

# US 280, I-16 Frontage, and Old Cuyler Road Interchange Improvements

P.I. Numbers: 0016618, 0019452, 0019451 – Design-Build P3 Division Projects

## Fact Sheet

## What are the Projects?

The projects will provide more efficient access to the new Hyundai Metaplant site and the surrounding area. The Georgia Department of Transportation (Georgia DOT) projects and Bryan County Mega-Site development are separate endeavors.

### The projects consist of:

- Widening US 280, including two roundabouts at the I-16 ramps, one roundabout at Oracal Parkway, a roundabout at Dillon Drive and a roundabout at the new I-16 Frontage Road,
- Constructing a new Frontage Road along I-16, and
- Constructing a new interchange at I-16 and Old Cuyler Road, including three multi-lane roundabouts.

## 5 Things You Need to Know

1. The Georgia DOT team is coordinating with the Savannah Harbor-Interstate 16 Joint Development Authority, Georgia Department of Economic Development, Bryan County, and the Hyundai Metaplant site development team for the successful delivery of these projects.
2. The new location of the proposed interchange at I-16 at Old Cuyler Road (P.I. 0019451) will provide direct access to the interstate system.
3. The I-16 at Old Cuyler Road Interchange will intersect the new I-16 Frontage Road via a multi-lane roundabout. Studies have shown roundabouts reduce crashes and improve operations by eliminating crossing conflicts.
4. The I-16 Frontage Road project (P.I. 0019452) was the first project to start construction, then the US 280 Widening project (P.I. 0016618), and lastly the I-16 at Old Cuyler Road Interchange project project is expected to start in Q3 2025.
5. The projects are being delivered through the alternative Design-Build delivery method, which provides greater delivery efficiencies and accelerated project schedules.

## What's the Status?

The I-16 Frontage Road project reached substantial completion on October 2024. The US 280 Widening project was awarded to a Design-Builder in August 2023 and construction began in Q2 2024. The I-16 at Old Cuyler Road Interchange project was awarded to a Design-Builder in July 2024, and construction is anticipated to begin in Q3 2025.
