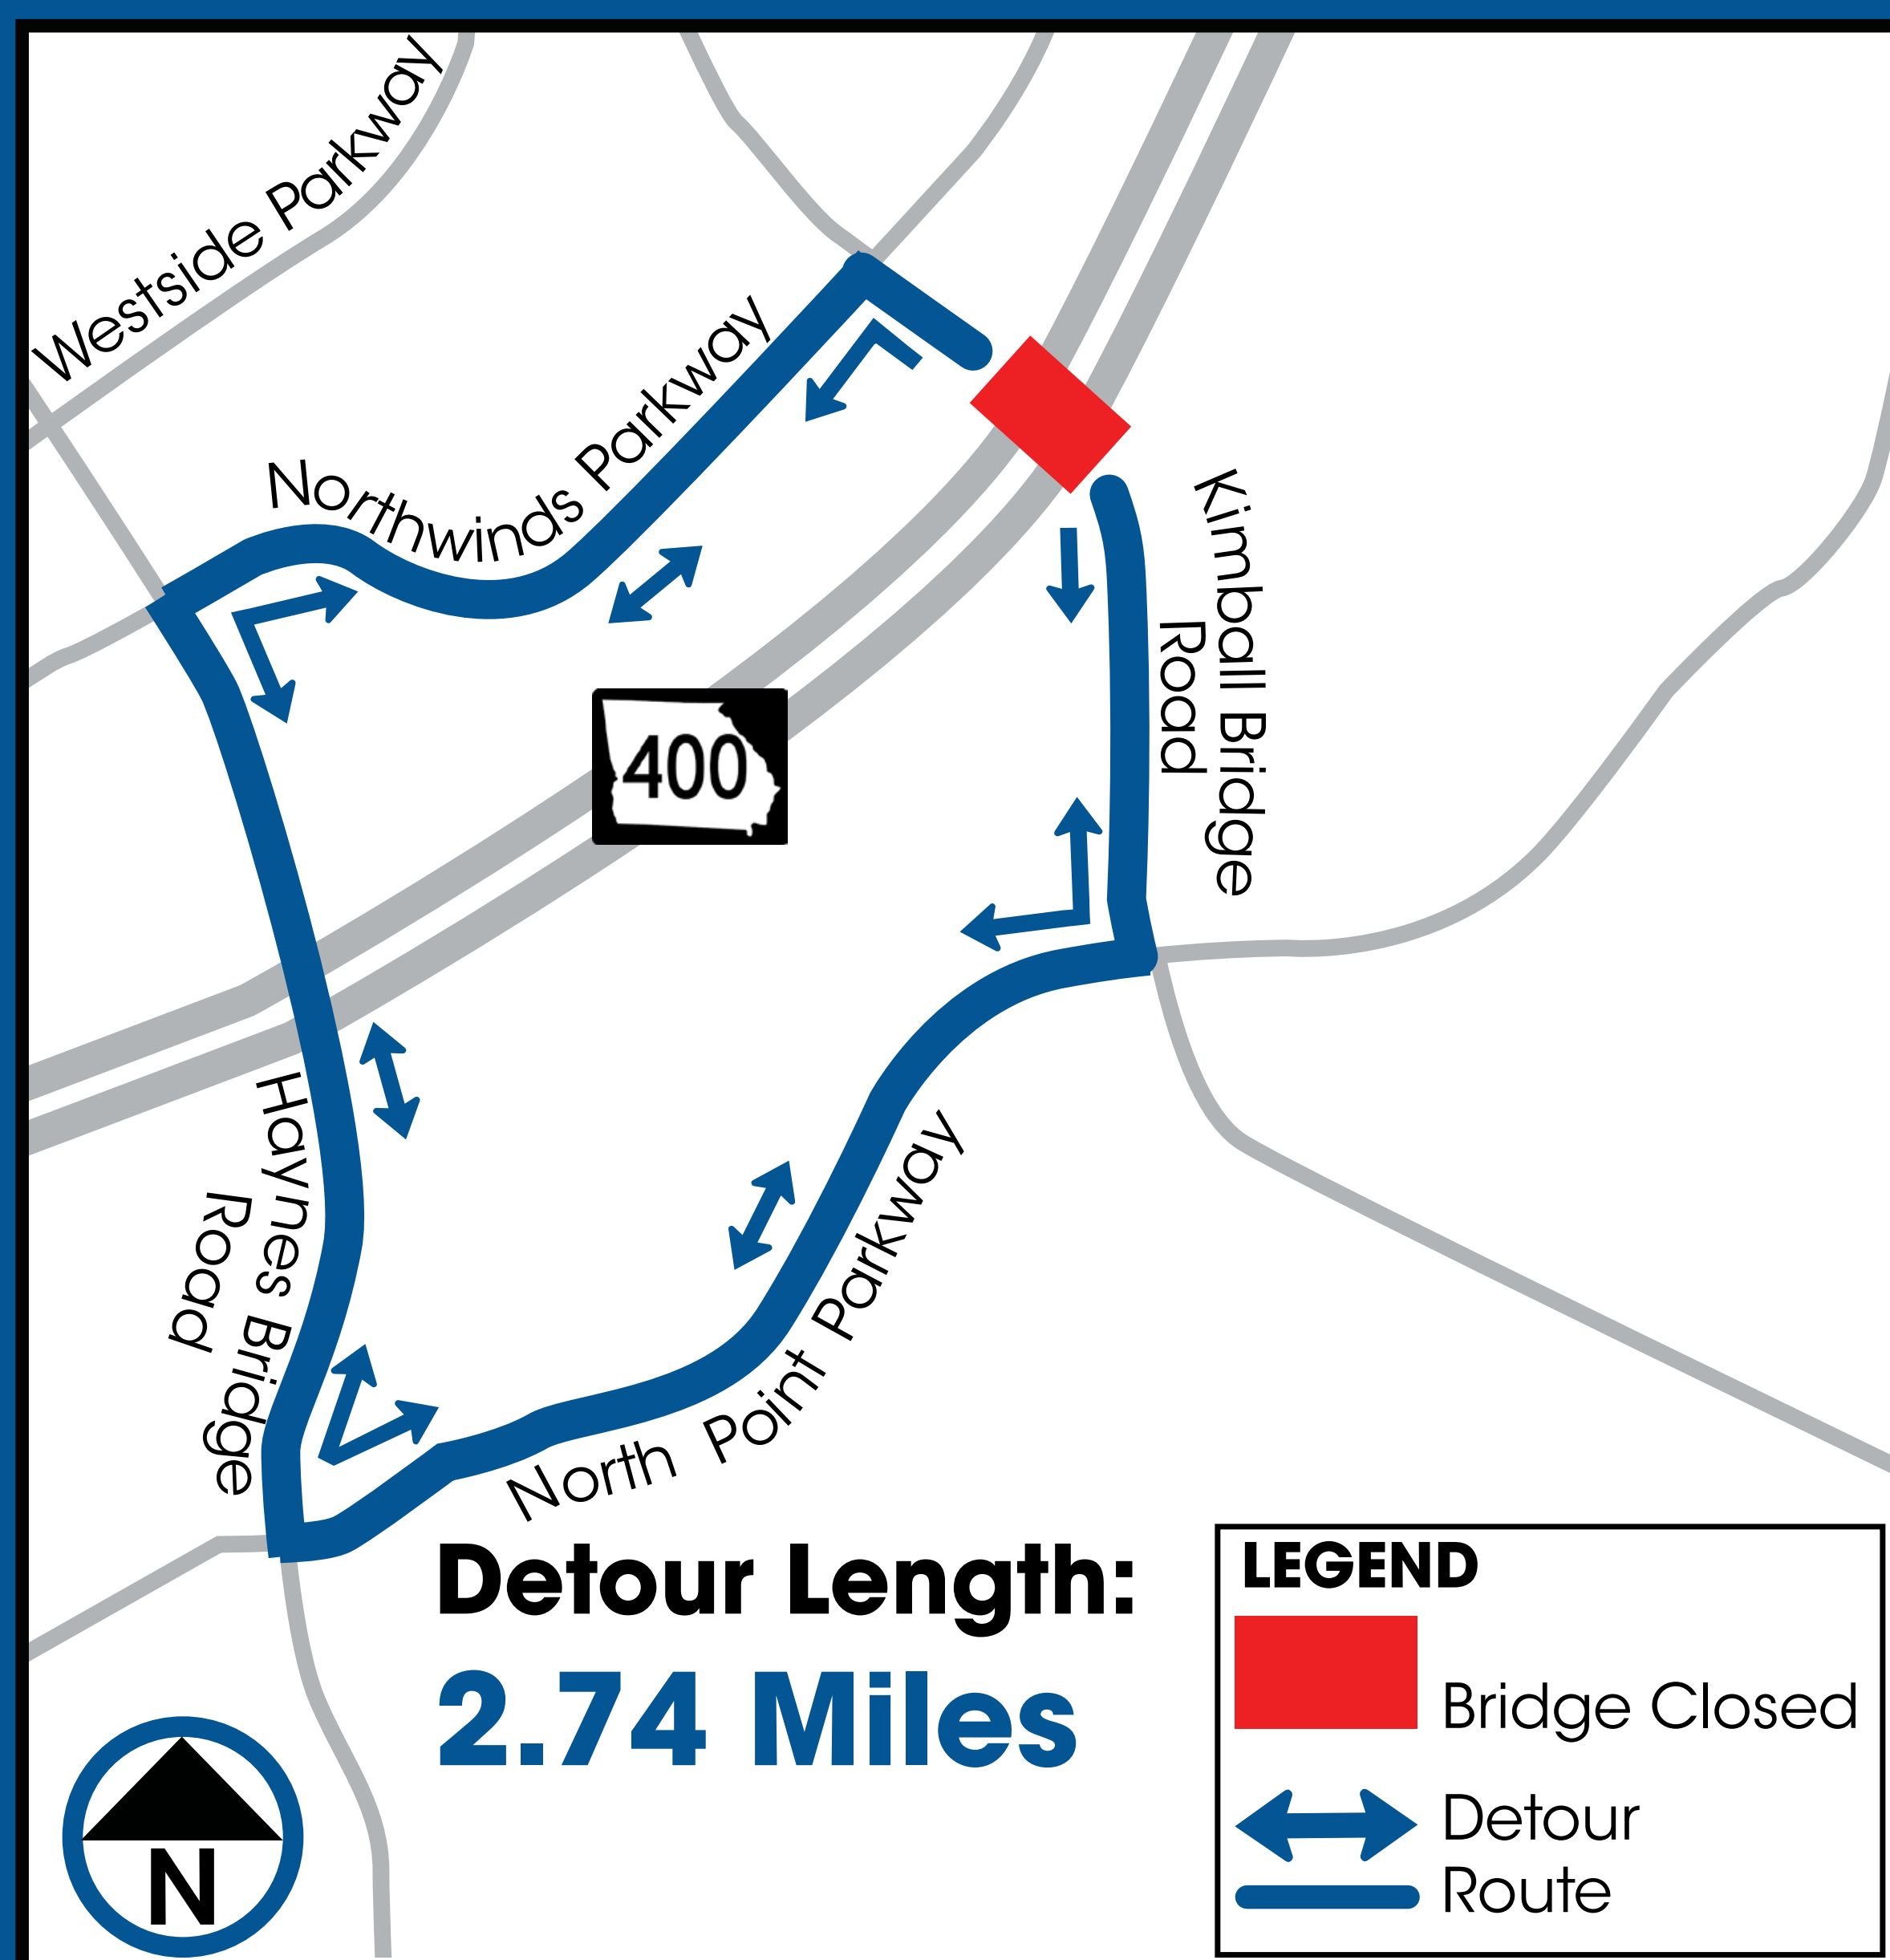

While Pitts Road is closed, motorists will use Northridge Road as an alternate route.

- Georgia DOT will coordinate with local governments, school districts, and first responders on all road closures.
- Advance notice will be given to the public before closures occur.

Detours During Bridge Construction

During construction of the SR 400 Phase 1 Design-Build (DB) project, the Kimball Bridge Road bridge will have an anticipated detour for the bridge replacement. During that time, the detour route seen below will be posted for motorists during construction.

Kimball Bridge Road

While Kimball Bridge Road is closed, motorists will use Haynes Bridge Road as an alternate route.

- Georgia DOT will coordinate with local governments, school districts, and first responders on all road closures.
- Advance notice will be given to the public before closures occur.
